1 Differential Diagnosis of Soft Tissue Calcification	1
History	3
Physical Examination	6
Laboratory Tests	9
Radiology	9
Biopsy	14
Summary	14
 2 Ossification After Major Trauma	 17
Ossification After Repeated Minor Trauma	23
Hematoma Ossification	24
Post-traumatic Ossification of Ligaments and Tendons	25
Ossification After Hip Replacement	27
Ossification After Burns	31
Ossification After Tetanus	33
 3 Tumor Ossification	 38
Parosteal Osteosarcoma	38
Soft Tissue Osteosarcoma	40
Other Ossifying Connective Tissue Tumors	42
Ossifying Skin Tumors	43
Visceral Tumor Ossification	44
Pseudomalignant Myositis Ossificans	46
 4 Fibrodysplasia Ossificans Progressiva	 54
Prevalence	55
Clinical Features	55
Radiology	61
Laboratory Studies	65

Pathology	65
Etiology	67
Natural History	69
Management	70
 5 Ossification in Neurological Conditions	 75
History and Nomenclature	75
Prevalence	75
Clinical Features	77
Radiology	79
Pathology	80
Pathogenesis	81
Natural History	82
Management	82
 6 Other Causes of Soft Tissue Ossification	 87
Ossification in the Arthropathies	87
Ossification of the Posterior Longitudinal Ligament (OPLL)	91
Bridging of Lumbar Transverse Processes	92
Ossification in Surgical Incisions	93
Ossification in Chronic Venous Insufficiency	96
Hypoparathyroidism	98
Hereditary Hypophosphatemia	100
Primary Osteoma Cutis	101
Para-articular Ossification in Melorheostosis	102
Miscellaneous Causes	103
 7 Experimental Production of Ectopic Bone	 108
Traumatic Induction of Bone	108
Cellular Induction of Bone	109
Chemical Induction of Bone	110
Cells with Osteogenic Potential	112
 8 Regulation of Osteogenesis	 117
Origins of Osteogenic Cells	117
Normal Osteogenesis	118
Hormones and Osteogenesis	119
Alkaline Phosphatase and Osteogenesis	120
Vitamins and Osteogenesis	121
Trace Elements and Osteogenesis	122
Mechanical Stress and Osteogenesis	123
Electricity and Osteogenesis	124

Contents	xiii
Genes and Osteogenesis	124
Cellular Interactions and Osteogenesis	125
Medications and Osteogenesis	126
Other Influences on Osteogenesis	127
9 Conclusions and Clinical Implications	132
Subject Index	141
