

Contents

- 1 Ranking** 1
 - 1.1 Motivation: Google Problem 1
 - 1.2 Results 4
 - 1.2.1 Perron-Frobenius Theorem 4
 - 1.2.2 PageRank 9
 - 1.3 Case Study: Brand Loyalty 15
 - 1.4 Exercises 18
- 2 Online Learning** 21
 - 2.1 Motivation: Portfolio Selection 22
 - 2.2 Results 25
 - 2.2.1 Online Mirror Descent 25
 - 2.2.2 Entropic Setup 32
 - 2.3 Case Study: Expert Advice 36
 - 2.4 Exercises 38
- 3 Recommendation Systems** 41
 - 3.1 Motivation: Netflix Prize 41
 - 3.2 Results 43
 - 3.2.1 Neighborhood-Based Approach 43
 - 3.2.2 Model-Based Approach 45
 - 3.3 Case Study: Latent Semantic Analysis 58
 - 3.4 Exercises 60
- 4 Classification** 63
 - 4.1 Motivation: Credit Investigation 63
 - 4.2 Results 65
 - 4.2.1 Fisher’s Discriminant Rule 65
 - 4.2.2 Support-Vector Machine 73
 - 4.3 Case Study: Quality Control 81
 - 4.4 Exercises 83

5	Clustering	87
5.1	Motivation: DNA Sequencing	87
5.2	Results	89
5.2.1	k -Means	89
5.2.2	Spectral Clustering	93
5.3	Case Study: Topic Extraction	100
5.4	Exercises	103
6	Linear Regression	107
6.1	Motivation: Econometric Analysis	108
6.2	Results	110
6.2.1	Ordinary Least Squares	110
6.2.2	Ridge Regression	118
6.3	Case Study: Capital Asset Pricing	124
6.4	Exercises	126
7	Sparse Recovery	131
7.1	Motivation: Variable Selection	131
7.2	Results	134
7.2.1	Lasso Regression	134
7.2.2	Iterative Shrinkage-Thresholding Algorithm	139
7.3	Case Study: Compressed Sensing	144
7.4	Exercises	147
8	Neural Networks	149
8.1	Motivation: Nerve Cells	150
8.2	Results	152
8.2.1	Logistic Regression	152
8.2.2	Perceptron	158
8.3	Case Study: Spam Filtering	165
8.4	Exercises	167
9	Decision Trees	171
9.1	Motivation: Titanic Survival	171
9.2	Results	175
9.2.1	NP-Completeness	175
9.2.2	Top-Down and Bottom-Up Heuristics	181
9.3	Case Study: Chess Engine	185
9.4	Exercises	189
10	Solutions	193
10.1	Ranking	193
10.2	Online Learning	200
10.3	Recommendation Systems	206
10.4	Classification	215

10.5	Clustering	222
10.6	Linear Regression	232
10.7	Sparsity	239
10.8	Neural Networks	245
10.9	Decision Trees	252
