- 1 – Motivation 3
- 2 – About this book 7
 - 2.1 How this book came about 7
 - 2.2 What is FAIR? 8
 - 2.3 Why make data FAIR? 11
 - 2.4 Who will find this book useful and why? 12
- 3 – FAIR skills and competences 13
 - 3.1 The FAIRsFAIR Competence Framework and Body of Knowledge for Higher Education 14
 - 3.2 FAIR competence profiles for bachelor’s, master’s and doctoral degree levels 15
 - 3.3 Learning outcomes 19
- 4 – Teaching and training designs for FAIR..... 31
 - 4.1 Introduction 33
 - 4.2 Elemental phases in course design 33
- 5 – FAIR lesson plans..... 49
- 6 – Implementing FAIR..... 53
 - 6.1 Introduction 54
 - 6.2 Arriving at FAIR institutional policies..... 54
 - 6.3 Data management planning..... 58
 - 6.4 Data processing and documentation 59
 - 6.5 Support infrastructure..... 60
 - 6.6 Data publication..... 63
 - 6.7 Data reuse..... 66
- 7 – References 69
- 8 – About the authors & facilitators 75

Appendix A – Resources	79
Appendix B – Target audience personas	81
Appendix C – Data Stewardship Competence Groups (CF-DSP) and enumeration	93
Appendix D – Draft Body of Knowledge (supplement to FAIR Competence Framework)	101
Appendix E – Knowledge units and corresponding learning outcomes for the bachelor's, master's and PhD degree levels	113
Appendix F – Lesson plans	130
Lesson plan 1: FAIR in a nutshell	132
Lesson plan 2: Data management plans (DMP).....	136
Lesson plan 3: Documentation	143
Lesson plan 4: Data creation.....	146
Lesson plan 5: File formats	149
Lesson plan 6: Metadata	152
Lesson plan 7: Data standardisation and ontologies	155
Lesson plan 8: Persistent identifiers (PIDs)	159
Lesson plan 9: Licences, copyright and intellectual property rights (IPR) issues.....	162
Lesson plan 10: Finding and reusing data	168
Lesson plan 11: Repositories.....	173
Lesson plan 12: Dealing with confidential, personal, sensitive and private data and ethical aspects	178
Lesson plan 13: Data access	188
Lesson plan 13: Additional material – data availability statements	191
Lesson plan 14: FAIR software/citable code	192
Lesson plan 14: Additional material on software citation	196
Lesson plan 15: Research data management – overview and best practices ..	200
Lesson plan 16: Data management and governance in industry and research ..	203
