Preface — V

Foreword — XI

About the Authors — XIII

Chapter 1

Overview on the History of Integration and Fundamental Concept — 1

- 1.1 Overview on the History of Pinch Technology — 1
 - 1.1.1 Process Integration — 1
 - 1.1.2 Mathematical Programming Method — 2
- 1.2 Introduction of Pinch Technology — 3
- 1.3 Basic Definitions — 5
 - 1.3.1 The Process Stream — 5
 - 1.3.2 Utilities — 5
 - 1.3.3 Sensible Heat — 6
 - 1.3.4 Concept of the First Law of Thermodynamics — 8
 - 1.3.5 Concept of the Second Law of Thermodynamics — 9
 - 1.3.6 Minimum Allowable Temperature Difference in Heat Exchangers (ΔT_{\min}) — 9

Chapter 2

Composite Curve — 12

- 2.1 Data Extraction — 12
- 2.2 Composite Curve — 13

Chapter 3

Cascade Diagram — 19

- 3.1 Golden Rules of Pinch Technology — 19
- 3.2 Cascade Diagram — 20

Chapter 4

Heat Exchanger Network Design with Maximum Energy Recovery — 27

- 4.1 Heat Exchanger Network Design with Maximum Rate of Energy Recovery (MER) — 27
- 4.2 Grid Diagram — 27
- 4.3 Rules of Exchanger Design Above and Below the Pinch Point — 28

Chapter 5

Heat Exchanger Network Design with Minimum Heat Transfer Unit — 43

- 5.1 Heat Exchanger Network Design with Minimum Heat Transfer Unit
(N_{\min}) — 43
- 5.2 Grand Composite Curve (GCC) — 46

Chapter 6

Estimating the Number of Shells and Heat Transfer Area of Heat Exchanger Network — 53

- 6.1 Area Targeting — 53
- 6.2 Log Mean Temperature Difference (LMTD) Calculation — 56
- 6.3 Estimating Correction Factor (FT) — 56
- 6.4 Estimating the Number of Shells and Heat Transfer Area of Heat Exchanger Network — 64
 - 6.4.1 Trial-and-Error Methods and Rule of Thumb for Estimating the Number of Shells in Exchanger — 65
 - 6.4.2 Stepping-Off Method for Estimating the Number of Shells in Heat Exchangers — 67

Chapter 7

Estimating the Cost of Heat Exchanger Network — 71

- 7.1 Energy Cost Targeting for Heat Exchanger Network — 71
- 7.2 Capital Cost Targeting for Heat Exchanger Network — 71
- 7.3 Total Cost Targeting for Heat Exchanger Network — 73
- 7.4 Estimating the Minimum Allowable Temperature Difference in Heat Exchangers (ΔT_{\min})_{opt} — 73

Chapter 8

Furnaces, Heat Engines, Heat Pumps and Distillation Tower — 75

- 8.1 Furnaces — 75
- 8.2 Heat Engine (H.E.) — 77
 - 8.2.1 Placement of Heat Engine Across the Pinch Point — 78
 - 8.2.2 Placement of Heat Engine Above the Pinch — 79
 - 8.2.3 Placement of Heat Engine Below the Pinch — 79
- 8.3 Heat Pump (H.P.) — 80
 - 8.3.1 Placement of Heat Pump Across the Pinch Point — 82
 - 8.3.2 Placement of Heat Pump Above the Pinch — 82
 - 8.3.3 Placement of Heat Pump Below the Pinch — 82
- 8.4 Distillation Tower — 83

8.4.1	Placement of Distillation Tower Across the Pinch Point —	84
8.4.2	Placement of Distillation Tower Above the Pinch —	84
8.4.3	Placement of Distillation Tower Below the Pinch —	85
