

Contents

Chapter I. INTRODUCTION: WHAT IS A LOGIC OF DISCOVERY ...	1
I.1 Informal considerations	2
I.2 Some mathematical notions	8
 <u>PART A. A LOGIC OF INDUCTION</u>	
Chapter II. A FORMALIZATION OF OBSERVATIONAL AND THEORETICAL LANGUAGES	26
II.1 Structures	27
II.2 Observational predicate calculi	31
II.3 Function calculi	40
II.4 Function calculi with state dependent models	45
Chapter III. THE LOGIC OF OBSERVATIONAL FUNCTOR CALCULI	53
III.1 Monadic observational predicate calculi	55
III.2 Associational and implicational quantifiers	70
III.3 Calculi with incomplete information	83
III.4 Calculi with qualitative values	95
III.5 More on the logic of observational predicate calculi	105

Chapter IV. LOGICAL FOUNDATIONS OF COMPUTATIONAL STATISTICS	122
IV.1 Preliminaries	123
IV.2 The concept of statistics	127
IV.3 The form of theoretical sentences and inference rules	137
IV.4 Observational predicate calculi based on statistical procedures	144
IV.5 Some properties of statistically motivated observational function calculi.....	163
Chapter V. RANK CALCULI	182
V.1 Generalized random structures and the hypothesis H_0 of d-homogeneity	184
V.2 Rank tests of d-homogeneity and independence	200
V.3 Function calculi with enumeration models	208
V.4 Observational monadic function calculi with rational valued models	221

PART B. A LOGIC OF SUGGESTION

Chapter VI. LISTING OF IMPORTANT OBSERVATIONAL STATEMENTS AND RELATED LOGICAL PROBLEMS	236
VI.1 Observational research problems and their solutions	238
VI.2 Indirect solutions	254
VI.3 Helpful quantifiers in λ -predicate calculi	262
VI.4 Incompressibility	277

Chapter VII. A GENERAL GUHA-METHOD WITH ASSOCIATIONAL

QUANTIFIERS	288
VII.1 A system of r -problems	290
VII.2 Solutions	300
VII.3 Remarks on realization and optimization	310
VII.4 Some remarks concerning GUHA-methods based on rank calculi	321

Chapter VIII. FURTHER STATISTICAL PROBLEMS OF THE LOGIC

OF DISCOVERY	331
VIII.1 Local interpretation	332
VIII.2 Global interpretation	343
VIII.3 Some questions for statistics	354

Postscript: SOME REMARKS ON THE HISTORY OF THE GUHA

METHOD AND ITS LOGIC OF DISCOVERY	374
Index	381
Bibliography	387
