Foreword	
The Surgeon as a Humanist. (R.J. Flemma)	V
Preface (The Editors)	IX
 <i>Session I</i>	
<i>Incidence and Description of Neurological and Psychiatric Complications Following Cardiac Surgery</i>	
(Moderator: H.R. Spiro)	1
Early and Late Neurological Complications After Prosthetic Heart Valve Replacement. (V.O. Björk, T. Ivert)	3
Visual Disturbances After Open-Heart Surgery. (R. Meyendorf)	16
Psychotic Reactions in Patients After Open-Heart Surgery. (H.H. Scheld, S. Davies-Osterkamp, K. Möhlen, U. Kalbhenn, M. Kramer, F.W. Hehrlein) . . .	32
Incidence of Psychiatric and Neurological Complications After Cardiac Surgery – Retrospective Versus Prospective Studies. (R. Paech, W. Klinner, R. Meyendorf, B. Reichart, E. Kreuzer)	39
Sociopsychological Factors in Cardiac Surgery. (D. Mohan, N. Gopinath, S. Gupta)	44
Psychiatric Complications Following Open-Heart Surgery: A Prospective Study. (P. Tienari, J. Outakoski, R. Hirvenoja, A. Juolasmaa, J. Takkunen, R. Kampman)	48
Discussion of Session I (Summary)	54
 <i>Session II</i>	
<i>Postoperative Neuropsychiatric Syndromes: Identification and Assessment</i>	
(Moderator: R. Blacher)	57

The Psychopathology and Cognitive Disorder Syndrome (PCD) in Open-Heart Surgery Patients. (A. Willner, C.J. Rabiner)	59
Brief Psychiatric Inventory for Assessment of Psychopathological Disorders After Open-Heart Surgery. (B. Dahme, P. Götze, M. Wessel)	68
Hamburg Rating Scale for Psychic Disturbances – HRPD. (P. Götze, B. Dahme, B. Flemming, G. Huse-Kleinstoll, H.-J. Meffert, H. Speidel, M. Wessel)	77
Relationship Between Psychopathological Syndromes Before and After Open-Heart Surgery. (P. Götze, B. Flemming, G. Huse-Kleinstoll, H.-J. Meffert, Ch. Reimer, H. Speidel)	84
Discussion of Session II (Summary)	91
 <i>Session III</i>	
<i>Organic Findings in Patients with Postoperative Neuropsychiatric Complications</i> (Moderator: M.-J. Polonius)	99
The Relative Importance of Psychic and Somatic Risk Factors for Postoperative Dysfunctions After Open-Heart Surgery – Preliminary Results. (H.-J. Meffert, B. Flemming, P. Götze, G. Huse-Kleinstoll, Ch. Reimer, H. Speidel)	101
Early Psychic Disturbances After Open-Heart Surgery and Their Relationship to the Postoperative Clinical Course. (G. Huse-Kleinstoll, B. Flemming, P. Götze, H.-J. Meffert, M.-J. Polonius, Ch. Reimer, H. Speidel, G. Wiese)	107
Computerized Electroencephalogram in Open-Heart Surgery: Prediction of Postoperative Psychological Complications. (W. Spehr, P. Götze)	119
Discussion of Session III (Summary)	125
 <i>Session IV</i>	
<i>Clinical Approaches to the Psychological Care of the Patient Undergoing Cardiac Surgery</i> (Moderator: R.J. Flemma)	127
Psychological Effects of Preoperative Doctor-Patient Communications. (H. Traeger, B. Flemming, J. Nordmeyer, H.-J. Meffert, N. Bleese, H.-J. Krebber)	129

Reactions to Illness: The Acute Phase	
The Interplay of Environmental Factors	
The Intensive Care Unit. (Ch. P. Kimball)	137
The Control of Anxiety by Hypnosis and Anxiolytics in Open-Heart Surgery. (A. Nwaefuna)	146
Consultation-Liaison in Intensive Care Units. (H. Freyberger)	154
Rehabilitation Following Open-Heart Surgery – From a Surgeon's Point of View. (G. Rodewald, P. Kalmar, H.-J. Krebber)	160
Characteristics of Postoperative Patient Education Programs For Open-Heart Surgery Patients in the United States. (R.A. Frantz)	168
Model of an Integrated Psychotherapeutic Approach to the Heart Surgery Patient. (H. Speidel, B. Flemming, P. Götze, G. Huse-Kleinstoll, H.-J. Meffert, Ch. Reimer)	175
Discussion of Session IV (Summary)	181
 <i>Session V</i>	
<i>Neuropsychological Considerations in the Care and Treatment of Children Undergoing Cardiac Surgery</i> (Moderator: R. Becker)	185
Cardiac Surgery in Infancy Using Profound Hypothermia and Circulatory Arrest: Late Developmental Progress. (P.M. Clarkson, B.A. MacArthur, B.G. Barratt-Boyes, R.M. Whitlock, J.M. Neutze)	187
Psychiatric Complications in Children After Open-Heart Surgery. (G. Jänsch, K. Bühlmeier, R. Meyendorf, F. Sebening, E. Tacke, Ch. Tröndle)	193
Comparison of Personality and Social Development After Heart Surgery Using Profound Hypothermia, Normothermia Perfusion, and Cardioplegia in Children. (J. Wada, Y. Takanashi, H. Matsui, M. Iwasa, M. Nakazawa, A. Takao, R. Umezu)	201
Chronic "Life-Threatening" Illness in Childhood and Adolescence: Developmental, Cognitive and Psychotherapeutic Considerations in the Care of Children Facing Open-Heart Surgery – Selected Israeli Experience. (R.D. Becker)	207
Discussion of Session V (Summary)	212

*Session VI**Postsurgical Adaptation: Issues and Experience*

(Moderator: Ch. P. Kimball) 215

Recovery After Major Heart Surgery: Medical, Psychological, and Work Outcomes. (B.A. Stanton, St. J. Zyzanski, C.D. Jenkins, M.D. Klein) 217

Psychosocial Situation of the Open-Heart Surgery Patient One Year After Operation (S. Davies-Osterkamp, G. Siefen, K. Möhlen, H. Müller, M. Schlepper) 227

Relationship Between Preoperative Coping Styles, Immediate Postoperative Reactions and Some Aspects of the Psychosocial Situation of Open-Heart Surgery Patients One Year After the Operation. (K. Möhlen, S. Davies-Osterkamp, H. Müller, H.H. Scheld, G. Siefen) 232

Psychological and Behavioral Responses Following Coronary Artery Bypass Surgery. (St. S. Heller, K.A. Frank, D.S. Kornfeld, S.N. Wilson, J.R. Malm) 238

Effects of Environmental Stress upon the Long-term Outcome of Open-Heart Surgery: A Five-Year Follow-up Study. (C.J. Rabiner, A.E. Willner, K. Detmer) 246

Discussion of Session VI
(Summary) 254*Session VII**General Psychological Issues*

(Moderator: B.-A. Stanton) 257

Achievement Motivation After Chronic Disease. (G. Dahme) 259

The Fantasy of Resurrection and Rebirth in Cardiac Surgery Patients. (R.S. Blacher) 269

Psychodynamic Considerations and Findings About Patient Adjustment to Heart Operations. (Ch. Reimer, B. Flemming, P. Götze, G. Huse-Kleinstoll, H.-J. Meffert, H. Speidel) 276

Patients' Fear of Cardiosurgery and Its Significance for the Pre- and Postoperative State. (B. Flemming, B. Dahme, P. Gotze, G. Huse-Kleinstoll, H.-J. Meffert, L. Müller, Ch. Reimer, H. Speidel) 281

Discussion of Session VII
(Summary) 289

*Session VIII**Influence of Surgical Technique on Postoperative Neuropsychiatric Complications*

(Moderator: D. Longmore) 291

Intracranial Hemorrhage and Hematoma Following Open-Heart Surgery. (Su Hong-xi) 293

Focal Neurological Lesions and Diffuse Organic Brain Damage in Open-Heart Surgery Patients. Postoperative Thrombocytosis and Platelet Aggregation – A Possible Aetiological Factor in the Causation of Organic Brain Dysfunction. (D.W. Bethune) 300

Comparison of Psychometric Findings Following Use of Bubble and Membrane Oxygenator. (H.J.L. Boccalon) 307

Prevention of Postoperative Psychic and Neurological Disturbances After Open-Heart Surgery Using Prostacyclin: A Clinical Study. (H. Pokar, N. Bleese, H. Fischer-Düsterhoff, P. Götze, G. Huse-Kleinstoll, J. Koedijk, M.-J. Polonius, K. Prüssmann, V. Tilsner) 312

The Effects of Prostacyclin on Reducing Cerebral Damage Following Open-Heart Surgery. (D. Longmore) 320

Improved Cerebral Protection During Open-Heart Surgery. A Psychometric Investigation on 339 Patients. (T. Åberg, M. Kihlgren, L. Jonsson, K. Stjernlöf, U. Lönn, T. Rystedt, H. Tydén, C.-J. Westerholm, A. Taube). 343

Microembolization Due to Microbubbles Released from the Oxygenator. (H.J. Krebber, G. Lutz, M.-J. Polonius, G. Rodewald) 352

Effect of Pulsatile Flow and Arterial Line Filtration on Cerebral Cellular Damage During Open-Heart Surgery. (K.M. Taylor) 362

Discussion of Session VIII
(Summary) 371Final Panel Discussion
(Moderators: M.-J. Polonius and H.R. Spiro) 373

The International Study: A Course for the Future. (J.M. Katz) 381

In Memoriam: Professor Robin D. Becker. (R.J. Flemma) 383
