

Table of Contents

List of Figures	i
List of Tables	viii
Nomenclature	x
1 Introduction	1
2 Current State of Research	5
2.1 Chiral Chromatography and Capillary Electrophoresis	5
2.2 NMR Spectroscopy	6
2.3 VCD spectroscopy	6
2.4 Three-Wave Mixing Microwave and Chiral Rotational Spectroscopy	7
2.5 CCRD Polarimetry	9
2.6 Raman Microspectroscopy	9
2.7 Surface-Enhanced Raman Spectroscopy	10
2.8 Raman Optical Activity	11
2.9 Enantioselective Raman Spectroscopy	15
3 Theoretical Introduction	19
3.1 Fundamentals - Maxwell's Equations and Wave Optics	19
3.2 Light-Matter Interactions	20
3.3 Chirality	21
3.3.1 Optical Rotation and Polarimetry	22
3.3.2 Optical Rotatory Dispersion	24
3.3.3 Electronic Circular Dichroism	26
3.4 Vibrational Spectroscopy	27
3.4.1 Raman Spectroscopy	28
3.4.2 Enantioselective Raman Spectroscopy	32
3.4.3 Raman Optical Activity	38
3.4.4 Infrared Spectroscopy	40
3.4.4.1 Transmission IR Spectroscopy	41
3.4.4.2 ATR-FTIR Spectroscopy	42
3.5 Chemometrics	46

3.5.1	Principal Component Analysis	46
3.5.2	Regression	48
3.5.3	Principal Component Regression	49
3.5.4	Partial Least-Squares Regression	50
3.5.5	Cross-Validation	51
3.6	Two-Dimensional Correlation Spectroscopy	51
4	Materials and Methods	57
4.1	Setup for Enantioselective Raman Spectroscopy	57
4.2	Automized Data Acquisition with LabVIEW Program “EnantioRaman”	59
4.3	Intensity Monitoring of Nd:YAG Laser	64
4.4	Calibration of Half-Wave Double Fresnel Rhomb in Stepper Motor	66
4.5	Thermally Defined Raman Measurements	66
4.6	Data Processing	69
4.7	Polarimetry	69
4.8	Additional Spectroscopic Measurements	71
4.8.1	ATR-FTIR Spectroscopy	71
4.8.2	UV/Vis Spectroscopy	71
4.8.3	ECD Spectroscopy	71
4.9	Analyzed Chemicals	72
5	Results and Discussion	73
5.1	Enantioselective Raman Spectra	73
5.2	UV/Vis and ECD Spectra	84
5.3	Intensity Comparison of esR Spectra	86
5.3.1	Intensity Comparison of Selected Vibrational Bands	86
5.3.2	Intensity Comparison by the Shift Along the Angle of the Half-Wave Retarder	88
5.3.3	Intensity Comparison by the Comparison of Vibrational Bands with Different Symmetry	96
5.4	Two-Dimensional Correlation Spectroscopy	102
5.5	Principal Component Analysis	109
5.6	Determination of Enantiomeric Fraction with PLSR	117
5.7	Comparison of Two Polarimetry Methods	122
5.8	Simulation of Selected Vibrational Bands	123
6	Conclusions and Outlook	133
A	Appendix	137
A.1	Spectral Assignment	137

TABLE OF CONTENTS

A.2	Physical Properties	140
A.3	Calibration for Laser Intensity Monitoring	140
A.4	Fluorescence Carvone	142
A.5	Deduction of Depolarization Ratio for Chiral Media	142
A.6	Deduction of Intensity Difference for $\pm\theta$	143
A.7	Deduction of Intensity Difference of Vertical and Horizontal Intensity	145
A.8	Publications	147
A.8.1	Scientific Publications in Peer-Reviewed Journals	147
A.8.2	Other Publications	147
A.9	Conference Contributions	147
A.9.1	Poster Presentations	147
A.9.2	Oral Presentation	148
A.10	Studentische Arbeiten	148
	Bibliography	149
