New Strategies in Locust Control

Birkhäuser Verlag
Basel · Boston · Berlin

Table of contents

Biology of desert locust and research priorities

| | |
|---|---|
| Evaluating recent locust research <i>P. Symmons</i> | 3 |
| Ecology of <i>Schistocerca gregaria</i> (Forskål): observations in West Africa from 1990 to 1994 <i>H. Wilps</i> | 9 |

Forecasting and modelling

| | |
|---|----|
| Desert locust forecasters' GIS: a researchers' view <i>J.I. Magor and J. Pender</i> | 21 |
| SWARMS: A geographic information system for desert locust forecasting <i>K. Cressman</i> | 27 |
| Mapping of desert locust habitats using remote sensing techniques <i>F. Voss and U. Dreiser</i> | 37 |
| Vertical-looking radar as a means to improve forecasting and control of desert locusts <i>J.R. Riley and D.R. Reynolds</i> | 47 |
| Forecasting the early-season eclosion of <i>Oedaleus senegalensis</i> in the Sahel: the role of remotely sensed rainfall data <i>P.J.A. Burt, J. Colvin and S.M. Smith</i> | 55 |
| Biotic and abiotic factors affecting the population dynamics of the Senegalese grasshopper, <i>Oedaleus senegalensis</i> <i>J. Colvin</i> | 63 |
| Modelling brown locust outbreaks in relation to rainfall and temperature <i>S.A. Hanrahan and D. Horne</i> | 69 |
| Metapopulations of locusts and grasshoppers: spatial structures, their dynamics and early warning systems <i>M.G. Sergeev</i> | 75 |

| | |
|--|----|
| Forecasting seasonal dynamics of the Asiatic migratory locust using the <i>Locusta migratoria migratoria</i> – <i>Phragmites australis</i> forecasting system <i>A.G. Antonov and V.E. Kambulin</i> | 81 |
|--|----|

Forecasting and modelling: Poster contributions

| | |
|---|----|
| The SGR biomodel: a synoptic model for surveillance and early warning specific to the desert locust over the whole of its distribution habitat <i>M. Launois</i> | 93 |
| Anti-locust early warning systems: recent experiences from eastern Africa <i>P.O. Odiyo</i> | 95 |

Forecasting and modelling: Working group

| | |
|---|----|
| Results and recommendations of the working group Forecasting and modelling <i>K. Cressman (Chairman and Secretary)</i> | 99 |
|---|----|

Control agents and methods

| | |
|--|-----|
| Overview and challenges of new control agents <i>W.F. Meinzingen</i> | 105 |
| Field investigations on <i>Schistocerca gregaria</i> (Forskål) adults, hoppers and hopper bands <i>H. Wilps and B. Diop</i> | 117 |
| Persistence of benzoylphenylureas in the control of the migratory locust <i>Locusta migratoria capito</i> (Sauss.) in Madagascar <i>R. Scherer and H. Célestin</i> | 129 |
| Evaluation of insect growth regulators for the control of the African migratory locust, <i>Locusta migratoria migratorioides</i> (R. & F.), in Central Africa <i>A.C.Z. Musuna and F.N. Mugisha</i> | 137 |
| Field application of the juvenile hormone analogue fenoxycarb against hopper bands of <i>Locusta migratoria capito</i> in Madagascar <i>A. Dorn, M. Schneider, F.F.W. Botens, M. Holtmann and I. Petzak</i> | 143 |
| Locust control with <i>Metarhizium flavoviride</i> : New approaches in the development of a biopreparation based on blastospores <i>D. Stephan, M. Welling and G. Zimmermann</i> | 151 |

| | |
|---|-----|
| <i>Metarhizium flavoviride</i> : recent results in the control of locusts and grasshoppers <i>C.J. Lomer with LUBILOSA project staff and collaborators</i> | 159 |
| Small-scale field trials with entomopathogenic fungi against <i>Locusta migratoria capito</i> in Madagascar and <i>Oedaleus senegalensis</i> in Cape Verde <i>F.X. Delgado, J.H. Britton, M.L. Lobo-Lima, E. Razafindratiana and W. Swearingen</i> | 171 |
| Development of a mycoinsecticide for the Australian plague locust <i>R.J. Milner, G.L. Baker, G.H.S. Hooper and C. Prior</i> | 177 |
| <i>Melia volkensii</i> : a natural insecticide against desert locusts <i>H. Rembold</i> | 185 |
| Potential for <i>Melia volkensii</i> fruit extract in the control of locusts <i>R.W. Mwangi, J.M. Kabaru and H. Rembold</i> | 193 |
| Field trials with neem oil and <i>Melia volkensii</i> extracts on <i>Schistocerca gregaria</i> <i>B. Diop and H. Wilps</i> | 201 |
| Locust control by means of selective baiting <i>R.E. Price and H.D. Brown</i> | 209 |
| Neurotransmitter-receptors as targets for new insecticides <i>T. Roeder, J. Degen, C. Dyczkowski and M. Gewecke</i> | 219 |
| Control agents and methods: Poster contributions | |
| Mass production of <i>Metarhizium flavoviride</i> in submerged culture using waste products <i>D. Stephan and G. Zimmermann</i> | 227 |
| Field trails conducted on a biopesticide (<i>Metarhizium flavoviride</i>) for grasshopper control in Mali from 1992 to 1994 <i>O.-K. Douro Kpindou, J. Langewald, C.J. Lomer, H. van der Paauw, P.A. Shah and</i> <i>A. Sidibé</i> | 231 |
| LUBILOSA: a joint project for the biological control of locusts and grasshoppers in the Sahel <i>A. Paraíso, C. Lomer, O. Douro-Kpindou, C. Kooyman</i> | 233 |

| | |
|---|-----|
| Application of an oil-based formulation containing spores of an entomopathogenic fungus, <i>Metarhizium flavoviride</i> , against grasshoppers <i>A. Paraíso, A. Beye, S. Djiba, S. Check, N. Abdoulaye, O. Diop, S. Gan Bobo, C.L. Otoïdobiga, A.K. Nadié, C. Kooyman, C. Lomer, O. Douro-Kpindou</i> | 235 |
| Biocontrol of locusts in Madagascar: developing indigenous pathogens <i>W.D. Swearingen</i> | 237 |
| Preliminary investigations on the combination of <i>Metarhizium flavoviride</i> blastospores with botanicals (neem, <i>Melia volkensii</i>) for biological locust control <i>M. Welling, D. Stephan and G. Zimmermann</i> | 239 |
| Sorosporella sp., a fungal pathogen of the migratory locust, <i>Locusta migratoria capito</i> , in Madagascar <i>M. Welling and G. Zimmermann</i> | 243 |
| The problem of a replacement for dieldrin <i>M. Launois and T. Rachadi</i> | 247 |
| Locust control with deltamethrin <i>H.D. Brown and M.E. Kieser</i> | 249 |
| Carbosulfan, an effective new product for locust control <i>C.J. Boase</i> | 251 |
| <i>Staurorhectus longicornis</i> (Giglio Tos), a recently appearing pest species on pastures in the dry Chaco of Paraguay and semi-field tests for its control <i>F. Wilhelmi</i> | 253 |
| Mechanical control of the desert locust <i>Schistocerca gregaria</i> (Forskål, 1775) <i>S.H. Han</i> | 255 |

Control agents and methods: Working groups

| | |
|---|-----|
| Results and recommendations of the working group Control agents and methods <i>A.B. Bal (Chairman) and A. Hamadoun (Secretary)</i> | 259 |
| Results and recommendations of the working group Control agents and methods <i>W. Meinzingen (Chairman) and C. Kooyman (Secretary)</i> | 263 |

Chemoecology and semiochemicals

| | |
|--|-----|
| Chemoecological studies reveal causes for increased population densities of <i>Zonocerus</i> (Orth.: Pyrgomorphidae) and offer new means for management <i>O.W. Fischer and M. Boppré</i> | 267 |
| Attraction and diurnal behaviour of the African pest grasshopper, <i>Zonocerus variegatus</i> (L.), at oviposition sites <i>W.W.D. Modder</i> | 283 |
| Potential for the use of semiochemicals against <i>Locusta migratoria migratorioides</i> (R. & F.) <i>M. Rosa Paiva</i> | 293 |
| Alternative strategy and tactics for the management of the desert locust, <i>Schistocerca gregaria</i> (Forsk.) <i>S. El Bashir</i> | 305 |
| Pheromones in <i>Schistocerca gregaria</i> (Forsk.): the present situation <i>G.H. Schmidt</i> | 313 |

Chemoecology and semiochemicals: Poster contribution

| | |
|--|-----|
| Electrophysiological studies of <i>Schistocerca gregaria</i> (Forsk.) with volatile compounds <i>A. Klause-de-Pupka</i> | 325 |
|--|-----|

Environmental impact

| | |
|--|-----|
| Environmental effects of locust control: state of the art and perspectives <i>J.W. Everts and L. Ba</i> | 331 |
| Side-effects of locust control on beneficial arthropods: research approaches used by the Locustox project in Senegal <i>H. van der Valk and A. Niassy</i> | 337 |
| Side-effects of the insect growth regulator triflumuron on spiders <i>R. Peveling, J. Hartl and E. Köhne</i> | 345 |
| Side-effects of insecticides on non-target arthropods in Burkina Faso <i>G. Balança and M.-N. de Visscher</i> | 361 |

| | |
|---|-----|
| Susceptibility of target acridoids and non-target organisms to <i>Metarhizium anisopliae</i> and <i>M. flavoviride</i> <i>C. Prior</i> | 369 |
| Effects of anti-locust insecticides in surface waters in the Sahel: a summary of five years of research <i>J. Lahr and A.O. Diallo</i> | 377 |
| Environmental impact: Poster contributions | |
| Diflubenzuron and locust control in south-western Madagascar: relative abundance of non-target invertebrates following barrier treatment <i>C.C.D. Tingle, Raholijaona, T. Rollandson, Z. Gilberte and R. Romule</i> | 385 |
| Impact of deltamethrin on the parasitic locust fly, <i>Wohlfahrtia pachytyli</i> <i>N. Saffer, S.A. Hanrahan and H.D. Brown</i> | 389 |
| The dissipation of certain insecticides in the environment of the Sahel <i>B. Gadji</i> | 391 |
| Environmental impact: Working group | |
| Results and recommendations of the working group Environmental impact <i>H. van der Valk (Chairman) and R. Peveling (Secretary)</i> | 395 |
| Economics of locust control and crop loss assessment | |
| Economics of desert locust control <i>S. Krall and C. Herok</i> | 401 |
| Yield losses on pearl millet panicles due to grasshoppers: a new assessment method <i>S.A. Kogo and S. Krall</i> | 415 |
| Comparison of the costs of barrier and blanket treatments using insect growth regulators in Madagascar <i>W. Zehrer</i> | 425 |
| Economics and practicalities of migratory locust hopper band control using barriers of insect growth regulator <i>H. Dobson, J. Cooper, A. Rakotonandrasana and R. Scherer</i> | 433 |

Management strategies

Desert locust control strategies

| | |
|-------------------------|-----|
| <i>P. Symmons</i> | 445 |
|-------------------------|-----|

Can we prevent desert locust plagues?

| | |
|--------------------------|-----|
| <i>A. van Huis</i> | 453 |
|--------------------------|-----|

Proaction: strategic framework for today's reality

| | |
|---------------------------|-----|
| <i>A.T. Showler</i> | 461 |
|---------------------------|-----|

Towards an integrated strategy for the control of the desert locust

| | |
|--|-----|
| <i>M. Lecoq, J.-F. Duranton and T. Rachadi</i> | 467 |
|--|-----|

Control of the desert locust: strategy, organisation and means

| | |
|-----------------------|-----|
| <i>B. Chara</i> | 475 |
|-----------------------|-----|

Strategy for controlling the desert locust in Mauritania

| | |
|--------------------------------------|-----|
| <i>M. Abdallahi Ould Babah</i> | 487 |
|--------------------------------------|-----|

Grasshopper control in Siberia: strategies and perspectives

| | |
|--------------------------------|-----|
| <i>A.V. Latchininsky</i> | 493 |
|--------------------------------|-----|

Management strategies: Poster contribution

A new approach to the control of *Rhammatocerus schistocercoides* (Rehn, 1906) in Brazil

| | |
|--|-----|
| <i>M. Lecoq, E.E. de Miranda and I. Pierozzi Jr.</i> | 505 |
|--|-----|

Management strategies: Working groups

Results and recommendations of the working group Management strategies

| | |
|---|-----|
| <i>Y. Mbodj (Chairman) and M. Lecoq (Secretary)</i> | 509 |
|---|-----|

Results and recommendations of the working group Management strategies

| | |
|---|-----|
| <i>H. Posamentier (Chairman) and J. Magor (Secretary)</i> | 515 |
|---|-----|

| | |
|---------------------|-----|
| Subject index | 518 |
|---------------------|-----|
