

CONTENTS

2nd CODASSCA Workshop: Collaborative Technologies and Data Science
in Smart City Applications
 A.Hajian, N. Baloian, T. Inoue, and W. Luther v

Accepted contributions vii

TECHNICAL CHALLENGES AND EDGE-CUTTING TECHNOLOGIES
FOR SMART ENVIRONMENTS

Armenian Khachkars: Towards an Automated Handling of Segmentation
and Classification
 N. Baloian, D. Biella, W. Luther, B. Panay, S. Peñafiel, J. A. Pino 1

GPS Drawing on Street Networks: Extracting Routes from Polygonal
Coverings
 N. Baloian, D. Biella, W. Luther 11

A Batching Cloaking Scheme for Continuous Location-Based Services
 C. Faúndez, P. Galdames, and C. Gutierrez-Soto 24

Protecting query privacy through semantic caching in location-based
services
 F. Vera-Catricura, P. Galdames, C. Gutierrez-Soto, and A. Curiel 30

Automatic image classification supported by expert knowledge
 S. Peñafiel, B. Panay, N. Baloian, J. A. Pino, and W. Luther 35

Small is Beautiful - Temporal Accelerators for Embedded FPGAs
 C.Cichiwskyj and G. Schiele 38

SMART HUMAN CENTERED COMPUTING

Online Collaborative Question Refinement Method to Increase Students’
Posed Question Quality
 A. Nugraha, I. A. Wahono, J. Zhanghe, and T. Inoue..... 42

Promotion of continuous use of a self-guided mental healthcare system by
using a chatbot
 T. Kamita, A. Matsumoto, T. Ito, and T. Inoue 49

Validation and Verification Assessment of Genetic Counseling and Testing	
<i>E. Auer and W. Luther</i>	61
Explaining and visualizing recurrent neural network decisions	
<i>D. Qaramyan and H. Khachatrian</i>	73
Revisiting the Promotion Effectiveness Measurement in Retail	
<i>N. Baloian, J. Frez, C. Fuenzalida, B. Panay, S. Peñafiel,</i>	
<i>J. A. Pino, and H. Sanson</i>	76
DATA SCIENCE AND INFORMATION-THEORETIC APPROACHES	
FOR SMART SYSTEMS	
Enriching Word Vectors with Morphological Information	
<i>M. Mirakyan and H. Khachatrian</i>	86
The role of alignment of multilingual contextualized embeddings in zero-	
shot cross-lingual transfer for event extraction	
<i>K. Hambardzumyan, H. Khachatrian, and J. May</i>	97
On the Tradeoff Between Accuracy and Fairness in Representation	
Learning	
<i>T. Galstyan and H. Khachatrian</i>	101
Excess-Risk consistency of group-hard thresholding estimator in Robust	
Estimation of Gaussian Mean	
<i>A. Minasyan</i>	105
Current approaches and challenges for the two-party privacy-preserving	
record linkage (PPRL)	
<i>Y. Chen</i>	108
Inner Bound of E-capacity-Equivocation Region for the Generalized	
Wiretap Channel	
<i>M. Haroutunian</i>	117

ARTIFICIAL NEURAL NETWORKS AND DEEP LEARNING

A survey on deep semi-supervised learning algorithms
A. Vanyan and H. Khachatryan 123

On Machine Learning Powered Theorem Prover for Propositional Fragment of Minimal Logic
A. Baghdasaryan and H. Bolibekyan..... 135

Estimating Efficient Sampling Rates of Metrics for Training Accurate Machine Learning Models
T. A. Bunarjyan, A. N. Harutyunyan, A. V. Poghosyan, A.J. Han Vinck, Y. Chen, and N. A.Hovhannisyan..... 143

W-TSF: Time Series Forecasting with Deep Learning for Cloud Applications
A. Poghosyan, A. Harutyunyan, N. Grigoryan, C. Pang, G. Oganesyany, S. Ghazaryan, and N. Hovhannisyan 152

Fingerprinting Data Center Problems with Association Rules
A. N. Harutyunyan, N. M. Grigoryan, and A. V. Poghosyan 159

Intelligent Troubleshooting in Data Centers with Mining Evidence of Performance Problems
A. N. Harutyunyan, N. M. Grigoryan, A. V. Poghosyan, S. Dua, H.Antonyan, K. Aghajanyan, and B. Zhang 169

Learning Data Center Incidents for Automated Root Cause Analysis
A. V. Poghosyan, A. N. Harutyunyan, N. M. Grigoryan, and N. Kushmerick 181
