Part 1 Tympanoplasty (Closed Cavity)

■ Chapter 1 Tympanoplasty

General Considerations	2
Definitions	2
Aims of Tympanoplasty	2
Preoperative Care	2
Postoperative Care	3
Anesthesia	4
Facial Nerve Monitoring	6
Instrumentation	7
Rules and Hints	7

■ Chapter 2 Myringoplasty, Meatoplasty, and Canalplasty

General Considerations	8
Definitions	8
Surgical Approaches	8
Selection of Surgical Approach	11
Grafting Technique	11
Specific Surgical Techniques	13
Transcanal Approach	13
Endaural Approach	15
Retroauricular Approach	17
Antrotomy	37
Meatoplasty	39
Complications of Myringoplasty	43
Results	45
Rules and Hints	46

■ Chapter 3 Ossiculoplasty

General Considerations	48
Basic Situations in Ossiculoplasty	48
Specific Surgical Techniques	49
Basic Situation I: Malleus and Stapes Present, Incus Missing	49
Basic Situation II: Footplate and Malleus	55
Basic Situation III: Stapes Only	74

Basic Situation III ₁ , III ₂ , III ₃ : Stapes Only in Closed Cavity	75
Basic Situation III ₄ , III ₅ , and III ₆ : Stapes Only in Open Cavity	91
Factors that Improve the Results of Ossicular Reconstruction	102
Results of Ossiculoplasty	115
Rules and Hints	124

■ Chapter 4 Special Applications with Tympanoplasty

Transcanal Myringotomy with Ventilating Tube	126
Temporary Access to the Round Window ...	129
Canalplasty for Exostosis	132
Canalplasty for Otitis Externa Obliterans	136
Congenital Aural Atresia	139
Rules and Hints	149

Part 2 Mastoidectomy (Open Cavity)

■ Chapter 5 Mastoidectomy and Epitympanectomy

General Considerations	152
Definitions	152
Cholesteatoma	152
Classification of Cholesteatoma	152
Surgical Treatment of Acquired Cholesteatoma	156
Specific Surgical Techniques for Cholesteatoma Removal	160
Closed Mastoido-Epitympanotomy with Tympanoplasty	160
Open Mastoido-Epitympanectomy with Tympanoplasty	170
Tympanoplasty in Open Mastoido-Epitympanectomy	186
Exteriorization of Open Cavity	190

Meatoplasty	196
Wound Closure and Packing	199
Results of Surgery for Cholesteatoma	200
Rules and Hints	203

■ Chapter 6 Special Applications of Mastoidectomy

Reconstruction of an Open Cavity	205
Cochlear Implant	207
Active Middle Ear Implants and Bone Anchored Hearing Aids	215
Results	217
Rules and Hints	219

Part 3 Stapes Surgery

■ Chapter 7 Stapedotomy and Stapedectomy

General Considerations	222
Stapedotomy versus Stapedectomy	222
Specific Surgical Techniques	224
Stapedotomy	224
Incus-Stapedotomy	224
Malleo-Stapedotomy	238
Stapedectomy	248
Rules and Hints	253

■ Chapter 8 Special Applications of Stapes Surgery

Obliterative Otosclerosis	254
Floating Footplate	256
Narrow Oval Window Niche	257
Anomalous Facial Nerve	260
Missing Stapes	262
Revision Stapes Surgery	267
Stapedotomy in Fenestrated Ears	272
Stapes Surgery in Tympanosclerosis	274
Alternative Procedure: Stapedectomy with Spandrel II and Fisch Titanium Total	276
Connective-Tissue Graft for Repair of the Tympanomeatal Flap	277
Results of Stapes Surgery	278
Rules and Hints	288

Part 4 Imaging for Temporal Bone Surgery

■ Chapter 9 Conventional and Multiplanar High-Resolution Computed Tomography of the Temporal Bone

General Considerations	292
Technical Aspects of High-Resolution Computed Tomography	293
Why High-Resolution Computed Tomography?	299
Pneumatization	299
Anatomic Configuration of the Temporal Bone	301
Specific Pathologic Changes of the Temporal Bone	301
Evaluation of High-Resolution Computed Tomography	301
Axial High-Resolution Computed Tomography	301
Coronal High-Resolution Computed Tomography	305

■ Chapter 10 Imaging for Tympanoplasty and Mastoidectomy

Tympanoplasty (Closed Cavity: Tympano- antrotomy and Tympanomastoidectomy) ...	308
Pneumatization	308
Condition of the Mastoid Cells	308
Air in the Protympanum	308
Bone Destruction	309
Myringoplasty	311
Pneumatization	311
Ossiculoplasty	313
Preoperative Scans	313
Postoperative Scans	315
Titanium Incus	315
Titanium Total Prosthesis	317
Titanium Neomalleus with Stapedotomy ...	324
Special Applications with Tympanoplasty ...	325
Exostosis, Otitis Externa Obliterans, and a Narrow External Auditory Canal	325
Congenital Aural Atresia	330

Mastoidectomy (Open Cavity)	332
Open Mastoido-Epitympanectomy with Partial Obliteration (METO)	332
Special Applications of Mastoidectomy	342
Cochlear and Middle Ear Implants	342

■ Chapter 11 Imaging for Stapes Surgery

Incus-Stapedotomy and Malleo-Stapedotomy	349
Diagnosis of Otosclerosis	349
Titanium Stapes Prosthesis	354

■ Chapter 12 Rules and Hints

General	368
Tympanoplasty and Mastoidectomy	368
Ossiculoplasty	369
Titanium Incus	369
Titanium Total	369
Stapedotomy	370
Atretic Ear	370
Middle Ear and Cochlear Implants	370

Part 5 Appendix

■ Chapter 13 Microsurgical Equipment

Instruments and Prostheses	372
Instruments	372
Middle Ear Prostheses	374
Drill (Motors, Handpieces, and Burrs)	376
Motors	376
Handpieces	376
Burrs	377
Operating Room Equipment	378
Microscope	378
Ocular Loop	378
Operating Table	378
Surgeon's Chair	379
References	379
Suggested Reading	380
Books	380
Brochures for Surgical Courses	380
Abbreviations	381
Index	383
