LIST OF TABLES	18
ACKNOWLEDGEMENTS	22
SLAVIC AND IPA PHONETIC SYMBOLS	23
LIST OF ABBREVIATIONS	24
PRESENT AND EXTINCT SLAVIC LANGUAGES	25
INTRODUCTION	27
CHAPTER 1: NATURAL CLASS OF RHOTICS	33
1.1. DEFINING RHOTICS	33
1.1.1. Articulatory criteria	34
1.1.2. Acoustic criteria	35
1.1.3. Phonological criteria	35
1.1.4. Diachronic and synchronic changes affecting rhotics	36
1.1.5. Taxonomic problems	37
1.2. CROSS-LINGUISTICALLY COMMON RHOTICS	39
1.3. ACOUSTIC PROPERTIES OF RHOTICS	42
1.3.1. Trills	42
1.3.1.1. <i>Plain apical trills</i>	42
1.3.1.2. <i>Uvular trills</i>	44
1.3.1.3. <i>Palatalised apical trills</i>	47
1.3.1.4. <i>Fricated trills</i>	50
1.3.1.5. <i>Aspirated trills</i>	52
1.3.2. Taps and flaps	53
1.3.3. Spirantised rhotics	55
1.3.4. Approximantised rhotics	57
1.3.5. Affricated rhotics	59
CHAPTER 2: THE PHONOLOGY OF RHOTICS	61
2.1. PHONOTACTIC PROPERTIES OF RHOTICS	61
2.1.1. Rules of well-formedness of onset and coda clusters	61
2.1.1.1. <i>Onset and coda clusters involving rhotics</i>	65
2.1.1.2. <i>Marked clusters involving rhotics</i>	66
2.2. SYLLABIC AND NON-SYLLABIC RHOTICS	67
2.2.1. Syllabicity and nuclearity	69
2.3. PHONOLOGICAL PROCESSES INVOLVING RHOTICS	71
2.3.1. Phonological neutralisation	71
2.3.1.1. <i>Neutralisation of the /r/-/ɾ/ contrast</i>	73
2.3.1.2. <i>Neutralisation of the /r/-/ɻ/ contrast</i>	73
2.3.2. Uvularisation: The /r/ > /ʀ/ change	74
2.3.3. Lateralisation: The /r/ > /l/ change	75
2.3.4. Spirantisation of rhotics	76

2.3.5. Metathesis	80
2.3.6. Affinity between alveolar plosives and taps	82
CHAPTER 3: DIACHRONIC CHANGES OF SLAVIC RHOTICS	85
3.1. OUTLINE OF PROTO-INDO-EUROPEAN PHONOLOGY	85
3.2. PHONOLOGICAL CHANGES OF THE BALTO-SLAVIC PERIOD ..	87
3.3. THE PROTO-SLAVIC PERIOD	89
3.3.1. Vocalic changes of Proto-Slavic	90
3.3.2. Consonantal changes of Early Proto-Slavic	93
3.4. LATE PROTO-SLAVIC	95
3.4.1. Changes affecting * <i>ǣrt</i> - and * <i>tǣrt</i> syllables	97
3.4.2. Changes affecting * <i>trbt</i> and * <i>trbt</i> syllables	100
3.5. OLD CHURCH SLAVONIC	102
CHAPTER 4: DESIGN OF THE STUDY	105
4.1. RESEARCH OBJECTIVES	105
4.2. LANGUAGE CORPUS	107
4.3. ACOUSTIC ANALYSIS OF THE DATA	109
4.4. STATISTICAL ANALYSIS OF THE DATA	110
CHAPTER 5: APICAL TRILL /r/	113
5.1. ARTICULATORY VARIANTS OF THE APICAL TRILL /r/	113
5.1.1. Trilled allophones of /r/	114
5.1.1.1. <i>Fully voiced trills</i>	115
5.1.1.2. <i>Fricativised trills</i>	116
5.1.1.3. <i>Approximantised trills</i>	117
5.1.2. Tapped allophones of /r/	118
5.1.3. Spirantised allophones of /r/	119
5.1.4. Approximantised allophones of /r/	120
5.1.5. Affricated allophones of /r/	121
5.2. INCIDENCE OF ALLOPHONES OF /r/	122
5.2.1. Allophones of /r/ in word-initial position	122
5.2.2. Allophones of /r/ in onset clusters	126
5.2.3. Allophones of /r/ in intervocalic position	130
5.2.4. Allophones of /r/ in pre-consonantal coda position	133
5.2.5. Allophones of /r/ in word-final position	137
5.3. ACOUSTIC PROPERTIES OF TRILLED ALLOPHONES OF /r/	139
5.3.1. Trilled allophones of /r/ in word-initial position	139
5.3.2. Trilled allophones of /r/ in onset clusters	144
5.3.3. Trilled allophones of /r/ in intervocalic position	150
5.3.4. Trilled allophones of /r/ in pre-consonantal coda position	153
5.3.5. Trilled allophones of /r/ in word-final position	156
5.4. ACOUSTIC PROPERTIES OF TAPPED ALLOPHONES OF /r/	159
5.4.1. Tapped allophones of /r/ in word-initial position	159
5.4.2. Tapped allophones of /r/ in onset clusters	161
5.4.3. Tapped allophones of /r/ in intervocalic position	171

5.4.4. Tapped allophones of /r/ in pre-consonantal position.....	172
5.4.5. Tapped allophones of /r/ in word-final position	178
5.5. ACOUSTIC PROPERTIES OF SPIRANTISED ALLOPHONES OF /r/.....	180
5.6. ACOUSTIC PROPERTIES OF APPROXIMANTISED ALLOPHONES OF /r/	181
5.7. ACOUSTIC PROPERTIES OF AFFRICATED ALLOPHONES OF /r/	182
5.8. SUMMARY.....	183
CHAPTER 6: PALATALISED TRILL /rʲ/.....	187
6.1. ARTICULATORY VARIANTS OF PALATALISED TRILL /rʲ/	187
6.1.1. Trilled variants of /rʲ/.....	187
6.1.2. Tapped variants of /rʲ/	188
6.1.3. Spirantised variants of /rʲ/	189
6.1.4. Approximantised variants of /rʲ/.....	190
6.2. INCIDENCE OF ALLOPHONES OF /rʲ/	191
6.2.1. Allophones of /rʲ/ in word-initial position.....	192
6.2.2. Allophones of /rʲ/ in onset clusters.....	193
6.2.3. Allophones of /rʲ/ in intervocalic position.....	196
6.2.4. Allophones of /rʲ/ in pre-consonantal position.....	197
6.2.5. Allophones of /rʲ/ in word-final position.....	198
6.3. ACOUSTIC PROPERTIES OF ALLOPHONES OF /rʲ/	200
6.3.1. Acoustic properties of trilled allophones of /rʲ/	200
6.3.2. Acoustic properties of tapped allophones of /rʲ/	203
6.3.2.1. <i>Tapped allophones of /rʲ/ in word-initial position</i>	203
6.3.2.2. <i>Tapped allophones of /rʲ/ in onset clusters</i>	205
6.3.2.3. <i>Tapped allophones of /rʲ/ in intervocalic position</i>	209
6.3.2.4. <i>Tapped allophones of /rʲ/ in word-final position</i>	211
6.4. ACOUSTIC PROPERTIES OF SPIRANTISED VARIANTS OF /rʲ/..	211
6.5. ACOUSTIC PROPERTIES OF APPROXIMANTISED VARIANTS OF /rʲ/.....	213
6.6. SUMMARY	214
CHAPTER 7: FRICATED TRILL /ɾ/	217
7.1. ARTICULATORY VARIANTS OF CZECH FRICATED TRILL /ɾ/..	218
7.1.1. Fully articulated trills [ɾ].....	218
7.1.2. One-tap trills [ɾ̥]	219
7.1.3. Spirantised variants of /ɾ/	220
7.2. INCIDENCE OF ALLOPHONES OF FRICATED TRILL /ɾ/	221
7.2.1. Allophones of /ɾ/ in word-initial position	221
7.2.2. Allophones of /ɾ/ in onset clusters	222
7.2.3. Allophones of /ɾ/ in intervocalic position	223
7.2.4. Allophones of /ɾ/ in pre-consonantal position	224
7.2.5. Allophones of /ɾ/ in word-final position	224

7.3. ACOUSTIC PROPERTIES OF TRILLED ALLOPHONES OF /ɾ/	225
7.3.1. Fully articulated allophones of /ɾ/ in word-initial position	225
7.3.2. Fully articulated allophones of /ɾ/ in onset clusters	226
7.3.3. Fully articulated allophones of /ɾ/ in intervocalic position	227
7.4. ACOUSTIC PROPERTIES OF ONE-TAP TRILLS	228
7.4.1. One-tap trills in word-initial position	228
7.4.2. One-tap trills in onset clusters	228
7.4.3. One-tap trills in intervocalic position	229
7.4.4. One-tap trills in pre-consonantal position	230
7.4.5. One-tap trills in word-final position	231
7.5. ACOUSTIC PROPERTIES OF SPIRANTISED VARIANTS OF /ɾ/ ..	232
7.6. SUMMARY	233
CHAPTER 8: OBSTRUENTISED RHOTICS	235
8.1. ARTICULATORY VARIANTS OF OBSTRUENTISED RHOTICS ..	235
8.1.1. Trilled allophones of obstruentised rhotics	236
8.1.2. Spirantised allophones of obstruentised rhotics	239
8.1.3. Affricated variants of obstruentised rhotics	239
8.1.4. Tapped variants of obstruentised rhotics	240
8.2. INCIDENCE OF ALLOPHONES OF OBSTRUENTISED RHOTICS	241
8.2.1. Obstruentised rhotics in word-initial pre-consonantal position	241
8.2.2. Obstruentised rhotics in inter-consonantal position	241
8.2.3. Obstruentised rhotics in post-consonantal word-final position	243
8.3. ACOUSTIC PROPERTIES OF OBSTRUENTISED RHOTICS	243
8.3.1. Properties of trilled allophones of obstruentised rhotics	243
8.3.1.1. <i>Trilled allophones of /ɾ/ in inter-consonantal position</i>	244
8.3.1.2. <i>Fricativised trilled allophones of obstruentised rhotics</i>	246
8.3.1.3. <i>Devoiced trilled allophones of obstruentised rhotics</i>	247
8.3.2. Spirantised allophones of obstruentised rhotics	249
8.3.3. Affricated allophones of obstruentised rhotics	250
8.3.4. Tapped allophones of obstruentised rhotics	251
8.4. OBSTRUENTISED ALLOPHONES OF CZECH FRICATED TRILL /ɾ/	252
8.4.1. Articulatory variants of obstruentised fricated trill	252
8.4.1.1. <i>Obstruentised /ɾ/ realised as one-tap trills</i>	253
8.4.1.2. <i>Spirantised variants of obstruentised /ɾ/</i>	254
8.5. INCIDENCE OF ALLOPHONES OF OBSTRUENTISED /ɾ/	255
8.5.1. Allophones of obstruentised /ɾ/ in inter-consonantal position	255
8.5.2. Allophones of obstruentised /ɾ/ in word-final position	256
8.6. ACOUSTIC PROPERTIES OF ALLOPHONES OF OBSTRUENTI- SED /ɾ/	257
8.6.1. Acoustic properties of one-tap trilled allophones of obstruentised /ɾ/	257

8.6.2. Acoustic properties of spirantised allophones of obstruentised /ɾ/	257
8.7. SUMMARY	259
CHAPTER 9: SYLLABIC RHOTICS	261
9.1. ARTICULATORY VARIANTS OF SYLLABIC RHOTICS	262
9.1.1. Trilled variants of syllabic /ɾ/	263
9.1.2. Tapped variants of syllabic /ɾ/	264
9.1.3. Spirantised variants of syllabic /ɾ/	265
9.1.4. Approximantised variant of syllabic /ɾ/	266
9.2. INCIDENCE OF ALLOPHONES OF SYLLABIC RHOTICS	267
9.2.1. Allophones of syllabic rhotics in word-initial pre-consonantal position	267
9.2.2. Allophones of syllabic rhotics in inter-consonantal position	267
9.2.3. Allophones of syllabic rhotics in word-final post-consonantal position	268
9.3. ACOUSTIC PROPERTIES OF TRILLED VARIANTS OF SYLLABIC RHOTICS	269
9.4. ACOUSTIC PROPERTIES OF TAPPED VARIANTS OF SYLLABIC RHOTICS	273
9.5. ACOUSTIC PROPERTIES OF SPIRANTISED VARIANTS OF SYLLABIC RHOTICS	276
9.6. ACOUSTIC PROPERTIES OF APPROXIMANTISED VARIANTS OF SYLLABIC RHOTICS	278
9.7. SUMMARY	279
CHAPTER 10: UVULAR TRILL /ʀ/	281
10.1. ARTICULATORY VARIANTS OF UVULAR TRILL /ʀ/	282
10.1.1. Approximantised trills [ʀ]	282
10.1.2. Fricativised trills [ʀ̥]	284
10.1.3. Voiced, spirantised [ʀ̥]	286
10.1.4. Voiceless, spirantised [χ]	286
10.1.5. Uvular approximant [ʉ]	287
10.1.6. Deletion of uvular rhotic	288
10.2. DISTRIBUTION OF ALLOPHONES OF UVULAR TRILL /ʀ/	290
10.2.1. Allophones of /ʀ/ in word-initial position	290
10.2.2. Allophones of /ʀ/ in onset clusters	291
10.2.3. Allophones of /ʀ/ in intervocalic position	293
10.2.4. Allophones of /ʀ/ in pre-consonantal position	293
10.2.5. Allophones of /ʀ/ in word-final position	295
10.3. ACOUSTIC PROPERTIES OF TRILLED VARIANTS OF /ʀ/	295
10.4. ACOUSTIC PROPERTIES OF SPIRANTISED VARIANTS OF /ʀ/	298
10.5. ACOUSTIC PROPERTIES OF APPROXIMANTISED VARIANTS OF /ʀ/	299
10.6. PALATALISED UVULAR RHOTIC?	300
10.7. SUMMARY	304

CHAPTER 11: DISCUSSION 305

11.1. APICAL TRILL /r/ 305

11.2. OBSTRUENTISED APICAL TRILL 308

11.3. PALATALISED TRILL /rʲ/ 309

11.4. FRICATED TRILL /r̥/ 311

11.5. SYLLABIC RHOTICS 312

11.6. UVULAR TRILL /R/ 314
