

# Contents

**Preface — V**

**About the Editors — XI**

Rimi Paul, Anindita Sengupta, Souvik Purkait, Samarpita Khan  
**Application of discrete domain wavelet filter for signal denoising — 1**

Santanu Acharjee  
**Secret sharing scheme in defense and big data analytics — 27**

Vijai Singh, Vivek Sharma  
**Recent advances in digital image smoothing: A review — 47**

Moloy Mukherjee, Dipta Chaudhuri, Mofazzal H. Khondekar  
**Double exponential smoothing and its tuning parameters:  
A re-exploration — 57**

Swetadri Samadder, Gokul Saha  
**Effect of smoothing on big data governed by polynomial memory — 73**

Adeboye Nureni Olawale, Agunbiade, Dawud Adebayo  
**Heteroskedasticity in panel data: A big challenge to data filtering — 89**

Pabak Indu, Souvik Bhattacharyya  
**Importance and use of digital filters in digital image processing — 117**

Koushik Ghosh  
**Smart filter and smoothing: A new approach of data denoising — 139**

**Acknowledgement — 153**

**Index — 155**
