Disclaimer	3
Preface	5
Information about the MEBAK® Website.....	7
Information on Purchasing the MEBAK® Collections of Analysis Methods, Guidelines and the Volume Microbreweries	7
Contributors	9
List of Abbreviations	13
General Information.....	14
 Introduction.....	 17
1 Scope of Application.....	17
2 Fundamentals	18
2.1 Unfiltrate	18
2.2 Filterability	18
2.3 Filter Media.....	19
3 Evaluation	20
3.1 Concept	20
3.2 Introduction.....	21
3.3 Schematic Overview of Filtration Equipment	24
4 Definitions	26
4.1 Microbiological Requirements	26
4.2 CTA Requirements.....	26
4.3 Proof of Performance	27
4.4 Defining Losses During Production.....	28
4.4.1 Determining the Quantity of Extract Entering the Filter Cellar	29
4.4.2 Determining the Quantity of Extract Exiting the Filter Cellar	30
4.4.3 Assessing and Evaluating Filtration Losses.....	31
4.4.4 Determining the Quantity of Extract from Pre-run and Post-run Processes	33
4.4.5 Determining Losses Resulting from External Influences	34

4.5	Expressing Time in the Filtration Process.....	35
4.6	Assessing Production Time and Setup Time	36
5	Collection, Analysis and Evaluation of Unfiltrate and Filtrate	37
5.1	Sample Collection for Microbiological Analysis and Quality Control.....	38
5.2	Sample Collection for Chemical-technical Analysis and Quality Control.....	39
5.2.1	Unfiltrate	39
5.2.2	Filtrate	41
5.3	Analysis and Evaluation of Filter Media and Water Samples	44
5.3.1	Filter Media.....	44
5.3.2	Water	45
6	Appendix	46
6.1	Terms Expressing Time	46
6.2	Nominal Output $Q_{\text{nom E}}$	49
6.3	Set Output $Q_{\text{test E}}$	50
6.4	Effective Output $Q_{\text{eff E}}$	50
6.5	Volumetric Efficiency λ_E	50
6.6	Degree of Efficiency η_E	51
