Preface — V

About the editors — IX

Mariyam Ouaissa, Mariya Ouaissa, Zakaria Boulouard, Sarah El Himer
Toward the Internet of vehicles: challenges and solutions — 1

Inam Ullah Khan, Muhammad Abul Hassan,
Asrin Abdollahi, Bisma Baig
**AI-enabled communication protocols for vehicular ad hoc networks (VANETs):
fundamentals and future challenges — 19**

Meriem Houmer, Mariya Ouaissa, Mariyam Ouaissa, Siham Eddamiri
**Applying machine learning algorithms to improve intrusion detection system
in IoV — 35**

T. Chandrakumar, T. Ramya, J. Suganthi
Auto steering control in a self-driving car using deep learning model — 51

Badr Hirchoua, Saloua El Motaki
Semantic segmentation with transfer learning for self-driving cars — 63

Saloua El Motaki, Badr Hirchoua
**An improved anomaly detection process in smart vehicle using a supervised
ensemble-learning framework — 83**

Mohan Krishna Kagita, Mohammed Kaosar, Navod Thilakarathne
Survey on AI-based IoT and drone-equipped smart agriculture — 101

Sarah El Himer, Mariyam Ouaissa, Maiya Ouaissa
**General parametric of four hybrid microconcentrator photovoltaic systems
for electric car charging station — 115**

Siham Eddamiri, Meriem Houmer, Mariya Ouaissa, Mariyam Ouaissa
**The influence of social media in improving supply chain intelligence
using deep learning — 139**

Index — 153
