

06	Co-Structuring New Corpo-Realities Foreword by Jens Hauser
14	Co-Corporeality: Responding, Observing and Sharing Knowledge Introduction by the Editors
26	Microbial Communication with Humans Heribert Insam
33	Co-Corporeality of/with Cyanobacteria Judith Ascher-Jenull, Carolin Garmsiri, Heribert Insam
52	A [Micro-]Companion to Symbiosis David Berry
59	Visualising Microbial Activity: Colorimetric Signalling Using <i>E. coli</i> with pH-Indicators and Chromogenic Substrates / Andi Heberlein
66	Living Material Systems An Interview with Alexander Bismarck
75	Bacterial Cellulose Experiments Neptun Yousefi
82	Intelligence of Living and Artificial Systems An Interview with Robert Trappl

91	Facial Expression Recognition Martin Gasser
96	Eye-Gaze Tracking Technology Martin Gasser
102	E-Feed/er Co-Corporeality Team
112	Degrees of Life Co-Corporeality Team
142	Survival Perspectives on Cohabitation by Design Petra Gruber
154	GROVE: Open Systems for Living Architecture Philip Beesley
170	Rethinking the Common from Its Biological Roots Alex Arteaga
178	Quo Vadis? Towards a More-Than-Human World Rachel Armstrong
196	Biographies and Acknowledgements
