Foreword	x
Preface	xi
Acknowledgments	xii
Contributors	xiii
1 Cardiogenesis and Classification of Congenital Heart Defects	1
<i>Eberhard Kuenzel and Wolfgang Schmidt†</i>	
1.1 Cardiogenesis	1
1.1.1 Precordial Phase (Weeks 1 and 2 of Development Post Ovulation)	2
1.1.2 Cardiac Phase (Weeks 3–8 of Development Post Ovulation)	2
1.2 Classification and Nomenclature	14
1.2.1 Overview, Segmental Analysis, and Determination Algorithms	14
2 Surgical Treatment for Congenital Heart Defects	24
2.1 Fundamentals of Surgical Treatment	24
<i>Martin Kostelka, Farhad Bakhtiary, and Friedrich Wilhelm Mohr</i>	
2.1.1 Evolution of Congenital Heart Surgery ...	24
2.1.2 Cardiac Surgery for Congenital Heart Defects within the Scope of Gradual Therapy or Palliative Treatment	24
2.1.3 Early Correction vs. Gradual Treatment ...	28
2.1.4 Cardiac Surgical Treatment for Common Congenital Heart Defects	29
2.2 Patient Preparation and Sedation	34
<i>Axel Rentzsch and Hashim Abdul-Khaliq</i>	
2.2.1 Preprocedural Visits	35
2.2.2 Sedation	36
2.2.3 Special Exam Methods	39
References	41
3 Technical Basics of Diagnostic and Interventional Imaging	43
3.1 Echocardiography	43
<i>Hasim Abdul-Khaliq and Matthias Gutberlet</i>	
3.1.1 Introduction	43
3.1.2 Standard Techniques	43
3.1.3 Special and Newer Techniques	52
3.2 Computed Tomography and Radiation Protection	60
<i>Willi A. Kalender</i>	
3.2.1 Introduction	60
3.2.2 Modern Computed Tomography Technology	61
3.2.3 Technical Approaches to Cardiac Imaging	63
3.2.4 Patient Dose and Radiation Protection ...	64
3.2.5 Recommendations for Scan Techniques and Dose Optimization	66
3.3 Cardiac Magnetic Resonance Imaging	67
<i>Matthias Gutberlet</i>	
3.3.1 Introduction	67
3.3.2 Slice Selection and Spatial Encoding	68
3.3.3 Avoiding Motion Artifacts	69
3.3.4 Rapid Imaging	71
3.3.5 Cine Magnetic Resonance Imaging	73
3.3.6 Quantitative Flow Measurements	73
3.3.7 Magnetic Resonance Angiography	76
3.3.8 Depiction of Scars and Fibroses	80

3.4	Imaging-Guided Interventional Treatment	83	3.5	Interventional Magnetic Resonance Imaging	95
	<i>Ingo Dähnert</i>			<i>Arno Bücken and Titus Kühne</i>	
3.4.1	Introduction	83	3.5.1	Introduction	95
3.4.2	Catheter Procedures without Imaging Guidance	84	3.5.2	Technology	95
3.4.3	Methods of Imaging Guidance	85	3.5.3	Pediatric Cardiology Applications.....	97
			References		102
			Suggested Reading		105
4	Clinical Pictures	106			
4.1	Shunt Defects	106	4.3.2	Aortic Coarctation	170
4.1.1	Atrial Septal Defect	106		<i>Joachim Lotz, Joachim Eichhorn, and Michael Steinmetz</i>	
	<i>Philipp Beerbaum, Joachim Lotz, and Michael Steinmetz</i>		4.3.3	Interrupted Aortic Arch	180
4.1.2	Ventricular Septal Defect.....	114		<i>Joachim Lotz, Joachim Eichhorn, and Michael Steinmetz</i>	
	<i>Philipp Beerbaum, Joachim Lotz, and Michael Steinmetz</i>		4.4	Complex Defects	182
4.1.3	Atrioventricular Septal Defect	119	4.4.1	Transposition of the Great Arteries.....	182
	<i>Florentine Gräfe, Ingo Dähnert, and Philipp Lurz</i>			<i>Matthias Gutberlet and Christian Kellenberger</i>	
4.1.4	Patent Ductus Arteriosus.....	127	4.4.2	Common Arterial Trunk.....	197
	<i>Philipp Beerbaum, Joachim Lotz, and Michael Steinmetz</i>			<i>Matthias Gutberlet and Christian Kellenberger</i>	
4.1.5	Aortopulmonary Window (Aortopulmonary Septal Defect)	132	4.4.3	Hypoplastic Left Heart Syndrome (HLHS) ..	209
	<i>Florentine Gräfe, Ingo Dähnert, and Philip Lurz</i>			<i>Ingo Dähnert, Philipp Lurz, and Florentine Gräfe</i>	
4.2	Right-Side Defects	137	4.4.4	Univentricular Heart.....	218
4.2.1	Pulmonary Valve Stenosis.....	137		<i>Hashim Abdul-Khaliq</i>	
	<i>Samir Sarikouch, Matthias Grothoff, and Erich Sorantin</i>		4.4.5	Total Anomalous Pulmonary Venous Return.....	228
4.2.2	Tetralogy of Fallot	142		<i>Joachim Lotz, Philip Beerbaum, and Michael Steinmetz</i>	
	<i>Samir Sarikouch, Matthias Grothoff, and Erich Sorantin</i>		4.5	Vascular Anomalies	235
4.2.3	Pulmonary Atresia with Ventricular Septal Defect and Intact Ventricular Septum ...	151	4.5.1	Partial Pulmonary Venous Anomalies ...	235
	<i>Samir Sarikouch, Matthias Grothoff, and Erich Sorantin</i>			<i>Joachim Lotz, Philip Beerbaum, and Michael Steinmetz</i>	
4.2.4	Absent Pulmonary Valve	154	4.5.2	Caval Vein Anomalies, Systemic Venous Anomalies, and Anomalous Body Venous Connections	247
	<i>Samir Sarikouch, Matthias Grothoff, and Erich Sorantin</i>			<i>Joachim Lotz, Philip Beerbaum, and Michael Steinmetz</i>	
4.2.5	Ebstein's Anomaly	155	4.5.3	Aortic Arch and Pulmonary Arterial Anomalies	252
	<i>Nicole Nagdyman and Matthias Gutberlet</i>			<i>Gerald Greil, Lukas Lehmkuhl, and Heiner Latus</i>	
4.3	Left-Side Defects	162	4.5.4	Congenital Coronary Anomalies	262
4.3.1	Subaortic Stenosis, Valvular Aortic Stenosis, and Supravalvular Aortic Stenosis.....	162		<i>Marcus Makowski, Gerald Greil, and Lukas Lehmkuhl</i>	
	<i>Joachim Lotz, Joachim Eichhorn, and Michael Steinmetz</i>				

4.5.5	Aortopulmonary Collaterals	272	4.6.4	Marfan Syndrome	305
	<i>Gerald Greil, Lukas Lehmkuhl, and Heiner Latus</i>			<i>Heiner Latus and Gerald Greil</i>	
4.6	Other Disorders of the Heart and Great Vessels	278	4.6.5	Williams–Beuren Syndrome	311
4.6.1	Cardiomyopathies	278		<i>Heiner Latus and Gerald Greil</i>	
	<i>Achim A. Schmaltz, Jens Bremerich, and Matthias Gutberlet</i>		4.6.6	Rhythm Disorders and Dyssynchrony . . .	317
4.6.2	Myocarditis	295		<i>Jan Janoušek and Philipp Lurz</i>	
	<i>Achim A. Schmaltz, Jens Bremerich, and Matthias Gutberlet</i>		References	323	
4.6.3	Kawasaki Syndrome	302	Suggested Reading	332	
	<i>Markus Makowski and Gerald F. Greil</i>				
5	Standard Values and Formulas	333			
	<i>Hashim Abdul-Khaliq, Petra Böttler, and Samir Sarikouch</i>				
5.1	Preliminary Remarks	333	5.3	Standard Values for Magnetic Resonance Imaging	337
5.2	Standard Values and Formulas for Echocardiography	334	5.3.1	Children with Healthy Hearts	337
5.2.1	Standard Values	334	5.3.2	Patients with Valve Stenoses	340
5.2.2	Formulas with Standard Values	335	References	340	
5.2.3	Regional Functional Analysis Using Echocardiography	337	Suggested Reading	341	
	Index	342
