

8 Foreword	
12 Artificial Intelligence, Another Field	16 The Post-War Period 20 Expert Systems & AI Winters 24 The Deep Learning Revolution
32 The Advent of Architectural AI	36 Modularity 42 Computer-Aided Design 48 Parametricism 56 Artificial Intelligence
62 AI's Deployment in Architecture	64 Artificial Intelligence 101 82 Urban Scale 86 Floor Plans 90 Facades 94 Perspectives 98 Structures 102 Predictive Simulations
106 The Outlooks of AI in Architecture	108 The Contribution 110 The Form 118 The Context 126 The Performance 134 The Adoption 136 The Practice 146 The Model 162 The Scale 170 The Prospects 172 The Style 180 The Ecology 188 The Language
198 Closing Remarks
