

Foreword vi
Preface vii
Acknowledgments viii
Contributors ix

SECTION I
The Immediacy
Concept

1. Osseointegration Demystified 3
Peter Schupbach, Roland Glauser
2. Biologic Principles and the Immediacy Concept 19
Tara Aghaloo, Danny Hadaya, Delaney Islip
3. Implant Design for the Immediacy Concept 29
Edmond Bedrossian, Eirik Aasland Salvesen
4. Biomechanical Principles for Immediate Loading 39
Edmond Bedrossian
5. The Tissue-Level Implant 51
Edmond Bedrossian, Edgard El Chaar, Benjamin E. Pippenger, Eik Schiegnitz

SECTION II
The Digital
Workflow

6. Digital Workflow and the Immediacy Concept 69
Sonia Leziy, Brahm Miller
7. Digital Workflow Step by Step 95
E. Armand Bedrossian, Edmond Bedrossian
8. Complete Digital Workflow for Full-Arch Rehabilitation 121
Panos Papaspyridakos
9. Analog to Digital Workflow in Immediacy 133
Edmond Bedrossian, E. Armand Bedrossian

SECTION III
Treating Fully
Edentulous Arches

10. Loading Protocols for Full-Arch Rehabilitation 153
Waldemar Polido, Dean Morton, Wei-Shao Lin
11. Systematic Treatment Planning Protocol for the Maxilla 165
Edmond Bedrossian
12. The Tilted Implant Concept in the Maxilla 179
Edmond Bedrossian
13. Systematic Treatment Planning Protocol for the Mandible 195
Edmond Bedrossian, E. Armand Bedrossian

SECTION IV
Prosthetics for Full-
Arch Rehabilitation

14. Chairside Analog Conversion for a Fixed Provisional Prosthesis 217
Lawrence E. Brecht
15. Workflow and Material Choice for the Full-Arch Prosthesis 227
E. Armand Bedrossian
16. Managing Structural Complications of Full-Arch Restorations 247
Ricardo Mitrani, E. Armand Bedrossian, Jack Goldberg

SECTION V
Zygomatic Implants

17. Biomechanical Principles for Zygomatic Implants 265
Edmond Bedrossian
18. New Zygomatic Implant Design 287
Edmond Bedrossian, Sepehr Zarrine
19. Prevention and Management of Zygomatic Implant
Complications 297
Edmond Bedrossian

SECTION VI
Case Presentations

20. Case Presentations 317
Edmond Bedrossian, E. Armand Bedrossian
