Contents	VII
Index of Abbreviations	XIII
List of Figures.....	XV
List of Tables	XVII
Summary.....	XXI
Zusammenfassung.....	XXIII
1 Introduction to the Assessment of Cultural Landscapes	1
2 Setting of the Assessment.....	7
2.1 Conceptual Setting.....	7
2.1.1 Cultural Landscapes	7
2.1.2 Values in a Cultural and Economical Perspective.....	9
2.1.3 Theoretical Background for the Trans-Disciplinary Approach	10
2.1.4 Research Aim and Gap.....	12
2.2 Setting of the Project and the Chosen Regions	14
2.2.1 Area of Target: Lübeck/ Nordwestmecklenburg	16
2.2.2 Area of Target: Steinburger Elbmarschen	17
2.2.3 Area of Target: Ludwigslust-Parchim/ Lüchow-Dannenberg	18
2.2.4 Some Operating Numbers of the Regions	19
3 Survey Methodology.....	23
3.1 Implementation of the Questionnaire.....	23
3.2 Responses	25
3.3 Characterization of the Sample.....	26
3.3.1 Representative Status of Gender and Age	27
3.3.2 Characterization by Using Some Other Variables.....	28
3.4 Difficulties Regarding the Survey.....	30
4 Measurement of the Valuation of Cultural Landscapes	33
4.1 Approaches, Methods and Techniques of the Valuation of Cultural Landscapes.....	33
4.2 Properties and Limitations of Willingness to Pay	36

4.3	Critics of the Measurement	38
4.4	Practical Application of the Method	41
5	Variables of Interests	43
5.1	Willingness to Pay	43
5.2	Newcomers, Returnees and Locals	48
5.3	Volunteer Work	49
5.4	Life Satisfaction	51
5.5	Use of the region	52
6	Residents' Perception of Their Everyday Cultural Landscapes – Consistencies and Disparities in Three Regions in Germany	55
6.1	The Importance of Landscape Perception	55
6.2	Everyday Cultural Landscapes and Its Perception	57
6.2.1	Perception of Landscapes	57
6.2.2	Findings in the Literature	60
6.2.3	Hypotheses	61
6.3	Data and Statistical Methodology	64
6.3.1	Variables for the Valuation of Landscapes.....	64
6.3.2	Variables of Interest	71
6.3.3	Control Variables	74
6.3.4	Statistical Methodology.....	75
6.4	Empirical Results	76
6.4.1	Results of Each Landscape Type in the Analyzed Regions.....	76
6.4.2	Comparison of the Results Between the Landscape Types and Regions.....	80
6.5	Discussion	83
6.5.1	Empirical Results	84
6.5.2	Further Variables	87
6.5.3	Pictures of the Landscapes	87
6.5.4	Generalizability	89
6.6	Conclusion	90
7	Does Migration Biography Affect the Perception of Landscapes? Empirical Evidence for Newcomers, Returnees and Locals From Steinburger Elbmarschen, Germany	93
7.1	The Importance of Migration Biography for the Landscape Perception	93
7.2	Migration Biographies and Landscape Perception.....	95
7.2.1	Migration Theories	95

7.2.2	Previous Findings of Differences in the Migration Biographies	98
7.2.3	The Landscape and Its Types	100
7.2.4	Hypotheses	100
7.3	Landscapes of the Steinburger Elbmarschen	103
7.4	Sample and Methodology	106
7.4.1	Newcomers, Returnees and Locals	106
7.4.2	Willingness to Pay.....	109
7.4.3	Control Variables	111
7.4.4	Methodology	113
7.5	Empirical Analyses	114
7.5.1	Results of the Landscape in a General Way by Groups	114
7.5.2	Results of the Farmhouse Landscape by Groups.....	115
7.5.3	Results of the Marsh Landscape by Groups	117
7.5.4	Results of the Water Landscape by Groups	119
7.5.5	Results of the City Landscape by Groups	120
7.5.6	Results of the Village Landscape by Groups	122
7.5.7	Comparison of the Results for the Symbolic and Everyday Landscapes	124
7.5.8	Results Regarding the Hypotheses	126
7.6	Discussion.....	128
7.6.1	Empirical Results	129
7.6.2	Difficulties Regarding the Data.....	130
7.6.3	Further Variables.....	131
7.7	Conclusion	133

8	Willingness to Pay Or Willingness to Volunteer: Who Gets Involved in Regional Landscape Protection in What Way?	135
8.1	Why Examine Willingness to Pay and Willingness to Volunteer in Combination?.....	135
8.2	Theoretical Constructs of this Analysis	137
8.2.1	Motives for Giving Behavior	137
8.2.2	Concepts and Measurements of Willingness to Pay and Willingness to Volunteer.....	140
8.2.3	Findings of the Literature	141
8.2.4	Hypotheses	142
8.3	Sample and Methodology	147
8.3.1	Variables of Willingness to Pay and Willingness to Volunteer.....	147
8.3.2	Other Variables	156

8.3.3 Individual Characteristics With Importance for the Contribution Form.....	157
8.3.4 Methodology	160
8.4 Empirical Analyses	160
8.4.1 Results of the Empirical Model.....	161
8.4.2 Results of the Hypotheses	162
8.5 Discussion	164
8.5.1 Results and Generalizability.....	165
8.5.2 Further Variables.....	168
8.5.3 Methodology Issues.....	170
8.6 Conclusion	172

9 Regions and Their Residents: How Do Individuals Assess Different Aspects of the Region?	179
9.1 The Importance of Regional Features Assessment	179
9.2 Theoretical Constructs and Measurements	180
9.2.1 Life Satisfaction	180
9.2.2 Use of the Region.....	181
9.3 Sample of the Cluster Analysis.....	182
9.3.1 Description of the Variables.....	182
9.3.2 Methodology	186
9.4 Results.....	187
9.5 Analyses of the Clusters.....	192
9.5.1 Variables of the Analyses of the Clusters.....	193
9.5.2 Previous Findings and Hypotheses.....	195
9.6 Results of the Analyses of the Clusters.....	197
9.6.1 Financial Payment for the Regional Landscapes.....	197
9.6.2 Volunteering As Contribution Form for the Region.....	200
9.6.3 Life Satisfaction in the Clusters	203
9.6.4 Use of the region in the clusters	206
9.7 Discussion	209
9.7.1 Financial Contribution.....	209
9.7.2 Volunteering.....	211
9.7.3 Life Satisfaction	213
9.7.4 Use of the Region.....	214
9.7.5 Further Discussion.....	216
9.8 Conclusion	217

10 Conclusive Summary of the Research235

 10.1 Key Results and the Contributions to Previous Research235

 10.2 Political Recommendations238

 10.3 Further Research240
