Foreword	xiii
Preface	xiv
Acknowledgments	xv
Contributors	xvi
Abbreviations	xvii
Part 1: Chest	
1. Mediastinum	2
<i>Gabriele A. Krombach</i>	
1.1 Anatomy	2
1.2 Evaluation of the Mediastinum on Conventional Radiographs	4
1.2.1 Silhouette Sign	4
1.2.2 Edge-on Effect	4
1.3 Diffuse Mediastinal Diseases	6
1.3.1 Acute Mediastinitis	6
1.3.2 Chronic Mediastinitis and Multifocal Fibrosclerosis	8
1.4 Mediastinal Masses	9
1.4.1 Anterior Mediastinum	9
Intrathoracic Goiter	9
Thymic Hyperplasia	11
Thymoma and Thymic Carcinoma	11
Thymic Cysts	12
Neuroendocrine Tumors of the Thymus; Thymic and Mediastinal Carcinoids	13
1.4.2 Middle Mediastinum	19
Sarcoidosis	20
Lymphoma	20
Castleman's Disease (Angiofollicular Hyperplasia)	22
1.4.3 Posterior Mediastinum	24
Neurogenic Tumors	24
Extramedullary Hematopoiesis	26
Bochdalek, Morgagni, and Larrey Hernias	27
1.5 Trauma with Mediastinal Injury: Pneumomediastinum	28
Bibliography	29
2. Heart and Pericardium	30
<i>Gabriele A. Krombach</i>	
2.1 Heart	30
2.1.1 Anatomy	30
Cardiac Borders	30
Cardiac Chambers	30
2.1.2 Diseases	32
Heart Failure	32
Coronary Heart Disease and Myocardial Infarction	34
Cardiomyopathies	42
Cardiac Tumors	49
Acquired Valvular Disease	60
2.2 Pericardium	65
2.2.1 Anatomy	65
2.2.2 Diseases	66
Pericarditis	66
Constrictive Pericarditis	68
Pericardial Masses	69
Pericardial Aplasia	70
Bibliography	70
3. Large Vessels	72
<i>Andreas H. Mahnken</i>	
3.1 Aorta	72
3.1.1 Anatomy	72
3.1.2 Development	73
3.1.3 Congenital Anomalies	73
Variants in the Origins of Supra-aortic Vessels	74
Aberrant Right Subclavian Artery and Kommerell Diverticulum ..	74
Patent Ductus Arteriosus	74
Coarctation of the Aorta	76
Double Aortic Arch	77
Right Aortic Arch	78
Congenital Abdominal Aortic Stenosis	79

3.1.4	Diseases	79	3.2.4	Diseases	104
	Aortic Aneurysms	79		Nutcracker Syndrome	104
	Acute Aortic Syndrome	84		May–Thurner Syndrome	106
	Aortic Dissection	85		Superior Vena Cava Syndrome	107
	Intramural Hematoma	87		Vena Cava Thrombosis	108
	Penetrating Aortic Ulcer	89		Tumor Thrombi in the Vena Cava	108
	Aortic Rupture	90	3.3	Pulmonary Vessels	109
	Leriche Syndrome	92	3.3.1	Anatomy	109
	Coral Reef Aorta	92	3.3.2	Development	111
	Aortitis	94	3.3.3	Congenital Anomalies	111
	Vasculitis	96		Pulmonary Artery Agenesis	111
	Malignant Vascular Tumors	97		Pulmonary Artery Sling	111
	Aortic Fistulas	98		Anomalous Pulmonary Venous Return	112
	Subclavian Steal Syndrome	99	3.3.4	Diseases	112
	Thoracic Outlet and Thoracic Inlet Syndrome	101		Pulmonary Artery Aneurysm	112
3.2	Vena Cava and Large Veins	102		Pulmonary Embolism	113
3.2.1	Anatomy	102		Pulmonary Hypertension	116
3.2.2	Development	102		Arteriovenous Malformations	118
3.2.3	Congenital Anomalies	103		Bibliography	121
	Persistent Left Superior Vena Cava	103			
	Left-Sided and Duplicated Inferior Vena Cava	103			
	Azygos or Hemiazygos Continuation	104			
4.	Lung and Pleura	122			
	<i>Gabriele A. Krombach</i>				
4.1	Anatomy	122			
4.1.1	Pleura and Interlobar Fissures	122		Langerhans Cell Histiocytosis, Histiocytosis X	159
4.1.2	Trachea and Pulmonary Segments	122		Lymphangioleiomyomatosis and Pulmonary Involvement by	
4.1.3	Vessels	123		Tuberous Sclerosis	159
4.1.4	Pulmonary Veins	125		Cystic Fibrosis	161
4.1.5	Lung Parenchyma	127	4.3.5	Pneumoconioses	162
4.2	Tracheobronchial System	128		Silicosis	162
4.2.1	Normal Variant: Tracheal Bronchus	128		Asbestosis	163
4.2.2	Tracheal Stenosis and Tracheopathia			Other Pneumoconioses	164
	Osteochondroplastica	129		Summary	165
4.2.3	Bronchiectasis	129	4.3.6	Extrinsic Allergic Alveolitis	165
4.2.4	Bronchiolitis	129	4.3.7	Pulmonary Trauma	165
4.2.5	Constrictive Bronchiolitis	131		Trauma Due to Smoke Inhalation, Fire, or Toxic Gases	165
4.2.6	Emphysema, Alpha ₁ -Antitrypsin Deficiency, and Chronic Obstructive Pulmonary Disease	131		Mixed Aspiration Events	166
4.2.7	Atelectasis	133	4.3.8	Vasculitides	166
4.3	Lung	135		Wegener's Granulomatosis	166
4.3.1	Congenital Malformations	135		Churg–Strauss Syndrome	167
	Malformations of the Lung	135	4.3.9	Connective Tissue Diseases	168
4.3.2	Infections	139	4.3.10	Amyloidosis	169
	Pneumonia	139	4.3.11	Goodpasture's Syndrome, Intrapulmonary Hemorrhage	170
	Septic Emboli	141	4.3.12	Alveolar Microlithiasis	170
	Tuberculosis	142	4.3.13	Alveolar Proteinosis	171
	Aspergillosis	144	4.3.14	Pulmonary Infarction	172
	Swyer–James–MacLeod Syndrome	147	4.3.15	Respiratory Distress Syndrome	172
4.3.3	Neoplasms	147		Adult Respiratory Distress Syndrome	172
	Pulmonary Nodules	147		Infant Respiratory Distress Syndrome	174
	Lung Cancer	149	4.4	Pleura	175
	Hamartoma	150	4.4.1	Pneumothorax	175
4.3.4	Diffuse Lung Diseases	151	4.4.2	Pleural Effusion	176
	Interstitial Lung Diseases: Idiopathic Interstitial Pneumonias	151	4.4.3	Pleural Empyema	176
	Sarcoidosis	158		Pleural Mesothelioma	176
				Bibliography	178

7.1.2	Blood Supply	295	7.3.3	Cystic Lesions	308
7.1.3	Development	295		Unilocular Cysts: Pseudocysts	308
7.1.4	Imaging Landmarks	295		Microcystic Lesions: Serous Cystadenoma	309
7.1.5	Normal Variants and Congenital Anomalies	297		Macrocystic Lesions	311
	Pancreas divisum	297		Cysts with Solid Components: Solid Pseudopapillary Tumor	313
	Annular Pancreas	297		Differential Diagnosis of Cystic Tumors	313
7.2	Nonneoplastic Diseases	297		Summary	313
7.2.1	Acute Pancreatitis	297	7.4	Generalized Pancreatic Changes	313
7.2.2	Chronic Pancreatitis	300	7.4.1	Pancreatic Lipoma	313
	Subtype: Autoimmune Pancreatitis	303	7.4.2	Cystic Fibrosis	314
7.3	Neoplastic Diseases	303	7.4.3	Primary Hemochromatosis	317
7.3.1	Ductal Adenocarcinoma	303		Bibliography	319
7.3.2	Neuroendocrine Tumors	306			
8.	Gastrointestinal Tract	322			
	Thomas C. Lauenstein and Lale Umutlu				
8.1	Anatomy	322	8.4.7	Gastric Carcinoma	337
8.1.1	Position and Divisions	322	8.5	Diseases of the Jejunum and Ileum	338
8.1.2	Imaging Landmarks	323	8.5.1	Meckel's Diverticulum	338
8.2	Imaging	325	8.5.2	Intestinal Obstruction	338
8.2.1	Radiography	325	8.5.3	Intussusception	339
8.2.2	Computed tomography and Magnetic Resonance Imaging	326	8.5.4	Mesenteric Ischemia	340
8.2.3	Contrast Media	326	8.5.5	Hemorrhage	342
8.3	Diseases of the Esophagus	326	8.5.6	Crohn's Disease	342
8.3.1	Achalasia	326	8.5.7	Adenocarcinoma	345
8.3.2	Esophageal Diverticula	327	8.5.8	Carcinoid Tumors	346
8.3.3	Esophageal Varices	328	8.6	Diseases of the Colon and Rectum	347
8.3.4	Esophageal Atresia and Tracheoesophageal Fistula	329	8.6.1	Volvulus	347
8.3.5	Hiatal Hernia	330	8.6.2	Appendicitis	348
8.3.6	Esophageal Carcinoma	330	8.6.3	Epiplioic Appendagitis	349
8.4	Diseases of the Gastroduodenum	331	8.6.4	Pseudomembranous Colitis	349
8.4.1	Hypertrophic Pyloric Stenosis	332	8.6.5	Ulcerative Colitis	349
8.4.2	Diverticula	333	8.6.6	Imaging signs	350
8.4.3	Peptic Ulcer Disease	333	8.6.7	Clinical features	350
8.4.4	Zollinger–Ellison Syndrome	335	8.6.8	Diverticulosis and Diverticulitis	351
8.4.5	Gastrointestinal Stromal Tumors	336	8.6.9	Colorectal Carcinoma	351
8.4.6	Lymphoma	336	8.6.10	Ogilvie's Syndrome	353
				Bibliography	354
9.	Spleen and Lymphatic System	355			
	Christoph Thomas				
9.1	Introduction	355		Splenic Infarction	359
9.2	Spleen	355		Splenic Cysts	360
9.2.1	Anatomy	355		Splenic Abscess	361
9.2.2	Imaging	355		Neoplastic Diseases	362
	Radiography	355		Splenic Metastases	362
	Ultrasound	356		Splenic Rupture	364
	Computed Tomography	356		Splenic Artery Aneurysm	364
	Magnetic Resonance Imaging	357	9.3	Lymph Nodes	365
9.2.3	Anomalies and Normal Variants	357	9.3.1	Anatomy	365
	Accessory Spleen	357	9.3.2	Imaging	365
	Asplenia and Polysplenia	357		Ultrasound	366
9.2.4	Diseases	358		Chest Radiography	366
	Differential Diagnosis of Splenomegaly	358		Computed Tomography	366
				Magnetic Resonance Imaging	366

12.4.3	Malignant Lesions	447		Sarcomas of the Pelvic Organs	455
	Endometrial Carcinoma	447		Pelvic Lymphoma	457
	Cervical Carcinoma	449		Ovarian Tumors	458
	Vaginal Carcinoma	451		Fallopian Tube Carcinoma	461
	Vulvar Carcinoma	453		Bibliography	464
	Recurrent Tumors	455			
13.	Male Pelvis	467			
	<i>Tobias Franiel</i>				
13.1	Testis and Epididymis	467	13.2	Penis	477
13.1.1	Imaging	467	13.2.1	Imaging	477
13.1.2	Anatomy	467	13.2.2	Anatomy	477
13.1.3	Congenital Disorders: Cryptorchidism (Undescended Testis)	469	13.2.3	Vascular Disorders	478
13.1.4	Vascular Diseases	469		Priapism	478
	Varicocele	469		Cavernosal Thrombosis	479
	Testicular Torsion	470	13.2.4	Inflammatory Disorders: Peyronie's Disease	479
13.1.5	Inflammatory Diseases: Epididymitis and Epididymo-orchitis	471	13.2.5	Traumatic Disorders: Penile Fracture	479
13.1.6	Traumatic Disorders: Testicular Trauma	471	13.2.6	Penile Carcinoma	482
13.1.7	Benign Intrascretal Masses	471	13.3	Prostate and Seminal Vesicles	483
	Hydrocele	471	13.3.1	Imaging	483
	Spermatocele	472	13.3.2	Anatomy	483
	Testicular Microlithiasis	473	13.3.3	Prostatitis	484
13.1.8	Malignant Neoplasms	474	13.3.4	Benign Prostatic Hyperplasia	486
	Testicular Tumors	474	13.3.5	Prostate Cancer	487
	Epididymal Tumors	477		Bibliography	489
