

Table of Contents

List of Figures	iv
List of Tables	v
Acronyms.....	vii
A. Foundation.....	1
I. Introduction	2
I.1 Motivation	2
I.2 Research Questions	4
I.3 Structure of the Thesis	8
I.4 Research Context and Design	10
I.5 Differentiation from Prior Research at the Chair of Information Management	12
I.6 Anticipated Contributions.....	13
II. Theoretical Background.....	16
II.1 Understanding Digitalization as a Socio-technical Phenomenon	16
II.2 Implications of Digital Technologies for Firms and the Role of Business Model Innovation.....	19
II.3 Mobility Changes in the Digital Era	21
B. Studies on Mobility Changes in the Digital Era	27
I. The Role of Digital Eco-Systems in the Socio-technical Transition Towards Future Mobility.....	28
1 Study 1: Towards Sustainable Mobility – Digital Eco-Systems as Drivers of Disruptive Change.....	29
1.1 Introduction	30
1.2 Related Work.....	31
1.3 Towards a Theory of Socio-Technical Transitions Through Emerging Digital Eco-Systems	36
1.4 Illustrative Case: Mobile Applications for Sustainable Mobility	41
1.5 Discussion and Implications	45
II. The Distinct Roles of Information Systems in Business Model Innovation ...	48
1 Study 2: Uncovering the Role of IS in Business Model Innovation – A Taxonomy Driven Approach to Structure the Field	49
1.1 Introduction	50

1.2	Theoretical Background.....	51
1.3	Methodological Approach.....	56
1.4	Findings.....	60
1.5	Discussion and Implications.....	64
1.6	Limitations.....	65
1.7	Conclusion.....	66
1.8	Appendix.....	67
III.	The Impact of Digital Technology Diffusion on Business Model Innovation of Incumbent Mobility Firms	68
1	Study 3: Entering Digital Era – The Impact of Digital Technology-related M&As on Business Model Innovations of Automobile OEMs	69
1.1	Introduction.....	70
1.2	Theoretical Foundation.....	71
1.3	Hypothesis Development.....	75
1.4	Methodological Approach.....	78
1.5	Results.....	83
1.6	Discussion of Findings.....	87
1.7	Limitation and Future Research.....	91
1.8	Conclusion.....	92
1.9	Appendix.....	93
IV.	The Potentials of Digital Technologies to Improve Value Creation and Capture in Disruptive Mobility Business Models	94
1	Study 4: The Value of IS in Business Model Innovation for Sustainable Mobility Services – The Case of Carsharing.....	95
1.1	Introduction.....	96
1.2	Theoretical Foundation.....	97
1.3	Methodological Approach.....	100
1.4	Results.....	102
1.5	Discussion of Findings.....	104
1.6	Limitations and Future Research.....	106
1.7	Conclusion.....	106
2	Study 5: Sharing yet Caring: Mitigating Moral Hazard in Access-Based Consumption through IS-Enabled Value Co-Capturing with Consumers	108
2.1	Introduction.....	109
2.2	Theoretical Framework.....	111
2.3	Towards IS-Enabled Value Co-Capturing with Consumers to Mitigate Moral Hazard in Access-Based Consumption.....	114
2.4	Methodology.....	115

2.5	Results	119
2.6	Discussion of Empirical Findings	121
2.7	Implications	124
2.8	Limitations and Future Research	126
2.9	Conclusion	127
2.10	Acknowledgements	127
2.11	Appendix	128
C.	Contributions	133
I.	Findings and Results	134
I.1	Findings Regarding the Role of Digital Eco-Systems in the Socio-technical Transition towards Future Mobility	134
I.2	Findings Regarding the Roles of Information Systems in Business Model Innovation	138
I.3	Findings Regarding the Impact of Digital Technology Diffusion on Business Model Innovation of Incumbent Mobility Firms	140
I.4	Findings Regarding the Potentials of Digital Technologies to Improve Value Creation and Capture in Disruptive Mobility Business Models	142
I.5	Synthesis: A Multi-level Perspective on the Transformational Impacts of Pervasive Digital Technologies on Business Models in the Mobility Sector	145
II.	Implications for Theory and Practice	149
II.1	Implications for IS Research	149
II.2	Implications for Practice	153
III.	Limitations and Further Research Opportunities	156
III.1	Limitations	156
III.2	Further Research Opportunities	157
IV.	Conclusion	159
