

CONTENTS

LIST OF ABBREVIATIONS.....	IV
1 INTRODUCTION	1
2 HYPOTHESIS AND AIMS	4
3 LITERATURE REVIEW	5
3.1 Tropical rainforest.....	5
3.2 Urban areas in the tropics.....	6
3.3 Borneo	6
3.4 Small mammal species: main characteristics	8
3.4.1 Family Tupaiidae	9
3.4.2 Family Sciuridae	10
3.4.3 Family Muridae	10
3.4.4 Family Soricidae	12
3.5 Small mammals and human health	13
3.6 Health status	14
3.7 Selected infectious pathogens of small mammals	15
3.7.1 <i>Leptospira</i> spp.	16
3.7.2 <i>Trypanosoma</i> spp.	18
3.7.3 <i>Sarcocystis</i> spp.	20
3.7.4 Herpesvirus	23
4 MATERIAL AND METHODS	25
4.1 Material	25
4.1.1 Animals and tissue samples	25
4.1.2 Buffer and reagents	28
4.1.2.1 Histopathology main stainings	28
4.1.2.2 Transmission electron microscopy	29
4.1.2.3 PCR	30
4.1.3 Equipment	34
4.1.3.1 Histopathology	34
4.1.3.2 Transmission electron microscopy	34
4.1.3.3 PCR	34
4.1.4 Consumables	35
4.2 Methods	35
4.2.1 Histopathology	35

4.2.2	Health status classification	36
4.2.3	Transmission electron microscopy	38
4.2.4	Molecular investigations	39
4.2.4.1	Preparation of ethanol-fixed tissue for DNA extraction	39
4.2.4.2	DNA extraction from ethanol-fixed samples	40
4.2.4.3	DNA extraction from homogenized tissue stored in RNeasy®	41
4.2.4.4	PCR analyses	41
4.2.5	Morphologic and phylogenetic evaluation of <i>Sarcocystis</i> spp.	49
4.2.5.1	Morphologic and morphometric evaluation	49
4.2.5.2	Transmission electron microscopy	49
4.2.5.3	Phylogenetic analysis of <i>Sarcocystis</i> spp.	50
5	RESULTS	51
5.1	Histopathology	51
5.2	Health status	75
5.3	Pathogen detection	80
5.3.1	Molecular investigation of ethanol-fixed samples	80
5.3.2	<i>Leptospira</i> results	83
5.3.2.1	Histopathology, Warthin-Starry staining (WS)	83
5.3.2.2	PCR	84
5.3.2.3	WS and PCR comparison	86
5.3.3	<i>Trypanosoma</i> results	86
5.3.4	<i>Sarcocystis</i> spp. results	88
5.3.4.1	Morphological evaluation	89
5.3.4.2	Molecular investigations	103
5.3.4.1	Novel <i>Sarcocystis</i> sp. identified from <i>Tupaia minor</i> and <i>T. tana</i>	105
5.3.5	Herpesvirus results (Bachelor thesis Heiko Pietsch, RKI, Berlin, Germany) (Pietsch, 2013)	106
6	DISCUSSION	109
	Section 1: Histopathological findings	109
	Section 2: Health status	116
	Section 3: Pathogen detection	120
	<i>Leptospira</i>	120
	<i>Trypanosoma</i>	122
	<i>Sarcocystis</i>	124
	Herpesvirus	126
	Overall pathogen detection and health implications	128
	Section 4: General discussion	130

7	SUMMARY	134
8	ZUSAMMENFASSUNG	137
9	REFERENCES	140
10	SUPPLEMENTARY MATERIAL	183
10.1	Histological staining	183
10.2	Health status results	189
10.3	<i>Leptospira</i> results	192
10.4	<i>Trypanosoma</i> results	198
10.5	<i>Sarcocystis</i> results	201
10.6	Herpesvirus results	205
11	LIST OF PRESENTATIONS AND PUBLICATION	210
12	ACKNOWLEDGMENTS	211
13	DECLARATION OF AUTHORSHIP	213
