Welcoming Address. M. GIOVANNINI	1
--	---

Introduction. F. H. W. HEUCK	3
--	---

I. Physiology

Physiological Aspects Concerning the Diagnostic Analysis of Circulatory Dynamics. TH. KENNER With 7 Figures	6
---	---

II. Pharmacology of Contrast Media

Contrast Media for Cardiovascular Analysis. E. SCHMIEDEL With 13 Figures	18
---	----

The Pharmacological Effect of Contrast Media on Renal Circulation Measured by Means of Angiodensitometry. H. K. DEININGER With 3 Figures	27
---	----

III. Technique of Injection

Technique for Injection of Contrast Medium. U. FAUST, D. DECKER and K. NAST With 5 Figures	36
--	----

Model Experiments for Angiocinedensitometry. D. DECKER, U. FAUST and U. REISER With 5 Figures	42
---	----

IV. Physical and Technical Basics for the Radiological Analysis of Circulation

Problems of Choice of Reference System for Quantitative Radiological Circulation Analysis. D. PROPPE and K. VANSELOW With 6 Figures	50
Information Content of Cinedensitometric Blood Flow Measurements. K. WOLSCHENDORF With 5 Figures	63
Problems of Different Methods of Radiographic Absorptiometry of Circulation. K. VANSELOW and D. PROPPE With 6 Figures	69
Digital Videodensitometry: Some Approaches to Radiographic Image Restoration and Analysis. R. BRENNECKE, H.-J. HAHNE, J. H. BÜRSCH and P. H. HEINTZEN With 9 Figures	79
Flow Measurements by Videodensitometry. H. P. BUSCH, M. GEORGI and L. STRAUSS With 8 Figures	89
Influence of Time Resolution in Cine and Video Cardangiography. U. KLIEGIS and K. VANSELOW With 4 Figures	96
Automated Digital Image Processing for Hemodynamic Investigations. E. R. REINHARDT, W. GREINER and W. H. BLOSS With 4 Figures	103
Application Fields of Computer Angiography. K. H. HÖHNE, M. BÖHM, U. OBERMÖLLER, E. GRABBE and E. BÜCHELER With 6 Figures	111
Demonstration of Dopamine Effect in Dog Kidneys by Computer Angiography. R. MAAS, G. WITTE, E. GRABBE and U. OBERMÖLLER With 7 Figures	116

V. Clinical Applications and Results

Roentgen Cinedensitometry of Blood Circulation. F. H. W. HEUCK With 8 Figures	124
--	-----

Arterial Blood Flow

Coronary Flow Measurements Using Cinedensitometry.

D.DECKER and G. BLÜMCHEN

With 1 Figure 146

Survey of Techniques for Measuring Myocardial

Microperfusion. H. EICHSTÄDT and R. FELIX

With 8 Figures 150

Densitometric Analysis of Cerebral Blood Flow.

W.-D. MÖLLER

With 1 Figure 163

Angiocinedensitometry of Renal Blood Circulation by ECG

Controlled Injection. J. BUCK, L. GUHL, D. DECKER

and U. REISER

With 6 Figures 165

Results of Blood Flow Measurements. U. ERIKSON, G. HELMIUS

and G. RUHN

With 4 Figures 170

Cinedensitometric Examinations of the Human Abdominal

Aorta. R. WEISKE and K. VANSELOW

With 7 Figures 175

Cinedensitometric Measurement of Flow in the Femoral

and Iliac Arteries During Angioplasty. W. KRINGS, F.-J. ROTH

and D. DECKER 182

Venous Blood Flow

Determination of Portal and Arterial Liver Hemodynamics by

Angiodensitometry. H. D. PIROTH

With 2 Figures 186

Videodensitometric Measurement of Venous Return from the

Lower Limb. H. FRÖHLICH and TH. WUPPERMANN

With 2 Figures 190

Stenoses

Computer Aided Densitometric Evaluation of Coronary

Cineangiograms. J. R. SPEARS, T. SANDOR, J. SERUR

and S. PAULIN

With 9 Figures 195

Quantification of Coronary Stenoses. K. BARTH, A. BOTH, U. FAUST and K. WEDEKIND With 6 Figures	207
---	-----

VI. Angiographic Studies by Image Subtraction

Systems for Digital Diagnosis of Vessels. G. R. SCHWANDT With 10 Figures	216
---	-----

Analysis of the Circulatory System Using Intravenous Contrast Medium Injections. J. HAENDLE With 10 Figures	222
---	-----

Importance of Contrast Agent Bolus in Intravenous Subtraction Angiography. M. FRIEDRICH and R. SÖRENSEN With 7 Figures	233
--	-----

Analytical Function Studies Using Digital Intravenous Angiography as a Method for Quantitative Analysis of the Circulation. W. SEYFERTH, G. WESSELS and E. ZEITLER With 3 Figures	244
--	-----

Functional Possibilities with the Digital Vascular Imaging System. J. W. LUDWIG and P. H. C. ENGELS With 5 Figures	249
--	-----

Digital Subtraction Angiography as a Control Procedure After Surgery and Percutaneous Transluminal Angioplasty. A. L. BAERT, F. DE SOMER, M. NIJSSENS and G. WILMS With 2 Figures	254
--	-----

VII. Dynamic Studies by Computed Tomography

Bolus Geometry and Dynamics After Intravenous Injection of Contrast Media. C. D. CLAUSSEN and R. FELIX With 3 Figures	260
---	-----

The Chronogram – Principle and First Results. W. A. KALENDER With 5 Figures	265
---	-----

Renal Perfusion Studies by Means of CT. H. TREUGUT With 3 Figures	274
--	-----

Dynamic Computed Tomography in Abdominal Tumors:
New Aspects for Differential Diagnosis. H. METZGER,
K.-H. HÜBENER and B. KURTZ
With 5 Figures 279

Subject Index 287
