

Contents

Preface — VII

List of contributing authors — XI

Kaarlo Niskanen, Sören Östlund

1 The challenge — 1

Per-Johan Gustafsson, Kaarlo Niskanen

2 Paper as an engineering material — 5

Part I: Structural strength

Rickard Hägglund, Leif A. Carlsson

3 Packaging performance — 31

Mikael Nygårds

4 Behaviour of corners in carton board boxes — 61

Sören Östlund, Petri Mäkelä

5 Fracture properties — 77

Part II: Dynamic stability

Tetsu Uesaka

6 Web dynamics in paper transport systems — 107

Douglas W. Coffin

7 Creep and relaxation — 131

Tetsu Uesaka

8 Statistical aspects of failure of paper and board — 161

Part III: Reactions to moisture and water

Artem Kulachenko

9 Moisture-induced deformations — 191

Tetsu Uesaka

10 Mechanics in printing nip for paper and board — 231

Part IV: Material properties

Artem Kulachenko

11 Micromechanics — 249

Lars Berglund

12 Wood biocomposites and structural fibre materials — 281

Index — 311
