## Chapter 1

### Innate immunity and nanoparticles — 1

Shyamasree Ghosh

- 1.1 Introduction: innate immune system — 2
  - 1.1.1 Barriers — 5
  - 1.1.2 Innate immune system: cells — 6
    - 1.1.2.1 Granulocytes — 6
    - 1.1.2.2 Macrophages — 6
    - 1.1.2.3 Dendritic cells — 7
    - 1.1.2.4 Natural killer (NK) cells — 7
    - 1.1.2.5 Natural killer T (NKT) cells — 7
    - 1.1.2.6 Innate lymphoid cells (ILCs) — 8
  - 1.1.3 Pattern recognition receptors (PRRs) and pattern recognition — 8
    - 1.1.3.1 Toll-like receptors (TLRs) — 9
    - 1.1.3.2 C-type lectin receptors (CLRs) — 10
    - 1.1.3.3 f-Met-Leu-Phe receptors — 11
    - 1.1.3.4 NOD-like receptors (NLRs) — 12
    - 1.1.3.5 RIG-I-like receptors (RLR) — 12
  - 1.1.4 Complement — 13
  - 1.1.5 Inflammation — 15
- 1.2 Nanoparticles and interaction with the innate immune system — 15
  - 1.2.1 Metal nanoparticles (MeNPs) — 16
  - 1.2.2 Engineered nanoparticles — 16
  - 1.2.3 Aluminum-based adjuvants — 16
  - 1.2.4 Amorphous nanosilica — 16
  - 1.2.5 Nucleic acid-loaded nanocarriers composed of lipid-based nanoparticles — 17
    - 1.2.5.1 Glycans on nanoparticles and cell targeting — 17
    - 1.2.5.2 Effects on innate immune system — 18
  - 1.3 Nanoparticle-associated molecular patterns — 20
  - 1.4 Impact on pulmonary immune system — 20
  - 1.5 Discussion — 21
  - References — 22

## Chapter 2

### Nanoparticles and adaptive immunity — 25

Shyamasree Ghosh, Rashmi Bhattacharjee, Dhriti Banerjee

- 2.1 Introduction — 26
- 2.2 Adaptive immunity and components — 27

- 2.2.1 Humoral immunity (HI) — 27
- 2.2.2 Cell-mediated immunity (CMI) — 27
- 2.3 Cells in adaptive immunity — 27
- 2.4 Adaptive immunity: an overview — 28
- 2.5 DCs and role — 29
- 2.6 Role of T<sub>H</sub> cells — 29
- 2.7 Role of naive T<sub>8</sub> cells — 29
- 2.8 Effector cells — 30
- 2.9 Cytokines produced by T<sub>H</sub> lymphocytes — 30
- 2.10 Memory response — 31
- 2.11 Innate versus adaptive immunity — 31
- 2.12 Nanoparticles and adaptive immune system — 32
- 2.13 Discussion — 33
- References — 34

**Chapter 3**  
**Immune system: hypersensitivity, allergy, and nanoparticles — 37**  
Shyamasree Ghosh

- 3.1 Introduction — 38
- 3.2 Hypersensitivity reactions — 39
  - 3.2.1 Type I hypersensitivity — 39
  - 3.2.2 Type II hypersensitivity reaction — 42
  - 3.2.3 Type III hypersensitivity — 44
  - 3.2.4 Type IV hypersensitivity — 44
- 3.3 Allergy and allergens — 45
- 3.4 Nanoparticles and hypersensitivity reaction — 47
- 3.5 Nanoparticles and applications in allergy disorders — 49
- 3.6 Discussion — 51
- References — 51

**Chapter 4**  
**Nanoparticle-mediated oxidative stress — 55**  
Shyamasree Ghosh

- 4.1 Introduction — 56
- 4.2 Oxidative stress — 58
- 4.3 Disorders — 59
- 4.4 Nanoparticle-mediated oxidative stress — 61
- 4.5 Discussion — 66
- References — 67

**Chapter 5****Cell death and nanoparticles — 71**

Shyamasree Ghosh, Rashmi Bhattacharjee, Dhriti Banerjee

- 5.1 Introduction — 72
- 5.1.1 Apoptosis (PCD) — 74
  - 5.1.1.1 Extrinsic pathway — 76
  - 5.1.1.2 Perforin/granzyme pathway — 77
  - 5.1.1.3 Intrinsic pathway — 77
  - 5.1.1.4 Execution pathway — 79
- 5.1.2 Autophagy — 79
- 5.1.3 Nonapoptotic PCD — 80
- 5.1.4 Necrosis — 80
- 5.3 Nanoparticles and cell death — 80
- 5.4 Discussion — 84
- References — 85

**Chapter 6****Inflammation biology and nanoparticles — 89**

Shyamasree Ghosh, Rashmi Bhattacharjee, Dhriti Banerjee

- 6.1 Introduction — 90
- 6.2 Induction of inflammatory pathways — 92
  - 6.2.1 Activation of pattern recognition receptors (PRRs) — 93
  - 6.2.2 Activation of inflammatory pathway — 93
  - 6.2.3 Inflammatory markers and inflammatory cytokines — 93
  - 6.2.4 Inflammatory proteins and enzymes — 97
- 6.3 Nanoparticles — 97
- 6.4 Nanoparticles and inflammation biology — 97
- 6.5 Nanoparticles and anti-inflammation — 100
- 6.6 Discussion — 101
- References — 102

**Chapter 7****Nanoparticles and transplantation — 107**

Shyamasree Ghosh

- 7.1 Introduction — 107
- 7.2 Immune responses and graft rejection — 113
- 7.3 Preventing graft rejection — 113
- 7.4 Nanoparticles — 114
- 7.5 Nanoparticles and transplantation biology — 116
- 7.5 Discussion — 121
- References — 121

**Chapter 8**  
**Nanoparticles and the immunotherapy — 125**  
Shyamasree Ghosh

|     |                                       |
|-----|---------------------------------------|
| 8.1 | Introduction — 126                    |
| 8.2 | Nanoparticles in therapy — 126        |
| 8.3 | Nanoparticles and immunotherapy — 126 |
| 8.4 | Discussion — 132                      |
|     | References — 132                      |

**Index — 137**
