Contents

Contributors VII

Introduction 1
Sisi Zlatanova and Shailesh Nayak

Part 1: Use of Geo-Information technology in large disasters 9

1. **Geoinformation-Based Response to the 27 May Indonesia Earthquake – an Initial Assessment** 11
Norman Kerle and Barandi Widartono

2. **The Application of Geo-Technologies after Hurricane Katrina** 25
Henrike Brecht

3. **Application of Remote Sensing for Damage Assessment of Coastal Ecosystems in India due to the December 2004 Tsunami** 37
Shailesh Nayak and Anjali Bahuguna

4. **Increasing the Use of Geospatial Technologies for Emergency Response and Disaster Rehabilitation in Developing Countries** 57
David Stevens

Part 2: Remote Sensing Technology for Disaster Monitoring 73

5. **Adopting Multisensor Remote Sensing Datasets and Coupled Models for Disaster Management** 75
Gilbert L. Rochon, Dev Niyogi, Alok Chaturvedi, Rajarathinam Arangarasan, Krishna Madhavan, Larry Biehl, Joseph Quansah and Souleymane Fall

6. **Nearshore Coastal Processes Between Karwar and Bhatal, Central West Coast of India: Implications for Pollution Dispersion** 101
Viswanath S. Hedge, G. Shalini, Shailesh Nayak and Ajay S. Rajawat

7. **Landslide Hazard Zonation in Darjeeling Himalayas: a Case Study on Integration of IRS and SRTM Data** 121
Mopur Surendranath, Saibal Ghosh, Timir B. Ghoshal and Narayanaswamy Rajendran

8. **Monitoring and Interpretation of Urban Land Subsidence Using Radar Interferometric Time Series and Multi-Source GIS Database** 137
Swati Gehlot and Ramon F. Hanssen

9. **Extending the Functionality of the Consumer-Grade GPS for More Efficient GIS and Mapping Applications** 149
Robert M. Mikol

Part 3: System Architectures for Access of Geo-Information 165

10. **Interoperable Access Control for Geo Web Services in Disaster Management** 167
Jan Herrmann

11. **Spatial Data Infrastructure for Emergency Response in Netherlands** 179
Henk Scholten, Steven Fruijter, Arta Dilo and Erik van Borkulo

12. **Geocollaboration in Hazard, Risk and Response: Practical Experience with Real-Time Geocollaboration at Québec Civil Security** 199
Charles Siegel, Donald Fortin and Yves Gauthier

13. **On-line Street Network Analysis for Flood Evacuation Planning** 219
Darka Mioc, François Anton and Gengsheng Liang

14. **Multi-user tangible interfaces for effective decision-making in disaster management** 243
Harmen Hofstra, Henk Scholten, Sisi Zlatanova and Alessandra Scotta
