

CONTENTS

1. INTRODUCTION	1
2. ESTABLISHMENT OF EFFECTIVE LEARNING ENVIRONMENT	3
2.1. Well-thought-out teaching configurations	4
2.2. Well-thought-out teaching methods	11
2.3. Supplementing the traditional, problem-oriented and project-oriented classes	20
2.4. Building a positive climate for learning	31
3. THE QUALITY AND EFFICIENCY OF TEACHING MATHEMATICS	35
3.1. Indicators of the quality of teaching mathematics	35
3.2. Performance in mathematics in PISA studies	38
3.3. Performance in mathematics in TIMSS	39
3.4. The main factors related to achievements in mathematics	45
3.5. Reasons for poor achievements of students in mathematics	47
3.6. Raising the motivation of students	48
3.7. Quality and efficiency of education and preparation of teachers	51
3.8. Didactic methods that bring mathematics closer to everyday life	54
4. EMPIRICAL PART	59
4.1. Analysis of monitoring of mathematics teaching	60
4.2. Monitoring of teaching in the heterogeneous groups	61
4.3. Monitoring of teaching in the homogeneous groups	81
5. CONCLUSION	101
