

Contents

List of contributing authors — VII

Pratim Biswas and Gregory Yablonsky

Chapter 1

Introduction — 1

Yang Wang

Chapter 2

**Early stages of particle formation in aerosol reactors:
measurement and theory — 7**

Wei-Ning Wang and Xiang He

Chapter 3

Aerosol methodologies for synthesis of materials — 43

Jiayu Li and Pratim Biswas

Chapter 4

**Calibration and applications of low-cost particle sensors:
a review of recent advances — 91**

Liang-Yi Lin

Chapter 5

Carbon dioxide conversion methodologies — 115

Ramesh Raliya and Katie Halwachs

Chapter 6

Aerosol science and nanoscale engineering enabling agriculture — 143

Pratim Biswas and Sukrant Dhawan

Chapter 7

Airborne transmission of SARS-CoV-2: variants and effect of vaccines — 159

Index — 171
