

Contents

1	Introduction	1
1.1	Motivation	1
1.2	Research Question and Research Design	4
1.3	Structure of the Thesis	12
2	Technology in Service Management	15
2.1	The Characteristics of Service	15
2.1.1	The Evolution of Service Management as a Research Discipline	17
2.1.2	The Role of Frontline Employees in Service Management	23
2.1.3	The Contribution of Customers to Service	27
2.2	The Technology-induced Transformation of Service Encounters	33
2.2.1	The Changing Nature of Service Encounters	34
2.2.2	Technology as an Enabler of Innovation in Service Encounters	40
2.2.3	Augmented Reality as a Means to Enhance Service Encounters	45
3	Theoretical Foundations	49
3.1	Theories on Stress and Strain in the Occupational Context	49
3.1.1	Transactional Theory of Stress and Coping	50
3.1.2	Conservation of Resources Theory	54
3.1.3	Job Demands-Resources Model	57
3.2	Individual Predisposition and Appraisal of Technology	61
3.2.1	Dispositional Resistance to Change	62

3.2.2	Technology Readiness	65
3.2.3	Technostress	68
3.3	Formation of Customer Evaluations of Service Encounters	73
3.3.1	Expectancy-Disconfirmation Paradigm	74
3.3.2	Equity Theory	77
3.3.3	Service Fairness	80
4	Study A: The Impact of Technology on Frontline Employees'	
	Process Deviance	85
4.1	Context, Aim, and Design of Study A	85
4.2	Theoretical Framework	89
4.2.1	Conceptual Model	89
4.2.2	Main Effect Hypotheses	90
4.2.3	Moderating Effect Hypotheses	95
4.3	Methodology	96
4.3.1	Data Collection and Sample	96
4.3.2	Measures	98
4.3.3	Quantitative Data Analysis	100
4.4	Results	102
4.4.1	Main Effects	102
4.4.2	Moderating Effects	103
4.4.3	Alternative Models	104
4.5	Discussion	106
4.5.1	Implications for Theory	107
4.5.2	Implications for Practice	108
4.5.3	Limitations and Avenues for Further Research	109
5	Study B: A 360-Degree View of Technology Deployment	111
5.1	Context, Aim, and Design of Study B	111
5.2	Theoretical Framework	114
5.2.1	Technology-Induced Job Demands and Resources	114
5.2.2	Customer Expectations in Technology-Induced Service Encounters	115
5.3	Methodology	116
5.3.1	Data Collection and Sample	116
5.3.2	Interview Guideline	119
5.3.3	Qualitative Data Analysis	121
5.4	Findings	124
5.4.1	Benefits of Restaurant Technology	125
5.4.2	Barriers to Technology Deployment	126

5.4.3	Technostress Triggers	128
5.4.4	Prerequisites for Technological Enhancement	129
5.4.5	Customer Satisfaction with Restaurant Technology	130
5.4.6	Importance of Personal Touch	132
5.5	Discussion	133
5.5.1	Implications for Theory	134
5.5.2	Implications for Practice	135
5.5.3	Limitations and Avenues for Further Research	135
6	Study C: A Dyadic Study on Employees' Technostress and Customer Responses	139
6.1	Context, Aim, and Design of Study C	139
6.2	Theoretical Framework	142
6.2.1	Conceptual Model	142
6.2.2	Hypotheses Regarding the Employee Perspective	143
6.2.3	Hypotheses Regarding the Customer Perspective	149
6.3	Methodology	157
6.3.1	Data Collection and Sample	157
6.3.2	Measures	161
6.3.3	Quantitative Data Analysis	163
6.4	Results	164
6.4.1	Validation of the Research Model	164
6.4.2	Demographic and Control Variables	170
6.4.3	Alternative Models	172
6.5	Discussion	173
6.5.1	Implications for Theory	174
6.5.2	Implications for Practice	175
6.5.3	Limitations and Avenues for Further Research	177
7	Study D: Fairness Perceptions of Customer Participation in Online Services	181
7.1	Context, Aim, and Design of Study D	181
7.2	Theoretical Framework	184
7.2.1	Conceptual Framework	184
7.2.2	Hypotheses on Customer Fairness Perceptions	189
7.2.3	Hypotheses on Customer Behavioral Intentions	195
7.3	Methodology	200
7.3.1	Data Collection and Sample	200
7.3.2	Measures	203
7.3.3	Quantitative Data Analysis	206

7.4	Results	209
7.5	Discussion	212
7.5.1	Implications for Theory	214
7.5.2	Implications for Practice	215
7.5.3	Limitations and Avenues for Further Research	216
8	Summary and Outlook	219
8.1	Summary and Contributions	219
8.2	Implications for Theory and Management	222
8.2.1	Implications for Theory	222
8.2.2	Implications for Practice	225
8.3	Outlook and Conclusion	228
	Bibliography	231
