

Contents

Dairy, wine, and sugar processing

Marcello Alinovi, Germano Mucchetti

Chapter 1

Integrated membrane and conventional processes applied to milk processing — 3

Geneviève Gésan-Guiziou

Chapter 2

Integrated membrane operations in whey processing — 31

Youssef El Rayess, Martine Mietton-Peuchot

Chapter 3

Integrated membrane processes in winemaking — 49

E. Ratnaningsih, H. Julian, K. Khoiruddin, D. Mangindaan, I. G. Wenten

Chapter 4

Membrane-based beverage dealcoholization — 69

Frank Lipnizki, René Ruby Figueroa

Chapter 5

Membrane operations in the sugar and brewing industry — 95

Sourav Mondal, Sirshendu De

Chapter 6

Processing of stevioside using membrane-based separation processes — 145

Hélène Roux-de Balman, Sylvain Galier

Chapter 7

Electrodialysis in integrated processes for food applications — 187

Vegetable oil processing and aroma recovery

José Marchese, Juan J. Torres, Cecilia L. Pagliero, Nelio A. Ochoa

Chapter 8

Processing of vegetable oils by membrane technology — 215

VI — Contents

Roberto Castro-Muñoz, Grzegorz Boczkaj

Chapter 9

Pervaporation in food processing — 271

Index — 297
