Section I Principles	1	4.3	Pruritus	45
1 Anorectal and Colonic Anatomy ..	3	4.4	Pain	46
<i>Felix Aigner and Helga Fritsch</i>		4.5	Discharge	47
1.1 Introduction	3	4.6	Fecal Incontinence	48
1.2 Basics of Embryological		4.7	Diarrhea	49
Gut Development	3	4.8	Constipation	50
1.3 Anatomy of the Colon		4.9	False Need to Defecate	50
and Anorectum	5	4.10	Conclusion	51
1.4 Pelvic Floor Topography	11	5 Proctological Examination		55
1.5 Conclusion	14	<i>Jean-Claude R. Givel</i>		
2 Anorectal		5.1	Introduction	55
and Pelvic Floor Physiology	19	5.2	Medical History	55
<i>Søren Laurberg and Klaus Krogh</i>		5.3	General Examination	55
2.1 Introduction	19	5.4	Local Examination	56
2.2 General Aspects		5.5	Endoscopy	59
of Colorectal Motility	19	5.6	Complementary Examinations	61
2.3 Generation and Control		5.7	Specific Conditions	61
of Colorectal Motility	20	6 Lower Gastrointestinal Endoscopy:		
2.4 The Anal Canal	21	Diagnosis and Treatment		65
2.5 Defecation	22	<i>Philippa L. Youd and Brian P. Saunders</i>		
2.6 Methods to Study Anal, Rectal,		6.1	Introduction	65
and Colonic Function	23	6.2	When to Perform a Colonoscopy ...	65
2.7 Anal Continence		6.3	The Fundamentals of Diagnosis	66
and Normal Bowel Movements	27	6.4	Characterising the Lesion	67
2.8 Practical Guidelines for Use		6.5	Newer Optical Techniques	
of Tests of Incontinence and			for the Improvement	
Constipation	27	6.6	of Adenoma Detection	67
3 Colonic Motility and Physiology ..	31	6.7	Colonoscopic Management	69
<i>Kumaran Thiruppathy</i>		6.8	Colonoscopy Training – in Brief	74
<i>and Anton Emmanuel</i>			Conclusion	75
3.1 Introduction	31	7 Pathology of Anorectal		
3.2 Colonic Physiology	31	and Colonic Specimens		81
3.3 The Rectum as Storage Conduit	35	<i>Daniel J. Royston and Bryan F. Warren</i>		
3.4 Physiological Variability		7.1	Introduction	82
in Disease States	35	7.2	Practical Interpretation	
3.5 Conclusion	37		of Large-Bowel Mucosal Biopsies ...	82
4 History-Taking and Symptoms	43	7.3	Non-neoplastic Colorectal Diseases	
<i>Jean-Claude R. Givel</i>		7.4	Neoplastic Colorectal Diseases	100
4.1 Introduction	43	7.5	Anal Pathology	106
4.2 Bleeding	43	7.6	Summary	108

8	Anorectal, Pelvic and Colonic Imaging	117	12.5	Nutritional Requirements	194
	<i>Simon A. Jackson and Bruce M. Fox</i>		12.6	Gastrointestinal Disease and High Risk of PCM	194
8.1	Introduction	117	12.7	Nutritional Problems in Specific Colorectal Pathologies ...	194
8.2	Plain Radiographs	117	12.8	Crohn's Disease	195
8.3	Contrast Imaging	118	12.9	Ulcerative Colitis	196
8.4	Cross-Sectional Imaging	121	12.10	Fistulas and Ileostomies	196
8.5	Positron Emission Tomography/CT	126	12.11	Diverticulitis	196
8.6	Conclusion	127	12.12	Nutritional Management of Colorectal Disease	197
9	Endorectal and Anal Sonography	133	12.13	Dietary Management	197
	<i>Bruno Roche, Joan Robert-Yap and Nicolas C. Buchs</i>		12.14	Enteral and Parenteral Nutrition Support	198
9.1	Introduction	133	12.15	Conclusion	198
9.2	General Overview	133	13	Preparation and Positioning for Surgery	201
9.4	Endoanal Ultrasonography Technique	136		<i>Julien Vaucher and Jean-Claude R. Givel</i>	
9.5	Image Interpretation	136	13.1	Introduction	201
10	Anorectal Manometry	155	13.2	Bowel Preparation	201
	<i>Graeme S. Duthie and Angela B. Gardiner</i>		13.3	Antibiotic Prophylaxis	204
10.1	Introduction	155	13.4	Thromboembolic Prophylaxis	205
10.2	Manometry Techniques	155	13.5	Positioning	206
10.3	Anal Canal Manometry	156	13.6	Conclusion	208
10.4	Use of Anal Manometry	156	14	Anaesthesia and Perioperative Management for Anorectal and Colonic Surgery	215
10.5	Assessment of Anorectal Reflex	157		<i>Patrick Yves Wüthrich and Jean-Patrice Gardaz</i>	
10.6	Prolonged and Ambulatory Manometry	157	14.1	Introduction	215
10.7	Assessment of Rectal Function	158	14.2	Specific Aspects of Pathophysiology Applied to Anaesthesia and Colonic Surgery	215
10.8	Summary	159	14.3	Anaesthesia for Laparoscopic Surgery	220
11	Microbiology of the Lower Digestive Tract	163	14.4	Anaesthesia for Anorectal Surgery ..	223
	<i>Guy Prod'homme and Jacques Bille</i>		14.5	Anaesthesia for Colorectal Surgery ..	225
11.1	Introduction	163	14.6	Post-operative Anaesthesia-Related Complications	229
11.2	Abscess and Fistula	168	14.7	Conclusion	231
11.3	Perianal Disease	169	15	Transanal Endoscopic Microsurgical Excision	237
11.4	Proctitis	172		<i>Nicolas Demartines</i>	
11.5	Proctocolitis	176	15.1	Introduction	237
11.6	Lower Digestive Tract Infections in Immunosuppressed Patients	181	15.2	Indications and Work-up	238
11.7	Concluding Remarks	184	15.3	TEM Technique	239
12	Nutritional Evaluation and Care in Coloproctology	191	15.4	Operative Results	243
	<i>Laurence Genton and Claude Pichard</i>				
12.1	Introduction	191			
12.2	Pathophysiology	191			
12.3	PCM: Consequences	192			
12.4	Evaluation of Patients	192			

15.5	TEM Limitations in Cancer Treatment	243	Section II Anal and Perianal Diseases ...	299
15.6	TEM and Neoadjuvant and Adjuvant Therapy	243	19 Hemorrhoidal Disease	301
15.7	Risks of TEM	243	<i>Jean-Claude R. Givel</i>	
15.8	Perspectives	244	<i>and Yannick Cerantola</i>	
15.9	Conclusion	244	19.1 Introduction	301
16 Laparoscopic Colorectal Surgery	247	19.2 Definition	302	
<i>Willem A. Bemelman</i>		19.3 Pathophysiology	302	
<i>and Andre D'Hoore</i>		19.4 Classification	303	
16.1 Introduction	247	19.5 Predisposing Factors and Etiology ..	303	
16.2 Laparoscopic Techniques	248	19.6 Symptoms	304	
16.3 Laparoscopic Surgery for Colorectal Cancer	257	19.7 Examination	304	
16.4 Laparoscopic Colorectal Surgery for Inflammatory Conditions	258	19.8 Treatment	304	
16.5 Laparoscopic Surgery for Endometriosis	264	19.9 Hemorrhoids Occurring in Special Situations	317	
16.6 Conclusion	265	19.10 Thrombosed External Hemorrhoids	318	
17 Stomas and Related Problems ...	271	19.11 Conclusion	318	
<i>Bruce D. George and Angie Perrin</i>		20 Anal Fissure	325	
17.1 Introduction and Nomenclature	271	<i>Ian Lindsey</i>		
17.2 Classification of Gastrointestinal Stomas	271	20.1 Introduction	325	
17.3 Indications for Stoma formation	272	20.2 The Physiology of Regulation of Internal-Sphincter Tone	326	
17.4 Preoperative Assessment	272	20.3 Medical Therapies	326	
17.5 Surgical Technique	273	20.4 Surgical Therapies	328	
17.6 Routine Post-Operative Care	275	20.5 The Approach to a Primary Chronic Fissure	330	
17.7 Complications of Stoma Formation	275	20.6 The Approach to a Medically Recalcitrant Chronic Fissure	331	
18 Psychological Assessment of the Coloproctology Patient	283	20.7 Conclusion	332	
<i>Julian Stern</i>		21 Anorectal Abscesses and Fistulas	339	
18.1 Introduction	283	<i>Peter Buchmann</i>		
18.2 The Psychological and Psychiatric Assessment of the Coloproctology Patient	283	<i>and Marc-Claude Marti †</i>		
18.3 Impact of a Pre-existing Psychiatric Condition/Personality Structure on Patients and Their GI Symptoms	284	21.1 Introduction	339	
18.4 Impact of GI Symptom/Disease/Intervention on the Patient's Psyche (Using FI as an Example)	289	21.2 Aetiology	339	
18.5 Therapeutic Options	292	21.3 Spread of Infection	340	
18.6 Contribution of this Service to Professionals and Family Members	293	21.4 Abscesses	343	
18.7 Conclusion	293	21.5 Anal Fistula	347	
		21.6 Carcinoma	357	
		22 Malignant Tumours of the Anal Canal and Margin	361	
		<i>Syed A. Hyder</i>		
		<i>and Christopher Cunningham</i>		
		22.1 Incidence of Anal Cancer	361	
		22.2 Anatomy	361	
		22.3 Aetiology and Pathogenesis	361	
		22.4 Classification of Anal Cancer	362	
		22.5 Squamous Cell Carcinoma	362	
		22.6 Symptoms	362	

22.7	Clinical Findings and Diagnosis	362	25	Pruritus Ani	417
22.8	Staging	363		<i>Olivier Gié</i>	
22.9	Treatment	363	25.1	Introduction	417
22.10	Adenocarcinoma of the Anal Canal	366	25.2	Definition and Pathophysiology of Pruritus	417
22.11	Bowen's Disease	367	25.3	Investigation	418
22.12	Paget's Disease	367	25.4	Causes	419
22.13	Malignant Melanoma	367	25.5	Intestinal Infestation	421
22.14	Anal Intraepithelial Neoplasia	368	25.6	Approach to Treatment	421
22.15	Conclusion	368	25.7	Conclusion	421
23	Pilonidal Sinus Disease	373	26	Clinical Management of Patients with Faecal Incontinence	425
	<i>Michael R. Thompson, Asha Senapati and Paul R.B. Kitchen</i>			<i>Ian Finlay</i>	
23.1	Introduction	373	26.1	Introduction	425
23.2	Presentation of Pilonidal Sinus Disease	373	26.2	Mechanism of Continence	425
23.3	Aetiology of Pilonidal Sinus Disease	373	26.3	Aetiology of Faecal Incontinence	427
23.4	Economic and Clinical Consequences of En-Bloc Excisional Surgical Treatment	374	26.4	Investigation of Patients with Incontinence	430
23.5	Management of Pilonidal Sinus Disease	375	26.5	Treatment	431
23.6	Bascom I and the Lord/Millar Procedure for Minor to Moderate Disease	375	26.6	Conclusion	437
23.7	The Karydakis Procedure and its Kitchen and Bascom II Modifications	378	27	Sacral Nerve Stimulation for Fecal Incontinence	443
23.8	Z-plasty, Rhomboid Flaps and the Limberg Flap	380		<i>Klaus E. Matzel</i>	
23.9	Unhealed Midline Wounds	380	27.1	Introduction	443
23.10	Conclusion	381	27.2	Technique	443
	Appendix	381	27.3	Patient Selection and Indications	445
			27.4	Results	447
			27.5	Conclusion	448
24	Dermatological Anal and Perianal Diseases	387	28	Essential Anorectal or Idiopathic Perianal Pain	453
	<i>Bruno Roche, Eva Csátár and Joan Robert-Yap</i>			<i>Lukas Degen and Walter R. Marti</i>	
24.1	Introduction	388	28.1	Introduction	453
24.2	Characteristics of Perianal Skin	388	28.2	Definition	453
24.3	Dermatitis (Eczema)	390	28.3	Chronic Proctalgia	454
24.4	Fixed Drug Eruption	393	28.4	Proctalgia Fugax	454
24.5	Infections	394	28.5	Coccygodynia	455
24.6	Dermatosis	401	28.6	Perineal Neuralgia and Alcock's Canal Syndrome	455
24.7	Congenital and Genetic Diseases	405	28.7	Analgesics and Adjuvant Pharmacologic Management	455
24.8	Erosive and Ulcerous Dermatitis	407	28.8	Psychological Aspects/Somatisation	456
24.9	Systemic Diseases	407	28.9	Conclusions	456
24.10	Vegetative and Fistulous Dermatitis	409	29	Complications of Anal Surgery	461
24.11	Tumorous Paraneoplastic Syndromes	409		<i>Andrew J. Shorthouse and Steven R. Brown</i>	
24.12	Premalignant Diseases	410	29.1	Introduction	462
24.13	Malignant Diseases	412	29.2	Perianal Abscess	462
24.14	Conclusion	414	29.3	Anal Fistula	463

29.4	Hidradenitis Suppurativa	466	32	Diverticular Disease	533
29.5	Fournier's Gangrene	467		<i>Tim Brown and Alastair Windsor</i>
