List of authors by chapter — VII

M. Kouselya, Muhilan B. M. and Indranil Chattopadhyay

- 1 Omics approaches for characterization of environmental microorganisms — 1**

Illathu Kandy Nidhin and Indranil Chattopadhyay

- 2 Emerging technologies in environmental microbiology — 33**

Nelson Libardi Junior, Nathan Pacheco Amin Vieira da Costa, Rejane Helena Ribeiro da Costa, Carlos Ricardo Soccol and Luciana Porto de Souza Vandenberghe

- 3 Pollutants removal using aerobic granular sludge technology — 59**

Sreejita Ghosh, Dibyajit Lahiri, Sougata Ghosh,

Moupriya Nag and Rina Rani Ray

- 4 Biofilm-mediated industrial wastewater treatment — 79**

Getu Kassegn Weldegebrieal and Assefu Kassegn Sibhatu

- 5 Photocatalytic degradation of organic contaminants in wastewater treatment — 113**

Sarangi N. V. and Rajkumar R.

- 6 Biodegradation of organic pollutants by microbial process — 137**

Satarupa Dey and A. K. Paul

- 7 Bauxite residue (red mud): microbial resources and their possible exploitation in remediation and rehabilitation — 161**

Oluka N. Ngofa and George Z. Kyzas

- 8 Advancements in application of dispersants to oil spills — 185**

Arundhati Pal and A. K. Paul

- 9 Serpentinophytes-associated microbiota: a review of applications in environmental biotechnology — 221**

Komal Agrawal and Pradeep Verma

- 10 Microbial desalination cell: a versatile insight towards sustainable contribution — 249**

Can Burak Özkal

- 11 Control of antibiotic resistance by advanced treatment: recent advances, in a nutshell — 265**

Prasann Kumar, E. Lokesh Goud, Priyanka Devi
and Bhupendra Koul

- 12 Metal pollutants in the environment — 291**

Atif Aziz Chowdhury, Nilendu Basak, Taniya Roy and Ekramul Islam

- 13 The language of gram-positive and gram-negative bacteria — 325**

Index — 341
