Videos	viii
Preface	ix
Contributors	xi
1 Anatomy and Radiology of the Normal Temporal Bone	1
1.1 The External Auditory Canal	1
1.2 The Tympanic Membrane	1
1.3 The Ossicular Chain	1
1.3.1 The Malleus	1
1.3.2 The Incus	1
1.3.3 The Stapes	1
1.4 The Tympanic Cavity	1
1.4.1 Medial Wall	2
1.4.2 Posterior Wall	2
1.4.3 The Attic	2
1.4.4 The Antrum	2
1.5 The Labyrinth	3
1.6 The Jugular Bulb	3
1.7 The Carotid Artery	3
1.8 The Facial Nerve	3
1.8.1 Landmarks and Signs for Positive Identification	4
1.9 Computed Tomography of the Temporal Bone and Related Anatomy	9
1.9.1 Axial Sections	9
1.9.2 Coronal Sections	10
2 Diagnosis of Cholesteatoma	20
2.1 Epitympanic Retraction Pocket	21
2.2 Epitympanic Cholesteatoma	22
2.3 Mesotympanic and Epimesotympanic Cholesteatoma	26
2.4 Cholesteatoma Associated with Atelectasis	29
2.5 Cholesteatoma Associated with Complications	30
2.6 Congenital Cholesteatoma of the Middle Ear ...	32
2.7 Petrous Bone Cholesteatoma	37
2.7.1 Differential Diagnosis	41
3 Operating Room Setup and Anesthesia for Middle Ear Cholesteatoma Surgery	43
3.1 Operating Room Setup	43
3.1.1 Arrangement of the Room	43
3.1.2 Position of the Patient	44
3.1.3 Preparation of the Operative Site	45
3.1.4 Position of the Surgeon	45
3.1.5 Position of the Surgeon's Hands	46
3.1.6 Suction and Irrigation	47
3.1.7 Bipolar and Monopolar Coagulation	47
3.1.8 Microscope	47
3.1.9 Facial Nerve Monitoring	47
3.1.10 Instruments	48
3.1.11 Hints and Pitfalls for Operating Room Setup	51
3.2 Anesthesia	51
3.2.1 Local Anesthesia	51
3.2.2 General Anesthesia	51
3.2.3 Hints and Pitfalls for Anesthesia	53
4 Basic Techniques and Decision Making in Middle Ear Cholesteatoma Surgery	54
4.1 Basic Techniques for Safe Cholesteatoma Surgery	54
4.1.1 Drilling	54
4.1.2 Suction and Irrigation	58
4.1.3 Hemostasis	58
4.1.4 Dissection	58

4.2	Decision Making in Middle Ear Cholesteatoma Surgery	59	4.2.2	Strategy in Only Hearing Ear	59
4.2.1	Who Should Be Operated?	59	4.2.3	Staging Strategy	59
			4.2.4	Strategy for Revision Surgery	59
5	Retroauricular Transcanal Approach	60			
6	Canal Wall Up Tympanoplasty	66			
6.1	Surgical Steps	67	6.1.6	Closure	73
6.1.2	Posterior Epitympanotomy	67	6.2	Second Stage and Revision Surgery after Canal Wall Up Technique	113
6.1.3	Posterior Tympanotomy	68	6.2.1	Surgical Steps	113
6.1.4	Middle Ear Management	69	6.3	Hints and Pitfalls	125
6.1.5	Reconstruction	70			
7	Canal Wall Down Tympanoplasty	127			
7.1	Canal Wall Down Tympanoplasty	127	7.2.3	Hints and Pitfalls of the Modified Bondy Technique	259
7.1.1	Surgical Steps	127	7.3	Radical and Conservative Radical Mastoidectomy	260
7.1.2	One-Stage Surgery in Canal Wall Down Tympanoplasty	136	7.3.1	Surgical Steps	260
7.1.3	Staged Surgery in Canal Wall Down Tympanoplasty	154	7.4	Second-Stage Surgery in Canal Wall Down Technique	269
7.1.4	Conversion from Canal Wall Up to Down	184	7.4.1	Surgical Steps of Transmeatal Approach	269
7.1.5	Hints and Pitfalls of Canal Wall Down Tympanoplasty	199	7.5	Revision Surgery after Open Technique	278
7.2	Modified Bondy Technique	199	7.5.1	Surgical Steps	278
7.2.1	Surgical Steps	200	7.5.2	Hints and Pitfalls of Revision Surgery	285
7.2.2	Extended Modified Bondy Technique	246			
8	Congenital Cholesteatoma of the Middle Ear	286			
9	Cholesteatoma of the External Auditory Canal	326			
10	Problems and Solutions in Middle Ear Cholesteatoma Surgery	340			
10.1	Labyrinthine Fistula	340	10.4	New Bone Formation	355
10.2	Bone Erosion in the Tegmen	343	10.5	Meningoencephalic and Dural Herniation	356
10.3	Facial Nerve Paralysis	355			
11	Obliteration of the Middle Ear (Subtotal Petrosectomy) in Cholesteatoma Surgery	361			
11.1	Surgical Steps to Close the External Auditory Canal	361	11.2	Hint and Pitfalls	421
12	Cochlear Implantation in Cholesteatoma Surgery	422			
12.1	Indications	422	12.3	Hints and Pitfalls	422
12.2	Contraindications	422			

13	Management of Iatrogenic Injuries in Middle Ear Cholesteatoma Surgery		440		
13.1	Bleeding from the Dura	440	13.7	Fracture of the Stapes	441
13.2	Bleeding from the Sigmoid and Other Sinuses	440	13.8	Tear in the Tympanic Membrane	441
13.3	Bleeding from the Jugular Bulb	440	13.9	Tear in the Meatal Skin	441
13.4	CSF Leak	440	13.10	Facial Nerve Injury	441
13.5	Labyrinthine Fistula	440	13.10.1	Site of Injury	441
13.6	Disarticulation of the Incus	441	13.10.2	Decision Making	441
14	Petrous Bone Cholesteatoma				453
14.1	Feature of Petrous Bone Cholesteatomas and New Classification	446	14.6	Surgical Anatomy for PBC surgery	453
14.2	Current Therapeutic Result	450	14.6.1	Surgical Anatomy of the Translabyrinthine Approach	453
14.3	Decision Making in PBCs	451	14.6.2	Surgical Anatomy of the Transotic Approach	456
14.4	The Transotic and The Modified Transcochlear Approaches	452	14.6.3	Surgical Anatomy of the Modified Transcochlear Approach	458
14.5	Problems and Solutions in PBC Surgery	452	14.6.4	Surgical Anatomy of the Infratemporal Fossa Approach Type B	462
14.5.1	Hearing Preservation	452	14.7	Operating Room Setup for PBC Surgery	465
14.5.2	Facial Nerve	452	14.7.1	Monitoring	465
14.5.3	Internal Carotid Artery	453	14.7.2	Preparation of the Operative Site	466
14.5.4	Sigmoid Sinus and Jugular Bulb	453	14.7.3	Instruments	466
14.5.5	Dura	453	14.8	Hints and Pitfalls in the Management of Petrous Bone Cholesteatoma	688
14.5.6	Cerebrospinal Fluid Leak	453	14.8.1	Hints	688
14.5.7	Examination of Hidden Areas	453	14.8.2	Pitfalls	688
14.5.8	Residual Lesions or Recurrences	453			
Index		689
