Zusammenfassung	XI
Abstract	XIII
1 Introduction	1
1.1 Types of Uncertainty	2
1.2 Languages of Uncertainty	4
1.3 Possibilistic Uncertainty Quantification	9
1.4 Composition and Contributions of this Thesis	10
2 Possibilities and Imprecise Probabilities	13
2.1 Probability and Possibility Measures	13
2.2 Qualitative Possibility Theory	26
2.3 Quantitative Possibility Theory	28
3 Imprecise Variables	49
3.1 Distributions	49
3.2 Extension	58
3.3 Stochastic Dominance	69
3.4 Imprecise Expectations and Moments	74
3.5 Dependency and Interaction	78
4 Possibilistic Statistics	91
4.1 Statistical Setup	93
4.2 Inferential Models	94
4.3 Possibilistic Inference	110

5	Membership Computations	135
5.1	Membership Transforms	135
5.2	Membership Arithmetic	141
6	Possibilistic Filtering	165
6.1	Formulation	166
6.2	Implementation	179
6.3	Application: Robot Localization	184
7	Conclusion and Outlook	193
	Appendices	197
	Bibliography	201
	Nomenclature and Notation	215
