Part I The Perspective of Work Science

1	People and Work in Tropical Forests: An Introduction	3
1.1	Some Thoughts at the Beginning	3
1.2	Tropical Forests	8
1.3	Populations and Livelihoods	8
1.4	Defining the Perspective	11
1.5	Aiming at Decent Work	12
	References	16
2	Work and Sustainable Forest Management	19
2.1	Subsistence Forest Utilization, Exploitation, and Sustainability	20
2.1.1	Phases of Forest Utilization	20
2.1.1.1	Forest Utilization in Pre-Colonial Times	20
2.1.1.2	Forest Utilization in Colonial and Post-Colonial Times	22
2.1.1.3	Forest Utilization 2020	25
2.1.2	Sustainable Forest Utilization	29
2.1.2.1	Silvicultural Concepts	32
2.1.2.2	Certification	33
2.1.2.3	Concessions	39
2.1.2.4	Perspectives of Sustainability of Forest Utilization	43
2.1.3	Agroforestry, Trees Outside Forestry	44
2.1.4	Plantation Forestry	49
2.1.5	Forest Products	54
2.1.5.1	Non-Timber Forest Products	54
2.1.5.2	Woodfuels	56
2.1.5.3	Timber	57
2.2	Work for Forest Utilization	58
2.2.1	Work Tasks	58

2.2.2	Working People	61
2.2.3	Employment.....	65
	References.....	72
3	Development of Work Science	77
3.1	Work, Study Object of Work Science	78
3.2	Science of Work.....	83
3.2.1	Development and Terminology	83
3.2.2	Working Conditions.....	88
3.3	Forest Work Science	91
3.3.1	Development of the Discipline	91
3.3.2	Research Activities.....	96
3.3.3	Ergonomic Research in Agroforestry and Agricultural Sciences	99
	References.....	103
 Part II Sample Work Studies		
4	Methodology of Work Study	111
4.1	Work Study Concepts.....	112
4.2	Forest Work Study	118
4.3	Evaluation of Work Studies	123
4.3.1	The Scenarios.....	124
4.3.2	Characteristics of Work Studies.....	126
4.3.2.1	What to Look at?.....	127
4.3.2.2	Studying Occupational Safety and Health	132
4.3.2.3	Research Design and Methods	133
4.3.2.4	Complete Work Study Information.....	136
4.4	Concluding Remarks	138
	References.....	138
5	Work in Plantation Forests	141
5.1	Introduction	142
5.2	Operations	145
5.2.1	Planting	145
5.2.2	Pruning.....	146
5.2.3	Harvesting	147
5.3	Work Studies	149
5.3.1	Planting	149
5.3.1.1	Planting <i>Shorea</i> in Indonesia	149
5.3.1.2	Planting <i>Radiata Pine</i> in New Zealand.....	150
5.3.1.3	Planting <i>Radiata Pine</i> in Chile	154
5.3.1.4	Planting <i>Pine</i> in the Southeastern USA	155
5.3.1.5	Concluding Remarks: Work Studies on Planting	158

5.3.2	Pruning.....	158
5.3.2.1	Pruning <i>Eucalypts</i> in Brazil	159
5.3.2.2	Pruning <i>Pinus radiata</i> in Chile	159
5.3.2.3	Pruning <i>Pseudotsuga menziesii</i> in New Zealand	163
5.3.2.4	Concluding Remarks: Work Studies on Pruning	163
5.3.3	Harvesting	163
5.3.3.1	Harvesting <i>Pinus patula</i> in Uganda	164
5.3.3.2	Harvesting <i>Pinus patula</i> in Zimbabwe	168
5.3.3.3	Harvesting <i>Pinus patula</i> in South Africa	169
5.3.3.4	Dehydration During Harvesting in South Africa	173
5.3.3.5	Harvesting <i>Eucalypts</i> in Thailand	174
5.3.3.6	Harvesting <i>Pinus patula</i> in Tanzania	174
5.3.3.7	Harvesting <i>Pine</i> in Chile	177
5.3.3.8	Concluding Remarks	178
	References	180
6	Work for Industrial Forest Utilization in Natural Forests	183
6.1	Introduction	184
6.2	Operations	186
6.2.1	Harvesting	188
6.2.1.1	Pre-harvest Tasks	188
6.2.1.2	Tree Felling and Conversion	189
6.2.1.3	Reduced Impact Logging	192
6.2.2	On-Site Log Conversion into Sawn Wood	193
6.2.3	Transport	196
6.3	Work-Related Studies	200
6.3.1	Harvesting	201
6.3.1.1	Harvesting Operations and Working Conditions	201
6.3.1.2	Impacts of Certification	203
6.3.1.3	Impacts of Reduced Impact Logging	207
6.3.2	On-Site Log Conversion into Sawn Wood	210
6.3.2.1	Pit-Sawing	211
6.3.2.2	Chainsaw Milling	214
6.3.3	Transport	217
6.3.3.1	Cable Pulling and Active Out-Spooling	217
6.3.3.2	Steel Cables and Synthetic Ropes	222
6.3.4	Concluding Remarks	223
	References	225

7	Work for Non-industrial Forest Utilization in Natural Forests	229
7.1	The Scope of Non-industrial Forest Utilization	229
7.1.1	Working and Living Situation of the Users	230
7.1.2	Between Forestry, Agroforestry, and Agriculture	233
7.2	Operations	235
7.3	Work-Related Studies	238
7.3.1	Time Allocation to Tasks and Related Workloads	238
7.3.2	Studies Related to Work Methods and Tools	242
7.3.3	Harvesting Practices.	243
7.3.3.1	Non-timber Forest Products	243
7.3.3.2	Woodfuels	245
7.3.4	Transport	247
7.3.5	Conclusions	249
	References.	251
 Part III Insights from Work Science into Work in Tropical Forests		
8	Some Issues of Work in Tropical Forests, in a Nutshell.	255
8.1	Introduction	255
8.2	Ever-Present Change	256
8.3	Diversity and Working Group-Specific Issues	260
8.4	Legal and Social Environment.	261
8.4.1	Workers' Rights	261
8.4.2	Labour Law	262
8.4.3	Labour Unions and Participation	264
8.4.4	Collective Labour Agreements.	265
8.5	Work Organization and Technology	268
8.5.1	Work Organization.	268
8.5.2	Technology.	269
8.5.3	Forest Crime.	270
	References.	272
9	Some Thoughts at the End	275
9.1	The Abundance of Work in Tropical Forests	275
9.2	The Responsibility of the Foresters	276
9.3	The Need of Education	277
9.4	The Commitment of Work Scientists.	278
	Index.	281
