Foreword: Proceedings – Paper selection “Advanced Ceramics and Applications” — V

List of contributors — XI

Shabana P. S. Shaikh, Vojislav V. Mitic

- 1 A review on current status and future scope of hydrogen fuel cell technology in India and across globe — 1**

Qinglei Liu, Danmiao Kang, Jiajun Gu, Wang Zhang, Di Zhang

- 2 Porous graphitic carbons derived from seaweed for supercapacitors and the effect of the nanotexture on the rate performance — 11**

Frank Kern

- 3 Rare earth oxide-stabilized zirconia ceramics and composites with enhanced mechanical and functional properties — 29**

Rainer Gadow, Andreas Killinger, Venancio Martinez

- 4 Glass and glass ceramic layer composites with functional coatings — 41**

Zaffar M. Khan, Saad Nauman, M. Ali Nasir

- 5 Structural health monitoring of glass fiber composite materials by piezoelectric nanosensors under cyclic loading — 61**

Dragan Djurdjević, Vojkan Mitić, Miroslav Stevanović, Ljubiša Kocić

- 6 Fractal tools in combating terrorism and money laundering — 71**

Rainer Gadow, Steffen Esslinger, Matthias Blum

- 7 Inkjet three-dimensional printing of bioceramics and bioglass — 85**

Jih Ru Hwu, Shwu-Chen Tsay, Shih Ching Hung, Ming-Hua Hsu, Ji-Yuan Ma, Vojislav V. Mitic, Goran Lazovic, Shang-Shing P. Chou

- 8 Identification of radicals responsible for DNA cleavage by photolysis of bis-oxime esters — 101**

Wang Zhang, Qinlei Liu, Jiajun Gu, Di Zhang, Branislav Jelenković,
Dejan V. Pantelić

**9 Fabrication of hierarchical replicas with near-perfect microstructure
using modified biotemplate method — 109**

Žarko Mitić, Sanja Stojanović, Stevo Najman, Mike Barbeck,
Miroslav Trajanović

**10 Analysis of the in vivo course of foreign body response to a phycogenic
bone substitute using FTIR spectroscopy — 117**

Dragana Jugović

**11 Synthesis and structural characterization of some cathode materials for
lithium-ion batteries — 123**

Aleksandar Radunovic, Zoran Popovic, Aleksandar Matic, Maja Vulovic

12 Application of ceramic components in knee arthroplasties — 155

Pelemiš S., Mirjanić D. Lj., Mirjanić V., Mirjanić Dj., Vuković S.

13 Nanomaterials application in dentistry — 165

Aleksandar Radunovic, Zoran Popovic, Ognjen Radunovic, Maja Vulovic

14 Complications of utilizing ceramic components in orthopedic surgery — 173

Zorica Ž. Lazarević, Martina Gilić, Aleksandra Milutinović, Nebojša Romčević,
Hana Ibrahim Elswie, Vesna Radojević, Dalibor L. Sekulić

15 Growth and characterization of calcium fluoride single crystals — 179

Marija Stojmenović, Vladimir Dodevski

**16 Ceramic electrolytes for solid oxide fuel cells (SOFCs) as alternative
energy sources — 205**

Silvana B. Dimitrijević, Stevan P. Dimitrijević

17 E-scrap processing: theory and practice — 237

Mirjanić D. Lj., Pelemiš S.

**18 Intelligent nanomaterials for medicine diagnostic and therapy
application — 263**

S. Petrović, N. Starčević, M. Ćosić, N. Nešković

19 On the doughnut effect and the rainbow proton–silicon interaction potential — 271

Ana Radosavljević-Mihajlović, Vojislav Mitic

20 The methods of safe storage of spent nuclear fuel and waste — 277

Zoran B. Vosika, Vojislav V. Mitić, Goran Lazović, Vesna Paunović,
Ljubiša Kocić

21 Fractal corrected Schottky potential and Heywang model — 293
