Foreword	V	Section 1—Principles	1
Preface	VI	1.1 Principles of orthogeriatric medical care	3
Acknowledgments	VII	Joseph A Nicholas	
Contributors	VIII	1.2 Principles of orthogeriatric surgical care	7
Abbreviations	XII	Michael Blauth	
Online AO Educational Content	XV	1.3 Principles of orthogeriatric anesthesia	19
Table of contents	XVI	Ali Shariat, Malikah Latmore	
		1.4 Preoperative risk assessment and preparation	29
		Joseph A Nicholas	
		1.5 Prognosis and goals of care	35
		Joshua Uy	
		1.6 Anticoagulation in the perioperative setting	41
		Lauren J Gleason, Adeela Cheema, Joseph A Nicholas	
		1.7 Postoperative medical management	51
		Jennifer D Muniak, Susan M Friedman	
		1.8 Postoperative surgical management	59
		Michael Blauth, Peter Brink	
		1.9 Postacute care	71
		Bernardo Reyes, Nemer Dabage, Darby Sider	
		1.10 Osteoporosis	77
		Rashmi Khadilkar, Krupa Shah	
		1.11 Sarcopenia, malnutrition, frailty, and falls	89
		Claudia M Gonzalez Suarez	
		1.12 Pain management	97
		Timothy Holahan, Daniel A Mendelson	
		1.13 Polypharmacy	105
		Bernardo Reyes, Justinder Malhotra	
		1.14 Delirium	109
		Markus Gosch, Katrin Singler	

Section 2—Improving the system of care	115	Section 3—Fracture management	189
2.1 Models of orthogeriatric care		3.1 Proximal humerus	
Andrea Giusti, Giulio Pioli	117	Franz Kralinger, Michael Blauth	191
2.2 Overcoming barriers to implementation of a care model		3.2 Humeral shaft	
Stephen L Kates	129	Clemens Hengg, Vajara Phiphobmongkol	243
2.3 Clinical practice guidelines		3.3 Distal humerus	
Stephen L Kates, Michael Blauth	133	Rohit Arora, Alexander Keiler, Michael Blauth	269
2.4 Elements of an orthogeriatric comanaged program		3.4 Elbow	
Carl Neuerburg, Christian Kammerlander	137	Rohit Arora, Kerstin Simon, Marco Keller, Michael Blauth	283
2.5 Adapting facilities to fragility fracture patients		3.5 Olecranon	
Edgar Mayr	145	Peter Kaiser, Simon Euler	297
2.6 Orthogeriatric team—principles, roles, and responsibilities		3.6 Distal forearm	
Markus Gosch, Michael Blauth	151	Rohit Arora, Alexander Keiler, Susanne Strasser	315
2.7 Protocol and order set development		3.7 Pelvic ring	
Stephen L Kates, Joseph A Nicholas	157	Pol M Rommens, Michael Blauth, Alexander Hofmann	339
2.8 Fracture liaison service and improving treatment rates for osteoporosis		3.8 Acetabulum	
Paul J Mitchell	165	Dietmar Krappinger, Richard A Lindtner, Herbert Resch	373
2.9 Use of registry data to improve care		3.9 Femoral neck	
Colin Currie	173	Simon C Mears, Stephen L Kates	389
2.10 Lean business principles		3.10 Trochanteric and subtrochanteric femur	
Stephen L Kates, Andrew J Pugely	181	Carl Neuerburg, Christian Kammerlander, Stephen L Kates	405
		3.11 Femoral shaft	
		Elizabeth B Gausden, Dean G Lorch	421
		3.12 Distal femur	
		Jong-Keon Oh, Christoph Sommer	439
		3.13 Periprosthetic fractures around the hip	
		Steven Velkes, Karl Stoffel	461
		3.14 Periprosthetic fractures around the knee	
		Frank A Liporace, Iain McFadyen, Richard S Yoon	479
		3.15 Proximal tibia	
		Michael Götzen, Michael Blauth	501
		3.16 Tibial shaft	
		Björn-Christian Link, Philippe Posso, Reto Babst	523
		3.17 Ankle	
		Christian CMA Donken, Michael HJ Verhofstad	535
		3.18 Atypical fractures	
		Chang-Wug Oh, Joon-Woo Kim	559
		3.19 Chest trauma	
		Hans-Christian Jeske	571
		3.20 Polytrauma	
		Julie A Switzer, Herman Johal	579
