Introduction: A Humanism of Embodiment 1

Acknowledgments 8

References 8

A Artificial Intelligence, Transhumanism, Virtuality

1 Human and Artificial Intelligence: A Clarification 13

Introduction: The World of Data 13

The Digitization of the World 16

Subjectivity and Its Simulation 20

Persons are Not Programs 24

Programs are Not Persons 28

Robots, Androids, and Artificial Life (AL) 35

Conclusion: Simulation and Original 41

References 45

2 Beyond the Human? A Critique of Transhumanism 49

Introduction: Between Naturalism and Culturalism 49

The Idea of Perfectibility 54

Can Human Nature be Improved? 59

Cognitive Skills 59

Happiness and Morality 61

Aging and Death 64

The Contradictions of Posthumanism 67

Mind Uploading or Transfer of Consciousness 69

Critique of Functionalism 71

Critique of Neuro-Reductionism 74

Transhumanism as Neo-Gnosticism 75

Conclusion 76

References 79

3 The Virtual Other: Empathy in the Age of Virtuality 83

Introduction 83

Empathy and Virtual Reality 86

Primary, Implicit, or Intercorporeal Empathy	86
Extended, Explicit or Imaginative Empathy	87
Fictional Empathy	88
Interim Summary	92
Virtualization in the Present	94
Phantomization	94
Disembodied Communication	96
Summary and Conclusion	98
References	101

B Brain, Person, and Reality

4 Person and Brain: Against Cerebrocentrism 107

Introduction	107
Critique of the Cerebral Subject	109
Subjectivity and Intentionality	109
Embodiment	110
Interpersonality	112
Critique of Localizationism	113
Critique of Neuroimaging	114
Holism of Consciousness	115
Personhood as Embodied Subjectivity	116
Brain, Body, and Environment	116
Brain Transplantation	119
Conclusion	120
References	121

5 Embodied Freedom: A Libertarian Position 124

Introduction	124
Can Brains make Decisions?	126
Freedom as a Personal Ability	128
Embodied Freedom	131
Counter Positions	133
External Objections	133
The Compatibilist Counter Position	136
Immanent Objections	138
Conclusion	141
References	142

6 Brain World or Life World? Critique of Neuroconstructivism 144

Introduction 144

Bodily Being-in-the-World: The Coextension of Lived Body
and Physical Body 147

The Locus of Pain 151

Conclusion: Life-World and Neuroscience 153

References 155

7 Perception and Reality: Sketch of an Interactive Realism 157

Introduction 157

Perception as Interaction 159

The Objectifying Power of Perception 162

The Implicit Intersubjectivity of Perception 164

Genesis of Intersubjective Perception 167

Subjectivation of Perception in Schizophrenia 169

Summary 171

References 174

C Psychiatry and Society

8 Psychiatry between Psyche and Brain 181

Introduction 181

Reductionist Assumptions and their Verification 184

Psychiatry as Relational Medicine: An Integrative Concept 188

Conclusion 190

References 192

9 Embodiment and Personal Identity in Dementia 196

Introduction 196

Personal Identity 197

Body Memory 200

Dementia and Personal Identity 203

Dementia as a Loss of Reflexivity and Meta-Perspective 203

Body Memory in Dementia 205

Relational versus Embodied View of the Person in Dementia 209

Conclusion 212

References 213

**10 The Cyclical Time of the Body and the Linear Time of
Modernity 217**

Introduction 217

The Processes of Life and their Cyclical Time 218

The Cyclical Structure of Body Memory 222

Cyclical and Linear Time 225

Individual and Collective Formation of the Linear Order of Time 226

Conflicts between Cyclical and Linear Orders of Time 228

Conclusion 231

References 232

Text References (English papers) 237
