

Contents

1 Virtual Reality in Psychotherapy, Rehabilitation, and Neurological Assessment	1
<i>Sheryl Brahnham, Lakhmi C. Jain</i>	
1 Introduction	1
2 Synopsis of the Chapters in This Book	2
3 Conclusion	7
References	7

Part 1: Virtual Reality and Psychotherapy

2 Virtual Reality Supporting Psychological Health	13
<i>MAJ Melba C. Stetz, Richard I. Ries, Raymond A. Folen</i>	
1 Health Care in the USA	13
2 Health and Stress	14
3 Stress and Mental Health	15
3.1 Stress and Anxiety Mental Health Disorders	15
3.2 Combat Stress and Combat Stress Prevalence Rates	16
3.3 Stress and Neurophysiology	17
4 Psychotherapy for Stress Problems	18
4.1 Chemical Approaches	18
4.2 Behavioral Approaches	19
4.3 Biofeedback	21
4.4 Virtual Reality in Psychotherapy	22
5 Discussion	27
References	27
3 Current Trends and Future Directions for Virtual Reality Enhanced Psychotherapy	31
<i>Marilyn P. Safir, Helene S. Wallach</i>	
1 Current Trends and Future Directions for Virtual Reality Enhanced Psychotherapy	31
2 VRCBT for Specific Phobias	32

2.1	Fear of Flying	32
2.2	Claustrophobia	32
2.3	Acrophobia	32
2.4	Panic Disorder Combined with Agoraphobia	33
2.5	Arachnophobia	34
2.6	Social Phobia	34
2.7	Post Traumatic Stress Disorders (PTSD)	35
3	New Developments in VR Applications	37
3.1	Pain Management	37
3.2	Eating Disorders	37
3.3	Sexual Dysfunction	38
3.4	Training New Therapists	39
	References	39
4	Virtual Reality Exposure Therapy for Anxiety Disorders: The State of the Art	47
	<i>Katharina Meyerbröcker, Paul M.G. Emmelkamp</i>	
1	Introduction	47
2	The Effectiveness of Virtual Reality Exposure Therapy	48
2.1	Specific Phobias	48
2.2	Specific Phobias: Acrophobia (Fear of Heights)	49
2.3	Specific Phobias: Fear of Flying	50
2.4	Social Phobia	52
2.5	Panic Disorder	53
2.6	Posttraumatic Stress Disorder	55
2.7	Meta-analyses	56
2.8	Concluding Remarks	56
3	The Role of Presence	56
3.1	Technical Aspects	57
3.2	Personality Characteristics	57
4	Process of VRET	58
4.1	Psychophysiology in the Process of VRET	58
4.2	Cognitive Mechanisms in Virtual Reality Exposure Therapy	58
4.3	Therapeutic Relationship	58
5	Concluding Remarks	59
	References	59
5	Virtual Reality as a Tool for Cognitive Behavioral Therapy: A Review	63
	<i>Simona Scozzari, Luciano Gamberini</i>	
1	Introduction	63
2	Virtual Reality Exposure Therapy for Phobia	64
2.1	Exposure Therapy	64
2.2	Arachnophobia	66

2.3	Acrophobia	68
2.4	Fear of Flying	69
2.5	Social Phobia	72
2.6	Panic and Agoraphobia	74
2.7	Advantages of Virtual Reality Exposure Therapy vs. Other Exposure Treatments for Phobias	76
3	Other Employments of Virtual Reality Exposure Therapy	77
3.1	Post-Traumatic Stress Disorder	77
3.2	Stress Inoculation Training	80
4	Other Virtual Reality-Based Exposure Techniques	81
4.1	Virtual Reality Cue Exposure Treatment for Substance Abuse	81
4.2	Virtual Reality in Eating Disorders Treatment	83
5	Virtual Reality Interventions for Pain Control	85
5.1	Virtual Reality Analgesia for Pediatric Patients	86
5.2	Virtual Reality Analgesia for Adult Patients	87
5.3	Hypnosis Induction by Means of Virtual Reality	90
5.4	Studies on Virtual Reality Analgesia Mechanisms	91
6	Conclusion	92
	References	93
 6	 Virtual Reality and the Training of Military Personnel to Cope with Acute Stressors	 109
	<i>Stéphane Bouchard, Tanya Guitard, François Bernier, Geneviève Robillard</i>	
1	Introduction	109
2	Stress Management Techniques for Military Personnel	110
3	Virtual Reality and Its Potential to Induce Anxiety	112
4	VR in the Treatment of PTSD	114
5	The Use of VR in Stress Management Training	115
6	The Feeling of Presence	119
7	Conclusion	123
	References	124
 7	 How Can Presence in Psychotherapy Employing VR Be Increased?	 129
	<i>Helene S. Wallach, Marilyn P. Safir, Roy Samana, Idan Almog, Reut Horef</i>	
1	Introduction	129
2	Presence	130
3	Variables Which Affect Presence	130
3.1	Technological Variables	131
3.2	User Variables	132

3.3	Interaction Variables	140
4	Summary	141
	References	142
8	The Healing Potential of Online Virtual Worlds	149
	<i>Jacquelyn Ford Morie</i>	
1	Introduction: Social Networks and Virtual Worlds	149
1.1	Creating, Existing and Participating in the Virtual World	150
1.2	An Idea to Support a Need	152
1.3	Benefits of the Virtual World	153
2	Virtual Solutions to Health Care	154
2.1	Designing the Veterans' Healing Center	154
2.2	Focus Therapies	156
2.3	Supporting Research for Virtual World Effectiveness	157
2.4	Other Activities and Intelligent Agents	157
2.5	Expected Results	160
2.6	Other Health Examples from the Virtual World	161
3	Issues and Concerns	161
4	Conclusion	163
	References	163

Part 2: Virtual Reality and Rehabilitation

9	Virtual Reality and Serious Games in Healthcare	169
	<i>Minhua Ma and Huiru Zheng</i>	
1	Introduction	169
2	VR Devices	171
2.1	Haptic Force Feedback Devices	171
2.2	Tracking Devices	173
3	VR Games for Healthcare	176
3.1	Dynamic Simulation	176
3.2	Serious Games for Healthcare	177
3.3	Flow and Its Application to Serious Games	180
3.4	Train a User by Modeling Him—User Profiling	182
4	Experiments and Results of Using VR in Stroke Rehabilitation	185
4.1	SMART Rehabilitation	186
4.2	VR Game Intervention for Movement Therapy	187
5	Conclusions and Future Work	189
	References	189

10 Development and Evaluation of a Mixed Reality System for Stroke Rehabilitation	193
<i>Dave Hilton, Sue Cobb, Tony Pridmore, John Gladman, Judi Edmans</i>	
1 Introduction	193
1.1 Stroke	194
1.2 Applications of Virtual Reality for Rehabilitation and Therapy.....	196
2 The Design and Development Process	197
2.1 User Centred Design	197
2.2 Consultation Phase	198
2.3 Virtual Environment Development Phase	200
2.4 The Design of a Mixed Reality System	208
3 Discussion	220
4 Summary	224
References	225
 11 Design and Development of a Virtual-Reality Based System for Improving Vision in Children with Amblyopia.....	 229
<i>Paula Waddingham, Richard Eastgate, and Sue Cobb</i>	
1 Introduction	229
2 Amblyopia and Eye Treatment	231
2.1 Diagnosis of Amblyopia	231
2.2 Classification of Amblyopia	231
2.3 Treatment of Amblyopia	232
3 Virtual Reality and Display Technologies	232
3.1 Virtual Reality (VR)	232
3.2 VR in Healthcare	235
4 Development of the I-BiT® System for Treatment of Amblyopia.....	235
4.1 The I-BiT® System Multi-disciplinary Development Team	237
4.2 I-BiT® Interactive Treatment Mode: Game Design	238
4.3 I-BiT® Passive Treatment Mode: Using Movie Clips	239
4.4 Development of the I-BiT® System Research Prototype	240
4.5 Usability Evaluation of the I-BiT® System Research Prototype	241
4.6 Development of Prototype #1	242
4.7 Usability Evaluation of I-BiT® Prototype #1.....	243
4.8 Development of I-BiT® Prototype #2	245
4.9 Usability Evaluation of I-BiT® Prototype #2.....	247

5	Clinical Evaluation Trials.....	247
5.1	Study Results.....	248
5.2	Study Outcomes	248
6	Discussion	249
	References	250
12	Doing Play in a Virtual Environment	253
	<i>Denise Reid</i>	
1	Introduction	253
1.1	Play as Occupation	254
1.2	Play and Children with Disabilities	254
2	Person-Environment Process	255
2.1	Person-Environment Fit	255
3	A Theoretical Perspective on the Person-Environment Experience	256
3.1	Application of the Theoretical Perspective	256
4	Impact of Engaging in Play in a Virtual Environment	261
4.1	Personal Perceptions of Engaging in Play in a Virtual Environment.....	261
4.2	Influence of Virtual Play on Children's Playfulness	263
4.3	Influence of Virtual Play on Children's Motivation.....	264
5	Summary.....	266
	References	266

Part 3: Virtual Reality and Assessment

13	Neuropsychological Assessment Using Virtual Environments: Enhanced Assessment Technology for Improved Ecological Validity	271
	<i>Thomas D. Parsons</i>	
1	Introduction	271
1.1	Neuropsychological Assessments	272
1.2	Standardization of Neuropsychological Assessment Measures	273
1.3	Psychometric Rigor of Neuropsychological Assessment Measures	274
1.4	Paradigm Shift in Neuropsychological Assessment	276
2	Computer-Based Neuropsychological Assessment	276
2.1	Automated Neuropsychological Assessments	277
2.2	Outdated Technology	278
3	Ecologically Valid Neuropsychological Instruments	279
3.1	Ecological Validity: Need to Incorporate Advanced Technology	279

4	Virtual Environments Offer Advanced Ecological Validity.....	280
4.1	Correspondence	282
4.2	Representativeness	283
4.3	Expedience	283
4.4	Relevance	284
5	Conclusions.....	285
	References	286
	Author Index	291
