

Table of Contents

1 Examination Technique and Normal Findings

Radiographic Examination	2
Frontal Chest Radiograph	2
Lateral Chest Radiograph	3
Oblique Views	3
Apical Lordotic View	4
Fluoroscopy	4
Scatter-Reduction Grids	4
The Normal Chest Radiograph	5
Structures of the Chest Wall	5
Diaphragm	9
Pleura	9
Lung Parenchyma	16
Tracheobronchial System	18

2 Malformations

Bronchopulmonary Sequestrations	50
Hypogenetic Lung Syndrome (Scimitar Syndrome)	53
Bronchogenic Cysts	54
Congenital Cystic Adenomatoid Malformation of the Lung (CCAM)	56
Pulmonary Agenesis, Aplasia, and Hypoplasia	57
Congenital Lobar Emphysema	59

3 Infection and Inflammatory Disorders

Pneumonia	64
Lung Abscess and Septic Pulmonary Emboli	69
Pulmonary Tuberculosis	72
Fungal Diseases of the Lung	80
Candidiasis	80
Aspergillosis	81
Histoplasmosis	84
Coccidioidomycosis	84
Actinomycosis	85
Nocardiosis	85
Cryptococcosis (Torulosis)	86
Parasitic Infections	86
Amebiasis	86
Toxoplasmosis	87
Pneumocystis Jiroveci Pneumonia (Previously Known as Pneumocystis Carinii Pneumonia—PCP)	87
Schistosomiasis	88

Findings	1
-----------------	---

Vascular System	20
The Mediastinum	24
Conventional Tomography	25
Computed Tomography	28
Radionuclide Imaging	38
Lung Scintigraphy	38
Myocardial Perfusion Scintigraphy	39
Positron Emission Tomography (PET) and PET-CT	41
Ultrasound	42
Pulmonary Angiography	42
Bronchography	45
Magnetic Resonance Imaging	47

50

Congenital Bronchial Atresia	60
Vascular Malformations	61
Pulmonary Arteriovenous Malformations (AVM)	61
Partial Anomalous Pulmonary Venous Drainage (PAPVD)	61
Hypoplasia and Atresia of the Pulmonary Artery	62

64

Echinococcosis	89
Paragonimiasis	90
Ascariasis	90
Strongyloidiasis and Ankylostomiasis	91
Sarcoidosis	91
Idiopathic Interstitial Pneumonias	95
Acquired Immunodeficiency Syndrome	97
Infections	97
Intrathoracic Malignancy	98
Lymphoproliferative Disorders	99
Autoimmune Disorders/Connective Tissue Diseases	100
Systemic Lupus Erythematosus	100
Rheumatoid Arthritis	100
Progressive Systemic Sclerosis (PSS)	101
Sjögren Syndrome	102
Dermatomyositis	102
Ankylosing Spondylitis (AS)	102

Wegener Granulomatosis (WG)	103
Allergic Angiitis and Granulomatosis (Churg–Strauss Disease)	103
Antiglomerular Basement Membrane Disease (AGBMD)	105
Idiopathic Pulmonary Hemosiderosis (IPH)	105

4 Chronic Obstructive Pulmonary Diseases and Diseases of the Airways

Emphysema	110
Other Forms of Emphysema	114
Cicatricial Emphysema	114
Bullous Emphysema	115
Compensatory Emphysema	115
Chronic Bronchitis	116
Bronchiectasis	117
Bronchiolitis-Small Airway Disease	122

5 Inhalational Lung Diseases and Pneum

Foreign Body Aspiration	126
Pneumoconiosis	128
Pneumoconioses Due to Inorganic Dusts	136
Silicosis	136
Coal-Worker's Pneumoconiosis (CWP)	140
Asbestos-Induced Pleural Changes and Asbestosis	140

6 Tumors and Tumor-Like Lesions of the

The Solitary Pulmonary Nodule (SPN)	149
Benign Tumors of the Lung	150
Pulmonary Hamartoma	151
Carcinoid, Mucoepidermoid, and Adenoid Cystic Carcinoma	152
Langerhans Cell Histiocytosis (LCH)	154
Bronchial Carcinoma	157

7 Pulmonary Hypertension and Edema

Pulmonary Hypertension	183
Precapillary Pulmonary Hypertension	184
Primary Pulmonary Hypertension	184
Acute Pulmonary Embolism (PE) and Chronic Thromboembolic Pulmonary Hypertension (CTEPH)	187

Pulmonary Eosinophilia	
(Eosinophilic Lung Disease)	106
Radiation-Induced Lung Disease	107
Drug-Induced Lung Disease	108

e

110

Cellular Bronchiolitis	122
Constrictive Bronchiolitis	123
Swyer–James–Macleod Syndrome	123
Organizing Pneumonia/Cryptogenic Organizing Pneumonia (also known as Bronchiolitis Obliterans Organizing Pneumonia)	124
Bronchial Asthma	125

oconioses	126
------------------	-----

Other Inorganic Pneumoconioses	144
Extrinsic Allergic Alveolitis (EAA)/	
Hypersensitivity pneumonitis	145
Inhalation of Toxic Gases and Fumes	147

Lung	149
-------------	-----

Pulmonary Metastases	172
Lymphoma	178
Primary Pulmonary Lymphoma	181
AIDS-Related Lymphoma	181
Lymphomatoid Granulomatosis	181
Treated Lymphoma	181

183

Cardiac Defects with a Left-to-Right Shunt	193
Pulmonary Hypertension Due to Alveolar Hypoventilation	194
Postcapillary Pulmonary Hypertension	195
Pulmonary Veno-Occlusive Disease	195
Pulmonary Congestion and Edema	195

8 Thoracic Trauma

Chest Wall Injuries	200
Rib Fractures	200
Sternal Fractures	200
Vertebral Fractures	201
Subcutaneous Emphysema	202
Pleural Injuries	203
Pneumothorax	203
Hemothorax	205
Pulmonary Parenchymal Trauma	205
Pulmonary Contusion	205
Pulmonary Hematomata and Pneumatocelles ..	206

9 Diseases of the Pleura, Diaphragm, and

Diseases of the Pleura	214
Pleural Effusion	214
Pneumothorax	220
Pleural Thickening and Fibrothorax	222
Fibrothorax and Asbestos-Induced Diffuse	
Pleural Thickening	224
Pleural Mesothelioma	225

10 Radiology of Cardiac Disease

Cardiac Size	240
Cardiac Contour	240
Congenital Heart Disease	243
Cardiac Anomalies without a Shunt	243
Pulmonary Stenosis	243
Congenital Aortic Stenosis	244
Coarctation of the Aorta	244
Congenital Cardiac Anomalies Associated with	
a Left-to-Right Shunt	247
Atrial Septal Defect	248
Ventricular Septal Defect	250
Patent Ductus Arteriosus	250
Total Anomalous Pulmonary Venous Drainage	
(TAPVD)	251
Congenital Cardiac Anomalies associated with	
a Right-to-Left Shunt	253
Tetralogy of Fallot	253
Uncorrected Transposition of the Great	
Vessels	254
Ebstein Anomaly	254
Acquired Heart Disease	255

Pulmonary Atelectasis	207
Pneumonia in the Trauma Patient	207
Tracheobronchial Rupture	207
Pulmonary Torsion	207
Adult Respiratory Distress Syndrome (Shock Lung, Da Nang Syndrome, Stiff Lung Syndrome, Oxygen Lung, Transfusion Lung)	208
Mediastinal Injuries	210
Pneumomediastinum	210
Traumatic Aortic and Great Vessel Injury	211
Traumatic Diaphragmatic Rupture	212

d Chest Wall 214

Diseases of the Diaphragm	228
Diaphragmatic Paralysis	229
Subphrenic Abscess	229
Diaphragmatic Hernia	231
Bochdalek Hernia	231
Morgagni Hernia	232
Hiatus Hernia	232
Tumors of the Diaphragm	234
Diseases of the Chest Wall	234

240

Cardiac Failure	255
Ischemic Heart Disease (IHD) and Myocardial Infarction (MI)	256
Cardiomyopathies	261
Acquired Valvular Heart Disease	262
Mitral Stenosis	262
Mitral Regurgitation	263
Aortic Stenosis	267
Aortic Regurgitation	268
Multivalvular Disease	268
Hypertensive Heart Disease	269
Cardiac Neoplasms	269
Imaging the Heart Post-Intervention and Surgery .	269
Cardiac Pacemakers	269
Coronary Artery Bypass Graft (CABG) Surgery .	270
Coronary Stents	271
Pericardial Disease	272
Pericardial Effusion	272
Prosthetic Heart Valves	272
Constrictive Pericarditis	272
Pericardial Cysts and Diverticula	273

11 Diseases of the Mediastinum

Mediastinal Displacement	274
Air in the Mediastinum	274
Air in the Esophagus and Stomach	274
Pneumomediastinum	274
Non-Neoplastic Mediastinal Widening	276
Acute Mediastinitis	276
Diseases of the Thoracic Aorta	276
Chronic Mediastinitis	276
Aortic Anomalies	276

12 High-Resolution/Thin-Section CT Patterns

Ground-Glass Opacification—Consolidation	293
Multifocal Peribronchial Consolidation	294
Pulmonary Nodules	295
Intra- and Interlobular Septal Thickening and Reticular Pattern	296

13 Radiographic Signs and Differential Diagnosis

1. The Opaque Hemithorax	301
2. Lobar and Segmental Opacification	304
3. Opacification which does not Conform to Anatomic Boundaries	310
Inhomogeneous and Regionally Confluent Air Space Opacification	310
Bilateral Symmetric Hazy Opacification	312
4. Opacification involving the Upper Zone and/or Apicomediastinal Angle	315
5. Lower Lung and Cardiophrenic Angle Opacification	318
6. Pulmonary Nodules	320

14 Thoracic Intervention

Biopsy	349
Drainage	350
Foreign Body Retrieval-Extraction	351
Bronchial Artery Embolization	352

Reference List

Index

Aortic Ectasia	278
Aortitis	284
Mediastinal Hematoma	284
Neoplastic Mediastinal Widening	285
The Thymus	288
Mediastinal Lymph Node Enlargement	290
Primary Mediastinal Tumors: Benign Teratoma and Malignant Germ Cell Tumors	290
Neurogenic Tumors	291

Patterns in Pulmonary Disease 293

Decreased Lung Attenuation and Cystic Lung Change	297
Inhomogeneous-Mosaic Lung Attenuation	299

Diagnosis 301

7. Linear Shadowing	324
8. Reticular Shadowing	328
9. Cavitating Lung Lesions	332
10. Ring Shadows and Cystic Lung Disease	334
11. Pulmonary Hypertransradiancy	337
12. Hilar Enlargement	341
13. Intrathoracic Calcifications	344
Pulmonary Calcifications	345
Tracheobronchial Calcifications	347
Lymph Node Calcification	348
Pleural Calcifications	348
