

TABLE OF CONTENTS

NOMENCLATURE & ABBREVIATIONS	III
1 INTRODUCTION	1
2 FUNDAMENTALS	3
2.1 Fundamentals of electrostatic charging	3
2.1.1 Solids	4
2.1.2 Fluids	7
2.1.3 Synopsis of electrostatic charging	10
2.2 Effects of electrostatic discharges in hydraulic systems	11
2.2.1 Effects on the hydraulic fluid	13
2.2.2 Effects on filters	15
2.3 Methods of determining the charge density	17
2.3.1 Faraday Cup	18
2.3.2 Mini-Static Tester (MST)	20
2.3.3 Absolute charge sensor (ACS)	22
2.3.4 Tandem-chamber charge density monitor (TCCDM)	23
3 INTRODUCTION OF A FULLY INTEGRATED CHARGE DENSITY MEASURING SYSTEM	25
3.1 Design of the measurement assembly	25
3.1.1 Definition of electric fields	26
3.1.2 Maxwell's equations	27
3.1.3 Considerations for a pipe capacitor	30
3.1.4 Measurement system	33
3.1.5 Integration of the measurement system	40
3.2 Improvements to the measuring system	42
4 SYSTEM TEST RIG FOR ELECTROSTATIC CHARGING	51
4.1 Introduction of the system test rig	51
4.1.1 Integration of the measuring system	52
4.1.2 Parameters under investigation	57
4.2 Measurements using the system test rig	61
4.2.1 Exploratory measurements	61

4.2.2 Systematic investigation 72

5 SMALL-SCALE TEST BENCH FOR ELECTROSTATIC CHARGING **81**

5.1 Design of a fast-screening test..... 81

5.1.1 Experimental setup..... 81

5.1.2 The measuring system of the small-scale test 83

5.2 Measurements using the small-scale test bench 90

5.2.1 Commissioning and qualification of the small-scale test bench
..... 90

5.2.2 Results of the experiments 102

6 CONTEMPLATION OF THE EXPERIMENTAL RESULTS **107**

6.1 Temperature 107

6.2 Flow rate and fleece topology 111

6.3 Scaling of the filter 115

6.4 Fleece arrangement 117

6.5 Experiments with fast screening test 119

7 SUMMARY & OUTLOOK..... **121**

8 BIBLIOGRAPHY **123**

9 FIGURES **132**

10 TABLES **137**

11 CURRICULUM VITAE..... **139**
