Foreword — VII

About Prof. Ganapati D. Yadav — IX

Author list — XIII

Arruje Hameed, Tanveer Hussain, Muhammad Fayyaz Farid, Tahir Farooq

1 Recent developments about metal-organic frameworks as heterogeneous catalysts in aqueous media — 1

Rakshit Ameta, Jayesh Bhatt, Priyanka Jhalora, Suresh C. Ameta

2 Quantum dots as heterogeneous photocatalysts — 31

Anu Priya, Aditi Sharma, Manmeet Kaur, Arvind Singh, Bubun Banerjee

3 Ultrasound-assisted heterogeneous catalysis in aqueous medium — 55

Arruje Hameed

4 Applications of nanomaterials in aqueous-mediated heterogeneous catalysis — 87

Puja Basak, Pranab Ghosh

5 Metal-composite-catalyzed C–C coupling reactions in water — 123

Debashis Ghosh, Sumit Ghosh, Alakananda Hajra

6 Gold nanoparticles as promising catalyst for electrochemical CO₂ reduction in aqueous medium — 145

Rajib Sarkar, Chhanda Mukhopadhyay

7 Copper-based heterogeneous catalysis for the synthesis of small organic molecules in aqueous medium — 161

Yogesh A. Tayade, Dipak S. Dalal

8 β -Cyclodextrin-based heterogeneous catalysts in aqueous medium — 177

Payal Malik, Avtar Singh, Anupama Parmar, Harish Kumar Chopra

9 Water-mediated heterogeneous catalysis for organic functional group transformations and synthesis — 201

VI — Contents

Ashu Gupta, Yukti Monga, Radhika Gupta, Rakesh Kumar Sharma

**10 Design, development, and application of organic–inorganic hybrid
nanocatalysts for organic reactions in aqueous medium — 229**

Subject Index — 253
