

Contents

Abbreviations — XV

Chapter 1

Introduction — 1

Chapter 2

Chernobyl — The nuclear disaster — 22

Chapter 3

Chernobyl and the timing of the mortality crisis — 28

Chapter 4

Birth rates and sex ratios after Chernobyl — 31

Chapter 5

Soviet and post-Soviet cover-up — 38

Chapter 6

Effects of the radioactive fallout — From early evaluations to the Chernobyl Forum — 42

Chapter 7

Health effects of ionizing radiation — How knowledge grew out of secrecy — 49

Chapter 8

Effects of low-dose radiation — The LNT model — Hormesis — 63

Chapter 9

Conflicting results of investigations on exposures to low-dose ionizing radiation — 84

Chapter 10

Thyroid cancer caused by the Chernobyl fallout — 89

Chapter 11

Post-Chernobyl non-thyroid malignancies and other health effects — 93

XIV — Contents

Chapter 12

Mortality effects of fallout from nuclear tests — 102

Chapter 13

Conclusion — 106

Appendix A

Units for measurement of ionizing radiation — 109

Appendix B

Gender issues — 110

Appendix C

Data Tables — 114

References — 119

Index — 131
