

# Content

<b>1</b>	<b>Introduction</b>	<b>01</b>
1.1	Research Interest	02
1.2	Current State of Research	05
1.3	Modes of Research	06
1.4	Structure of the Thesis	09
1.5	Key Terms and Concepts	11
<b>2</b>	<b>Ecologies of Skin and Depth</b>	<b>13</b>
2.1	Learning from Skins	14
2.2	Shifting Concepts I: Tectonics, Textiles, Spatial Art and Plasticity	20
2.3	Shifting Concepts II: Transparency, Modernist Skin and Surface Effects	31
2.4	Shifting Concepts III: Atmospheres and Environmental Forces	38
2.5	Implications: Researching Deep Skins	47
<b>3</b>	<b>Radiant Milieu</b>	<b>55</b>
3.1	Le Corbusier and the Sun – Light reveals Shadow	56
3.2	Olgay and Olgay – From Shading to Bioclimatic Design	91
3.3	Implications: Re-engaging brise soleil by expanding the Ideas of Le Corbusier	101

<b>4</b>	<b>Ecologies of Encounter: Deep Skins</b>	<b>109</b>
4.1	Disclaimer on Generalization	110
4.2	Project-Based Investigation: Free Skin	111
4.3	Project-Based Investigation: Solar Layering vs. Solar Ornament	118
4.4	Project-Based Investigation: Sun Skins Studio	126
4.5	Project-Based Investigation: Solar Spline	133
4.6	Discussion: Evaluating Contemporary Deep Skins	141
4.7	Implications: Deep Skin Parameters	153
<b>5</b>	<b>Discussion and Conclusion</b>	<b>159</b>
<b>6</b>	<b>German Summary</b>	<b>167</b>
	<b>References</b>	<b>173</b>
	<b>Appendix</b>	<b>183</b>
