
Contents

1 Surgical Anatomy

A. RAUCHFUSS	1
--------------------	---

2 Preoperative Evaluation

J. LAUTERMANN, H. SUDHOFF, H. HILDMANN	10
Audiology	11
Imaging	11
Patient Information	11
Signed Consent	12
Medical Treatment	13
Nerve Monitoring and Computer-Assisted Surgery	13

3 When Not To Do Surgery

H. HILDMANN, H. SUDHOFF	14
-------------------------------	----

4 Postoperative Treatment

H. SUDHOFF, H. HILDMANN	15
-------------------------------	----

5 Local Anaesthesia

H. SUDHOFF, H. HILDMANN	17
General Anaesthesia	18

6 Approaches to the Middle Ear

A. GURR, H. SUDHOFF, H. HILDMANN	19
Transcanal Approach	19
Endaural Approach	19
Retroauricular Approach	20
Tympanomeatal Flap	22

7 Harvesting and Processing of Soft Tissues

H. SUDHOFF, H. HILDMANN	24
Harvesting Cartilage	26
Preparation of Cartilage	28
Harvesting Perichondrium	29

8 External Ear Canal Surgery

H. HILDMANN, H. SUDHOFF	30
Postoperative Changes	30

<i>Postoperative Stenosis</i>	30
<i>Other Postoperative Changes</i>	32
Trauma	33
<i>Fractures Into the Medial Cranial Fossa</i>	34
<i>Post-traumatic Atresia</i>	34
Inflammation and Sequelae	34
<i>Postinflammatory Stenosis</i>	34
<i>Necrosis of the Floor or the External Auditory Canal</i>	35
<i>Postinflammatory Meatal Fibrosis</i>	35
<i>Malignant External Otitis</i>	35
Idiopathic Changes	36
<i>Exostosis</i>	36
9 Tympanic Membrane Closure	
H. SUDHOFF, H. HILDMANN	38
Transmeatal Approach	38
Central Perforations	38
<i>Endaural Incision</i>	39
<i>Harvesting of the Graft</i>	39
<i>Preparation of the Skin Flap</i>	40
Cartilage	42
10 Cartilage Palisade Tympanoplasty	
M. BERNAL-SPREKELSEN	44
Surgical Technique	44
Evaluation	45
Results	45
Conclusions	46
11 Ossicular Chain Reconstruction	
H. SUDHOFF, H. HILDMANN	49
12 Materials for Ossicular Chain Reconstruction	
M. YUNG	55
13 Antrotomy and Mastoidectomy	
H. SUDHOFF, H. HILDMANN	62
Definition	62
Indications	62
14 Cholesteatoma Surgery	
H. SUDHOFF, H. HILDMANN	67
Introduction	67
General Principles for Surgery	69
Surgical Steps	70

15 Mastoid Cavity

H. SUDHOFF, H. HILDMANN	73
Indications	73
Definition of Open and Closed Techniques	73
Open Cavity	75
<i>Surgical Steps</i>	76
<i>Reduction of Volume</i>	80
<i>Meatoplasty</i>	81
Closed Techniques	81
<i>Intact Canal Wall Technique</i>	81
<i>Surgical Steps</i>	82
<i>Obliteration</i>	88
<i>Reconstruction</i>	91
Fistulas of the Semicircular Canals	92
Packing	93

16 Specific Infections

H. SUDHOFF, H. HILDMANN	94
-------------------------------	----

17 Complications

J. LAUTERMANN, H. SUDHOFF	95
Labyrinthitis and Facial Palsy	95
Extradural Complications	96
Intracranial Complications	97

18 Tympanosclerosis

H. SUDHOFF	98
------------------	----

19 The Atelectatic Ear

H. HILDMANN	99
-------------------	----

20 Revision Surgery

H. HILDMANN, H. SUDHOFF	100
Early Revisions	100
Late Revisions	100
Special Problems	101

21 Facial Nerve Surgery

O. GUNTINAS-LICHIUS, H. SUDHOFF, H. HILDMANN	103
Indications	103
Facial Nerve Palsy After Temporal Bone Fracture and Other Traumas ...	105
Approaches for Facial Nerve Exploration and Decompression	106
Techniques of Facial Nerve Reconstruction	107
Iatrogenic Lesions During Ear Surgery	110
Postoperative Complete Palsy After Ear Surgery in Patients with Normal Preoperative Facial Nerve Function	110

Facial Nerve Palsy in Patients with Chronic Inflammatory Disease	110
Postoperative Adjuvant Treatment	111
22 Stapes Surgery	
H. SUDHOFF, H. HILDMANN	112
Floating Footplate	116
Abnormal Course of the Facial Nerve	118
Malleovestibulopexy	118
23 Laser Stapedotomy	
S. JOVANOVIĆ	120
Introduction	120
Laser Equipment	120
<i>CO₂ Laser</i>	120
<i>Micromanipulator</i>	121
<i>Scanner System</i>	121
Safe and Effective Energy Parameters for CO ₂ Laser Stapedotomy	121
Surgical Technique of CO ₂ Laser Stapedotomy	123
Special Cases	126
<i>Obliterative Otosclerosis</i>	126
<i>Overhanging Facial Nerve</i>	126
<i>Overhanging Promontory</i>	127
<i>Inaccessible Footplate</i>	127
<i>Floating Footplate</i>	127
Problems in Revision Procedures	128
Surgical Technique of CO ₂ Laser Revision Stapedotomy	128
Conclusions	129
24 Stapes Revision Surgery	
S. DAZERT, H. HILDMANN	131
Early Revisions	131
Late Revisions	132
<i>Displacement of the Prosthesis</i>	132
<i>Complete Destruction of the Incus</i>	132
<i>Reclosure of the Oval Window</i>	132
<i>Fixation of Incus or Malleus</i>	133
<i>Schuknecht's Prosthesis</i>	133
<i>Perilymphatic Fistula</i>	133
<i>Vertigo</i>	133
25 Middle Ear Trauma	
H. HILDMANN, H. SUDHOFF	134
Traumatic Tympanic Membrane Perforation	134
Ossicular Chain Trauma	134
Perilymph Fistula	135

Rupture of the Round Window	135
Traumatic Stenosis or Atresia	135
Fractures of the Temporal Bone	135
26 Endolymphatic Sac Surgery	
H. SUDHOFF, H. HILDMANN	137
Surgical Procedure	138
<i>Anatomical Position of the Endolymphatic Sac</i>	138
27 Malformation Surgery	
H. HILDMANN	140
Surgery of Middle Ear Malformations	140
Minor Malformations	140
<i>Small Tympanic Membrane</i>	141
<i>Chain Reconstruction</i>	141
Major Malformations	142
Timing of Diagnosis	142
Surgical Steps and Landmarks	144
28 Cochlear Implantation	
S. DAZERT, H. SUDHOFF, H. HILDMANN	146
Surgical Approach	146
<i>Raising of the Flaps</i>	146
<i>Preparation of the Implant Bed for the Receiver</i>	148
<i>Mastoid Work</i>	148
Posterior Tympanotomy	148
Cochleostomy	150
Placement of the Receiver and Electrode Insertion	150
Closure	152
<i>Mastoiditis</i>	152
29 Revision Surgery After Cochlear Implantation	
J. MÜLLER, H. SUDHOFF, H. HILDMANN	153
Revision Surgery Can Become Necessary for Several Reasons	153
<i>Medical Reasons</i>	153
<i>Electronic Failures</i>	153
<i>Trauma</i>	153
<i>Electrode Failures</i>	153
<i>Soft Failures</i>	154
30 Labyrinthectomy	
H. HILDMANN	156
Definition	156
Indications	156
Surgical Procedure	156

31 Vestibular Neurectomy – Translabyrinthine Approach

H. HILDMANN	158
Indications	158
Contraindications	158
Surgical Steps	158

32 Vestibular Neurectomy – Transtemporal Approach

H. HILDMANN	162
Indications	162
Contraindications	162
Complications	162
Anatomy	162
Surgical Procedure	162

33 Retrosigmoidal Approach

M. SCHOLZ	167
Introduction	167
Surgical Procedure	167
<i>Positioning</i>	167
<i>Skin Incision</i>	170
<i>Preparation of Subcutaneous Tissue and Nuchal Muscles</i>	170
<i>Trephination</i>	171
<i>Fine Work with the Drill</i>	172
<i>Withdrawal of Cerebrospinal Fluid</i>	172
<i>Opening of the Dura</i>	172
<i>Intracranial Part</i>	172
<i>Closing Procedure</i>	174

34 Otological Instruments

J. LAUTERMANN, H. SUDHOFF, H. HILDMANN	175
Special Instruments	175
Operating Room Arrangement	175
