

Contents

1	Introduction	1
1.1	PBM: A Concept to Improve Patient Safety and Outcome	2
	<i>H. Gombotz, A. Hofmann</i>	
1.2	Requirements of Modern Transfusion Medicine	10
	<i>C. Geisen, M. M. Mueller, E. Seifried</i>	
1.3	Transfusion and Patient Outcomes	19
	<i>S. Farmer, A. Hofmann, J. Isbister</i>	
1.4	Outcomes after Platelet Transfusion	28
	<i>B. D. Spiess</i>	
1.5	Use of Plasma in PBM—Effectiveness and Outcomes	35
	<i>A. Shander, M. Javidroozi</i>	
1.6	Key Role of Benchmarking Processes in PBM	40
	<i>A. Hofmann, S. Farmer</i>	
2	Practical Aspects of Preoperative Patient Management	55
2.1	Role of the Preanesthesia Assessment Clinic in Patient Blood Management	56
	<i>G. Fritsch</i>	
2.2	Role of the General Practitioner	61
	<i>J. Steinhäuser, T. Kuehle</i>	
2.3	Calculation of the Transfusion Probability—the Mercuriali Algorithm	65
	<i>P. H. Rehak</i>	
2.4	Ordering Procedures for Blood Products	72
	<i>A. Weigl</i>	
3	First Pillar of PBM—Optimization of the Red Blood Cell Volume	79
3.1	Definition, Diagnosis, and Consequences of Preoperative Anemia	80
	<i>G. Lanzer</i>	
3.2	Pros and Cons of Preoperative Anemia Treatment	91
	<i>P. Meybohm, K. Zacharowski</i>	
4	Second Pillar of PBM—Minimization of Bleeding and Blood Loss	101
4.1	Reduction of Diagnostic and Interventional Blood Loss	102
	<i>H. Gombotz</i>	
4.2	Coagulation Management	105
	<i>C. F. Weber, K. Zacharowski</i>	
4.3	Use of Allogeneic Blood Conservation Strategies	112
	<i>C. von Heymann, L. Kaufner</i>	
4.4	Surgical Technique and Minimally Invasive Surgery—Limitations and Prospects	117
	<i>J. W. Erhard</i>	
4.5	Local and Systemic Promotion of Perioperative Hemostasis	123
	<i>J. W. Erhard</i>	

5	Third Pillar of PBM—Harnessing and Optimization of the Patient's Physiological Tolerance to Anemia	127
5.1	Perioperative Optimization of the Anemia Tolerance	128
	<i>J. Meier, K. Zacharowski</i>	
5.2	Determinants of the Decision to Transfuse Red Blood Cells	133
	<i>D. Meininger, K. Zacharowski</i>	
5.3	Functions of Circulating Blood Other Than Oxygen Transport	137
	<i>B. Friesenecker</i>	
5.4	Management of Profound Anemia in Patients Refusing Red Blood Cell Transfusion	144
	<i>P. Van der Linden</i>	
6	PBM in Surgical Settings	151
6.1	PBM in Cardiac Surgery	152
	<i>H. M. Mueller</i>	
6.2	PBM in Pediatric Cardiac Surgery	157
	<i>J. Meier, R. Mair</i>	
6.3	PBM in Trauma Surgery	160
	<i>J. M. Hamdorf</i>	
6.4	PBM in Gynecology	165
	<i>J. J. Lee</i>	
6.5	PBM in Orthopaedic Surgery	169
	<i>A. Kotze</i>	
6.6	PBM in Vascular Surgery	171
	<i>B. Clevenger, T. Richards</i>	
7	PBM in Nonsurgical Settings	175
7.1	Potential for PBM in Intensive Care Medicine	176
	<i>M. Hiesmayr, A. Schiferer</i>	
7.2	Potential for PBM in Oncology and Hematology	180
	<i>M. Fridrik</i>	
7.3	Potential for PBM in Cardiology	185
	<i>R. Goldweit</i>	
8	Practical Implementation of PBM and Outlook	199
8.1	PBM and Outcome	200
	<i>D. R. Spahn</i>	
8.2	Establishment of PBM in Teaching and Practice	202
	<i>A. Hofmann, H. Gombotz</i>	
8.3	The Australian PBM Concept—a Success Story	207
	<i>S. L. Farmer, S. Towler, A. Hofmann</i>	
8.4	Landmark Studies and Current Clinical Trials in the Field of PBM	217
	<i>P. Meybohm, K. Zacharowski</i>	
9	Appendix	227
9.1	References	228
