Historical Review of Irreversible Electroporation in Medicine	1
<i>Antoni Ivorra, Boris Rubinsky</i>	
Tissue Electroporation as a Bioelectric Phenomenon: Basic Concepts	23
<i>Antoni Ivorra</i>	
Experimental Studies on Irreversible Electroporation of Cells	63
<i>Avigail Ben-Or, Boris Rubinsky</i>	
Mechanism of Irreversible Electroporation in Cells: Insight from the Models	85
<i>Wanda Krassowska Neu, John C. Neu</i>	
Thermal Aspects of Irreversible Electroporation	123
<i>Rafael V. Davalos, Paulo A. Garcia, Jon F. Edd</i>	
Experimental Studies on Non-thermal Irreversible Electroporation in Tissue	155
<i>Boris Rubinsky</i>	
Finite Element Modeling of in Vivo Electroporation	183
<i>Nataša Pavšelj, Damijan Miklavčič</i>	
Optimization and Numerical Modeling in Irreversible Electroporation Treatment Planning	203
<i>Anže Županič, Damijan Miklavčič</i>	
The Place of the Electroporation-Based Antitumor Therapies in the Electrical Armamentarium against Cancer	223
<i>Lluís M. Mir</i>	

**Irreversible Electroporation: First Patient Experience Focal
Therapy of Prostate Cancer** 235
Gary Onik, Boris Rubinsky

Human Experience with Irreversible Electroporation 249
Kenneth Thomson

Irreversible Electroporation Systems for Clinical Use 255
*Claudio Bertacchini, Pier Mauro Margotti, Enrico Bergamini,
Mattia Ronchetti, Ruggero Cadossi*

**The Use of Irreversible Electroporation in Food
Preservation** 273
Alex Golberg, Judith Fischer, Boris Rubinsky
