Foreword <i>Chitranjan S. Ranawat</i>	ix
Foreword <i>Kamal Deep</i>	x
Preface	xi
Contributors	xii
1. Role of Computer Navigation in Knee Arthroplasty <i>Anoop Jhurani and Piyush Agarwal</i>	1
2. Setting of Navigation in Operating Room, Data Acquisition, and Interpretation <i>Anoop Jhurani, Piyush Agarwal, and Kunal Aneja</i>	11
3. Computer-Navigated TKR for Varus and Associated Sagittal Deformity <i>Anoop Jhurani and Piyush Agarwal</i>	29
4. Computer-Navigated TKR for Valgus and Associated Sagittal Deformities <i>Anoop Jhurani and Piyush Agarwal</i>	49
5. Computer-Navigated TKR for Fixed Flexion Deformity <i>Anoop Jhurani and Piyush Agarwal</i>	67
6. Computer-Navigated TKR for Recurvatum Deformity <i>Anoop Jhurani and Piyush Agarwal</i>	81
7. Computer-Navigated TKR for Extra-Articular Deformity <i>Anoop Jhurani and Piyush Agarwal</i>	91
8. Computer-Navigated TKR in Knees with Retained Hardware <i>Anoop Jhurani and Piyush Agarwal</i>	119
9. Computer-Navigated TKR in Special Situations <i>Anoop Jhurani and Piyush Agarwal</i>	135
10. UKA with Handheld Robotics <i>Anoop Jhurani, Mukesh Aswal, and Piyush Agarwal</i>	157
11. Handheld Robotics in Total Knee Replacement <i>Anoop Jhurani, Mukesh Aswal, and Piyush Agarwal</i>	175
