

Overview of Contents

Part I: Introduction: Objective of this dissertation	1
1 Motivation	3
2 Theoretical background and purpose	8
3 Research approach and structure	13
 Part II: Grounding of the dissertation: Theoretical background	 21
1 Objectives and structure.....	23
2 Service innovation in the digital age	25
3 From the resource-based view to dynamic capabilities	30
4 Dynamic capabilities for service innovation	35
5 Summary and implications.....	38
 Part III: Introducing data-driven service innovation	 41
1 Introduction	43
2 Theoretical Foundations.....	46
3 Methods – Systematic literature review and expert interview method	49
4 Findings	65
5 Discussion.....	82
6 Theoretical contribution and outlook.....	87
 Part IV: Identifying actors and challenges for data-driven service innovation	 91
1 Introduction	93
2 Theoretical background.....	97
3 Method – Case study research.....	102
4 Findings	108
5 Discussion.....	116

6	Summary and implications	121
---	--------------------------------	-----

Part V: Exploring actor roles and capabilities for data-driven service

	innovation.....	125
1	Introduction.....	127
2	Theoretical background	130
3	Method – Delphi study	135
4	Findings.....	141
5	Discussion.....	150
6	Summary and implications	153

Part VI: Summarizing findings and implications..... 157

1	Introduction.....	159
2	Summary of parts I – V	161
3	Synthesization of results	170
4	Discussion, implications and further research	174
5	Final considerations.....	182

References 185

Annexes..... 208

Table of Contents

Part I: Introduction: Objective of this dissertation.....	1
1 Motivation	3
2 Theoretical background and purpose	8
3 Research approach and structure	13
3.1 Part III: Introducing data-driven service innovation.....	15
3.2 Part IV: Identifying actors and challenges for data-driven service innovation	16
3.3 Part V: Exploring actor roles and capabilities for data-driven service innovation	17
 Part II: Grounding of the dissertation: Theoretical background	 21
1 Objectives and structure.....	23
2 Service innovation in the digital age	25
3 From the resource-based view to dynamic capabilities	30
3.1 Sensing capabilities.....	32
3.2 Seizing capabilities.....	32
3.3 Reconfiguration capabilities	33
4 Dynamic capabilities for service innovation	35
4.1 Sensing capabilities for service innovation	36
4.2 Seizing capabilities for service innovation	36
4.3 Reconfiguration capabilities for service innovation	37
5 Summary and implications.....	38
 Part III: Introducing data-driven service innovation	 41
1 Introduction	43
2 Theoretical Foundations.....	46
2.1 Innovating data-driven service.....	46

2.2	Dynamic capabilities for service innovation	46
2.3	Dynamic capabilities and digitization.....	47
3	Methods – Systematic literature review and expert interview method	49
3.1	Systematic literature review	49
3.1.1	<i>Data collection</i>	50
3.1.2	<i>Data analysis</i>	52
3.2	Expert interview study	60
3.2.1	<i>Data collection</i>	60
3.2.2	<i>Data analysis</i>	62
3.3	Step 3: Synthesis	63
4	Findings.....	65
4.1	Synthetization of concepts from systematic literature review and expert interview analysis.....	66
4.2	Data-driven service innovation barriers, capabilities, dynamic capabilities, and their underlying characteristics	66
4.2.1	<i>Data privacy</i>	70
4.2.2	<i>Standardization</i>	71
4.2.3	<i>Data access, collection, and ownership</i>	71
4.2.4	<i>Human IT resources</i>	72
4.2.5	<i>Resource recombination</i>	73
4.2.6	<i>Revenue models</i>	74
4.2.7	<i>External collaboration</i>	75
4.2.8	<i>Internal collaboration</i>	77
4.2.9	<i>Customer-oriented culture and strategy</i>	78
4.2.10	<i>Data-oriented culture and strategy</i>	80
4.2.11	<i>Top management support</i>	80
5	Discussion	82
6	Theoretical contribution and outlook	87

Part IV: Identifying actors and challenges for data-driven service

	innovation.....	91
1	Introduction.....	93

2	Theoretical background.....	97
2.1	Actor collaboration in data-driven service innovation	97
2.2	Challenges for collaboration in service innovation in manufacturing.....	98
3	Method – Case study research.....	102
3.1	Case selection.....	104
3.2	Data collection.....	105
3.3	Data analysis.....	107
4	Findings	108
4.1	Actors involved in data-driven service innovation	108
4.2	Challenges of collaboration in data-driven service innovation	110
4.2.1	<i>Challenges related to intra-organizational collaboration</i>	<i>111</i>
4.2.2	<i>Challenges related to inter-organizational collaboration.....</i>	<i>112</i>
4.2.3	<i>Underlying issues affecting collaboration in data-driven service innovation....</i>	<i>114</i>
5	Discussion.....	116
6	Summary and implications.....	121
6.1	Managerial implications	121
6.2	Theoretical contribution and outlook	122

Part V: Exploring actor roles and capabilities for data-driven service

	innovation	125
1	Introduction	127
2	Theoretical background.....	130
3	Method – Delphi study.....	135
3.1	Data collection.....	136
3.2	Data analysis.....	140
4	Findings	141
4.1	First Delphi round – Exploration of functions and tasks.....	141
4.2	Second Delphi round – Identification of key activities	143
4.3	Third Delphi round – Ranking of activities by importance.....	145
4.4	Synthetization of results	147
5	Discussion.....	150
6	Summary and implications.....	153

6.1 Managerial implications.....	153
6.2 Theoretical contribution and outlook.....	154
Part VI Summarizing findings and implications.....	157
1 Introduction.....	159
2 Summary of parts I – V	161
3 Synthetization of results	170
3.1 Towards a dynamic capability framework for data-driven service innovation.....	172
4 Discussion, implications and further research	174
4.1 Overall discussion and theoretical implications.....	174
4.2 Managerial implications.....	176
4.3 Venues for further research	177
5 Final considerations.....	182
