1	Introduction	1
1.1	The World Reference Base for Soil Resources (WRB)	2
1.2	Horizon Designations	3
1.3	Particle Sizes and Texture	4
1.4	Overview of the Reference Soil Groups and Their Distribution across the Ecozones ...	6
	References	8
2	Polar-Subpolar Zone (Tundra Zone)	9
2.1	Location, Climate and Vegetation	10
2.2	Soil Formation and Distribution	10
2.3	Reference Soil Groups	13
2.3.1	Cryosols (CR)	13
2.4	Landscapes and Soils	16
2.5	Soil Sequences	21
	References	22
3	Boreal Zone (Taiga Zone)	23
3.1	Location, Climate and Vegetation	24
3.2	Soil Formation and Distribution	25
3.3	Reference Soil Groups	25
3.3.1	Histosols (HS)	25
3.3.2	Gleysols (GL)	30
3.3.3	Podzols (PZ)	34
3.3.4	Retisols (RT)	38
3.3.5	Stagnosols (ST)	41
3.4	Landscapes and Soils	46
3.5	Soil Sequences	51
	References	52
4	Humid Mid-Latitudes	53
4.1	Location, Climate and Vegetation	54
4.2	Soil Formation and Distribution	54
4.3	Reference Soil Groups	55
4.3.1	Cambisols (CM)	55
4.3.2	Luvisols (LV)	60
4.3.3	Umbrisols (UM)	65
4.4	Landscapes and Soils	68
4.5	Soil Sequences	74
	References	75
5	Dry Mid-Latitudes	77
5.1	Location, Climate and Vegetation	78
5.2	Soil Formation and Distribution	78
5.3	Reference Soil Groups	81
5.3.1	Phaeozems (PH)	81
5.3.2	Chernozems (CH)	85
5.3.3	Kastanozems (KS)	89
5.4	Landscapes and Soils	92
5.5	Soil Sequences	97
	References	98

6	Subtropics with Winter Rain	99
6.1	Location, Climate and Vegetation	100
6.2	Soil Formation and Distribution	100
6.3	Typical soils	101
6.3.1	Cambisols with the Chromic Qualifier	101
6.3.2	Luvisols with the Chromic Qualifier	103
6.3.3	Common Soil-Forming Process: Rubification	104
6.4	Landscapes and Soils	106
6.5	Soil Sequences	110
	References	111
7	Subtropics with Year-Round Rain	113
7.1	Location, Climate and Vegetation	114
7.2	Soil Formation and Distribution	114
7.3	Reference Soil Groups	115
7.3.1	Acrisols (AC)	115
7.3.2	Alisols (AL)	119
7.4	Landscapes and Soils	123
7.5	Soil Sequences	128
	References	129
8	Dry Tropics and Subtropics	131
8.1	Location, Climate and Vegetation	132
8.2	Soil Formation and Distribution	133
8.3	Reference Soil Groups	135
8.3.1	Arenosols (AR)	135
8.3.2	Calcisols (CL)	138
8.3.3	Gypsisols (GY)	142
8.3.4	Durisols (DU)	145
8.3.5	Solonchaks (SC)	147
8.3.6	Solonetz (SN)	150
8.4	Landscapes and Soils	156
8.5	Soil Sequences	160
	References	161
9	Tropics with Summer Rain	163
9.1	Location, Climate and Vegetation	164
9.2	Soil Formation and Distribution	165
9.3	Reference Soil Groups	166
9.3.1	Lixisols (LX)	166
9.3.2	Nitisols (NT)	170
9.3.3	Vertisols (VR)	174
9.3.4	Planosols (PL)	177
9.4	Landscapes and Soils	182
9.5	Soil Sequences	185
	References	186
10	Tropics with Year-Round Rain	187
10.1	Location, Climate and Vegetation	188
10.2	Soil Formation and Distribution	188
10.3	Reference Soil Groups	189
10.3.1	Ferralsols (FR)	189
10.3.2	Plinthosols (PT)	195

Contents

10.4	Landscapes and Soils	199
10.5	Soil Sequences	203
	References	204
11	Mountain Regions	205
11.1	Location, Climate and Vegetation	206
11.2	Soil Formation and Distribution	208
11.3	Reference Soil Groups	210
11.3.1	Leptosols (LP)	210
11.3.2	Regosols (RG)	214
11.3.3	Andosols (AN)	217
11.4	Landscapes and Soils	221
11.5	Soil Sequences	226
	References	227
12	Ubiquitous Soils	229
12.1	Location, Climate and Vegetation	230
12.2	Soil Formation and Distribution	230
12.3	Reference Soil Groups	230
12.3.1	Fluvisols (FL)	230
12.3.2	Anthrosols (AT)	232
12.3.3	Technosols (TC)	237
12.4	Landscapes and soils	242
12.5	Soil Sequences	247
	References	248
